MEMO

On July 8, 1968, Mr. C. C. Davis requested that we issue a license on the domestic portion of Permit G-30167, in order that he might close a loan that he has pending at the F.H.A. After reviewing the file, it appears that it will be impossible for an examination to be made on the entire portion of the permit since Mr. Davis has not used the well since 1966 for irrigation purposes.

I have suggested and Mr. Davis has concurred that we issue a license for the domestic portion only and that he file a claim of water right for the irrigation portion with a priority date of September 1, 1961.

In order to issue a license in time for the loan to be closed this office requested Mr. Davis to supply the following information in regard to his domestic system:

Electric meter number 49-228-615
Horsepower $\frac{1}{2}$
Pump manufacturers name Sta-Rite
Model number 8 P 4 C 2
Capacity in gallons 600 gallons per hour
Copy of aerial photo showing the point of diversion and place of use

We do not need to conduct a field examination and a license should be issued for his domestic use only, based upon the information which he has supplied to us.

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE.

Notice is hereby given at 1:00 P. M., on the 26th day of August, 1966, at Cambridge, County of Washington, State of Idaho, before Arthur Wilson, Notary Public, at Cambridge, Idaho, proof will be submitted of the completion of works for the diversion of 1.33 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 30167, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is C. C. Davis, Cambridge, Idaho.
2. Said works of diversion will be fully completed on the date for such completion, and the amount of water which said works are capable of conveying to the place of use is 1.33 cubic feet per second.
3. The use to which said water has been applied is irrigation and domestic purposes and the amount applied to beneficial use is 1.33 cubic feet per second.
4. The point of diversion of said water is a well, located on NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 25, Twp. 14 N. R. 3 W.
5. The place where said water is used is N $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 25, Twp. 14 N. R. 3 W.
6. The date of priority which said user is prepared to establish is Sept. 11, 1961.

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 38202
Permit No. G- 30167
District No.

1. Name of Applicant: C. C. Davis
Postoffice address: Cambridge County: Washington State: Idaho
2. Quantity of water claimed: 1.33 cu.ft. per sec.
(a) Rate of withdrawal in cubic feet per second or Idaho
Miners' inches or gallons per minute
(b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean
4. Location of point of diversion or well is in the NE 1/4 of the SW 1/4 of Section 25
Twp. 14 N , Rge. 3 W , B.M., County of Washington
5. Water is to be used for: Irrigation and domestic
6. If for municipal, industrial or recreational purposes, give:
(a) Point of use of water is in the 1/4 of the 1/4 of Section , Twp.
Rge. , B.M.
(b) Waste water or sewage effluent is to be returned to
at a point in the 1/4 of the 1/4 of Section , Twp. , Rge. , B.M.
7. Kind of works: Well, pump, ditches and sprinkler system
8. Estimated cost of works: \$ 4,000
9. (a) Is reservoir to be used? Existing
(b) Capacity of reservoir: 9 Ac. Ft.
10. The time required for the completion of such work and complete application of the water to the proposed use is 5 years.
11. If applicant is a corporation, give:
I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: none
(a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
(b) 1.33 (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Re: Permit No. G-30167/67-2292 (Licensed)

Mr. C. C. Davis
Cambridge, Idaho

Dear Mr. Davis:

In reviewing the above referenced permit, we find that on October 16, 1969, a fee letter requesting \$5.00 was sent to your attention. This fee letter was in error. The reason for the duplicate letter is that apparently two separate examination reports were prepared and executed. We are sorry for this inconvenience and ask that you disregard our letter of October 16, 1969.

Please contact us if we may be of assistance to you in anyway.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Re: Permit No. 30167/67-2292

C. C. Davis
Cambridge,
Idaho 83610

Dear Mr. Representative of this department has made an examination of the works covered by your Permit ~~67-2292~~ and has found the following:

Quantity of water diverted: .02 c.f.s.

Amount of water that can be recognized as beneficially used under Idaho Law: .02 c.f.s.

The maximum quantity diverted shall not exceed .73 acre feet per season.

Purpose of use: for domestic use in N4SW Sec. 25, T. 14N, R. 3 W, B.M.

The priority date established is: September 6, 1961

A fee totaling \$ 5.00 must be received within 30 days from the date of this letter in order that we can issue you the License and Certificate of Water Right as described above.

Very truly yours,

C. Stephen Allred, Assistant
Reclamation Engineer

Weiser, Idaho

Dear Sirs:

This letter is to inform you that we are in the process of issuing a License and Certificate of Water Right on Permit G-31067. The license will be issued to Mr. C. C. Davis for domestic use from a well in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 25, Township 14 North, Range 3 West, Boise Meridian, in Washington County.

I understand that Mr. Davis needs the license in order to qualify for a F.H.A. loan. It will be impossible for this office to issue the license in such a short time. Mr. Davis has completed all requirements for the domestic portion of his permit and a license to that effect should be issued within the next few weeks.

Very truly yours,

C. Stephen Allred, Assistant
State Reclamation Engineer

CSA:kh

30167

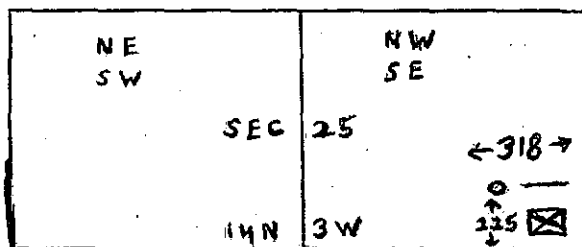

MEMO

On July 8, 1968, Mr. C. C. Davis requested that we issue a license on the domestic portion of Permit G-30167, in order that he might close a loan that he has pending at the F. H. A. After reviewing the file, it appears that it will be impossible for an examination to be made on the entire portion of the permit since Mr. Davis has not used the well since 1966 for irrigation purposes.

I have suggested and Mr. Davis has concurred that we issue a license for the domestic portion only and that he file a claim of water right for the irrigation portion with a priority date of September 1, 1961.

In order to issue a license in time for the loan to be closed this office requested Mr. Davis to supply the following information in regard to his domestic system:

Electric meter number 49-228-615
Horsepower $\frac{1}{2}$
Pump manufacturers name Sta-Rite
Model number 8 P 4 C 2
Capacity in gallons 600 gallons per hour
Copy of aerial photo showing the point of diversion and place of use

We do not need to conduct a field examination and a license should be issued for his domestic use only, based upon the information which he has supplied to us.

C. S. Allred

Re: Permit No. G-30167

C. C. Davis
Cambridge, Idaho 83610

Dear Mr. Davis:

It appearing to the State Reclamation Engineer that the terms and conditions of Permit G-30167 to appropriate the public waters of the State of Idaho, have not been complied with as to failure to submit adequate proof of beneficial use of water,

you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the State Reclamation Engineer on or before August 5, 1968, why said permit should not be cancelled.

Permit G-30167 claims the use of 1.33 c.f.s. of water. The point of diversion was to be located NEXSW¼, Sec. 25, T. 14 N, R. 3 W, B.M., Washington County,

and the permit was approved September 11, 1961.

Re: Permit No. G-30167

C. C. Davis
Cambridge, Idaho 83610

Dear Mr. Davis:

The Department of Reclamation recently contacted you in connection with a field examination for Permit G-30167. Findings of the examination indicate that the well covered by this permit produces no water and has not been beneficially used; therefore, it was suggested during the examination that this permit be relinquished.

The department is enclosing a relinquishment form for your use in this matter. Please complete this form and return it to the department so that we may close this file.

Thank you very much for your assistance in the matter.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Re: Permit No. G-30167

C. C. Davis
Cambridge, Idaho

Dear Mr. Davis:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the News-Reporter all submitted in proof of completion of works and beneficial use on Permit No. G-30167.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

M. Russell Bosch
Office Manager

C. C. Davis
Cambridge, Idaho

Dear Mr. Davis:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. _____. The proofs are to be made at _____ o'clock _____, on the _____ day of August, 19 66 before Arthur Wilson, Cambridge, Idaho Notary Public.

As of this date, we have mailed the Notice to the The News Reporter, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION

Very truly yours,

R. KEITH HIGGINSON, Deputy

Re: Permit No. G -30167

July 1, 1966

C. C. Davis
Cambridge, Idaho

Dear Mr. Davis:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30167 are due not later than Sept. 11, 1966

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

R. Keith Higginson, Deputy
STATE RECLAMATION ENGINEER

Re: Permit No. G-30167

C. C. Davis
Route #1, Box 25
Cambridge, Idaho

Dear Mr. Davis:

We received your letter of August 1st, in regard to your well and the well of your neighbor.

As noted in our letter of July 25, this office does not have sufficient personnel to help you.

The radio active material method of testing is new and we do not have any authentic information in regard to cost of materials, or of the detection equipment. One method requires that the sample of the water taken at the second well be accelerated in equipment which costs about \$25,000 and the detection equipment costs a few thousand dollars more. Such equipment requires highly trained personnel. The U. S. Government has such equipment at the reactor stations, however we do not know their charges for the material or analysis of the samples.

The simplest method is to check the neighbor's well before, during the time you are pumping and after you cease pumping. This would require a certain amount of cooperation by your neighbor and could require a considerable amount of time.

The matter can be discussed if you come to this office next week.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

RECEIVED

AUG 2 1962

Department of Reclamation

Cambridge Ida.

Aug 1 - 62

Ralph K. Thomas

State Reclamation Eng. Deputy.

Dear Sir: -

In reference to a letter
written by you on July 25,
in regard to our well
Permit no 30167.

I have a copy of a letter
written by Carl E. Tappan to
Mr Leonard G Ballard

Farmers Home Administration
Acting Supervisor at
Weiser, Ida.

This letter was written by
him in regard to our well

In this letter it states
that ~~that~~ your office would
have to investigate if the
owner of the domestic well
would file a complaint

30167

against our well

We feel that there must be some legal action that can be taken.

We have talked to two attorneys in wisconsin but cant find out a thing.

Our pasture is drying up as our pump hasnt run for a month. and our neighbor wont do a thing as long as it isnt pumping. What can we do?

We think he has just as much water now as he ever has had and is using us to get a new well at our expense.

There is a test that can be run which is radio active but we dont know where we could obtain this material if we could do it our selves or have to hire some one to do it.

30167

Would it simplify matter if
we would come to your office
in person if so when could
we find you in.

Let me hear from you
as soon as possible

Re: Permit No. 30167
E. C. Davis

Clare C. Davis
Route #1, Box 25
Cambridge, Idaho

Dear Mr. Davis:

We received your letter of July 23rd in regard to claim of your neighbor that your well interferes with his well.

Our records do not include your well log. The well driller is required by State Statute to file all well logs in this office, however, in your case, he has failed to file. Well logs are important evidence in determining possibility of interference between wells.

We know of no color test which could be used to check if your well was taking water from the other well.

An experienced engineer or geologist could advise you of conditions underground, however he would require some well logs, location of your neighbor's well, relative elevations and information on other wells in the area to be certain.

There are several engineering firms in Boise, Nampa and Caldwell who have experience in similar problems. Charges for work like this approximates \$100.00 per day. It appears that some engineering is in order before drilling another well. We are sorry that this office is not staffed for this work.

Very truly yours,

GEO. W. CARTER
State Reclamation Engineer

Geo. N. Carter,

State Representative Engineer
State House

Boise Ida

Dear Sir:-

Last summer in Aug.
your office issued us a permit
to drill a deep well for irrigation.

Our neighbor about a quarter
of a mile away says we have
pumped his domestic well
dry.

Our well is full of water and
his is still dry or he has
never told us any different.

We believe he has never
had enough water since he
put in his electric pump.

Of course when he carried it
into the house in a pail he

30167

had plenty.

His well is 28 ft deep.

Ours is 135 ft where we pump from. drilled 225 ft.

Is there some kind of a test we can run to find out if we are draining his well. Two attorneys have told us we will have to drill him a well also put in a pump if this is so.

We would like to be positive as we have a \$10,000 sprinkler which we cannot use.

Ours well has been shut down 3 weeks but filled in 9 days.

Whom would you suggest we see to get this settled.

We don't think his well is good enough for us to have to drill him a new one. 30167

It would cost more than
we could afford.

Our pasture grass is burning
up and there seems to be
noway we can stop it.

Let us hear from you as
soon as possible. on this.
as we would like to get
our sprinkler started again.

What is this Color Test
and who could we get to do it

Yours truly

Clare C. Haves

March 28, 1962

Mr. George N. Carter
State Reclamation Engineer
State House
Boise, Idaho

Dear Mr. Carter:

This letter will advise you that Clare C. Davis of Route # 1, Box 24, Cambridge, Idaho, has mortgaged his rights in Permit No. G 30167 for underground water rights to the United States of America, and thereby has agreed he will not assign or amend the Permit without the consent of the Farmers Home Administration.

Very truly,

Leonard G. Ballard,
Acting County Supervisor

Re: Permit No. G-30167

Mr. C. C. Davis,
Cambridge, Idaho.

Dear Mr. Davis:

We enclose Permit No. G-30167 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-6508 which was issued covering payment in the amount of \$5.25 for the filing fee of the above mentioned permit.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
