TRANSFER OF WATER RIGHT

TRANSFER NO. 4236
WATER RIGHT NO(S). 67-00219C/67-00220/67-00226/67-00229

This is to certify that: PINE CREEK PROPERTY OWNERS IRR ASSN
C/O PEARL J KETZ
3608 ADVENT GULCH RD
CAMBRIDGE ID 83610

has requested a change to the above captioned water right(s). This change in water right(s) is authorized pursuant to the provisions of Section 42-222, Idaho Code, provided the conditions listed below are met.

TRANSFER NO. 4236
WATER RIGHT NO(S). 67-00219C/67-00220/67-00226/67-00229

CONDITIONS/REMARKS:

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 67.
2. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.
3. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
4. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
5. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
6. Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
7. The total instantaneous diversion of water from all points of diversion under Transfer No. 4236 shall not exceed 1.28 cfs.
8. Right No. 67-00219C is limited to the irrigation of 14.0 acres in the place of use described above in a single irrigation season.
9. Right No. 67-00220 is limited to the irrigation of 12.0 acres in the place of use described above in a single irrigation season.
10. Right No. 67-00226 is limited to the irrigation of 17.0 acres in the place of use described above in a single irrigation season.
11. Right No. 67-00229 is limited to the irrigation of 21.0 acres in the place of use described above in a single irrigation season.
12. Right No. 67-00229 has been reduced by 0.40 cfs that has been lost through non-use.
13. Irrigated acres described in S35, T16N, R04W, are located south of the access road.
14. Four (4) points of diversion are located within SENE, and two (2) points of diversion are located within NWSE, S35, T16N, R04W. A single point of diversion is located on or near the line between SENE, S35 and SWNW, S36, T16N, R04W. The system has a total of eight (8) points of diversion.

Dated this 22nd day of

June

, 19 94.

MEMORANDUM

TO: FILE 67-00229
FROM: PAM SKAGGS CA
RE: TRANSFER # 4236
DATE: 12-16-93

=====

Original Transfer Application, Form and correspondence
regarding the above referenced Transfer is located within
file # 67-00219.

MAILED 100

JUL 01 1994

MEMORANDUM

TO: FILES 67-00219C/220/226 & 229

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER NO. 4236

DATE: June 8, 1994

=====

Transfer No. 4236 was filed to update five (5) decreed water rights to reflect the way the water is currently used. The rights have been consolidated and are used to irrigate parcels of land along Pine Creek from multiple diversion points.

A field exam was conducted to confirm existing uses under these vaguely described decreed rights. 64 Acres were confirmed as irrigated and eight (8) points of diversion identified. The application was amended to reflect the field exam results and to include the fifth right found to be part of this system.

The region recommendations included a conveyance loss using the original full ditch system, but the addition of multiple points of diversion from Pine Creek adjacent to irrigated parcels negates the need to calculate ditch losses.

The decree does not identify the specific number of acres under each right, but using 5/8" rate per acre as defined in the decree, 1.68 cfs could represent 134 original acres or more. Since the field exam identified a reduced number of irrigated acres the rate of diversion also needed to be adjusted. The rate of flow for the remaining acres is the standard 0.02 cfs per acre or 64 acres times 0.02 cfs equals 1.28 cfs.

All but the most junior right can be recommended with full rate of diversion and a specific number of acres identified. The junior right will be adjusted to reflect the changes in acres and rate.

67-00219C	0.28 cfs	14 acres	56.0 afa
(67-0219 Parts A & B combined into Part C)			
67-00220	0.24 cfs	12 acres	48.0 afa
67-00226	0.34 cfs	17 acres	68.0 afa
Subtotals	0.86 cfs	43 acres	172.0 afa

Total Rate - Senior Rights = Remaining Rate
1.28 cfs - 0.86 cfs = 0.42 cfs

0.82 cfs under 67-00229 adjusted to 0.42 cfs

67-00229	0.42 cfs	21 acres	84.0 afa
TOTALS	1.28 cfs	64 acres	256.0 afa

Conditions of Approval:

- R04 - Use of water under this water right will be regulated by the watermaster of State Water District No. 67.
- R31 - This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.
- T07 - The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
- T08 - Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
- T09 - Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
- T17 - Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.

Remarks: The total instantaneous diversion of water from all points of diversion under Transfer No. 4236 shall not exceed 1.28 cfs.

Remarks: Right No. 67-00229 is limited to the irrigation of 21.0 acres in the place of use described above in a single irrigation season. Irrigated acres described in S35, T16N, R04W, are located south of the access road. Four (4) points of diversion are located within SENE, and two (2) points of diversion are located within NWSE, S35, T16N, R04W. A single point of diversion is located on or near the line between SENE, S35 and SWNW, S36, T16N, R04W. The system has a total of eight (8) points of diversion. Right No. 67-00229 has been reduced by 0.40 cfs that has been lost through non-use.
