Dear Sir:

I'm afraid I'll have to plead ignorance as to the payment of the licensing fee of \$7.00 for our school well used for irrigation purposes.

My question now is whether payment of the \$7.00 fee will suffice along with a statement of need as far as the well is concerned?

Gentlemen:

It appearing to the Department of Water Administration that the terms and conditions of Permit G-29419/67-2288 to appropriate the public waters of the State of Idaho have not been complied with as to failure to submit licensing fee of \$7.00, you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the Director of the Department of Water Administration on or before June 19, 1971, why said permit should not be cancelled.

Permit G-29419/67-2288 claims the use of 0.24 cubic feet per second of water from a ground water source, the point of diversion was to be located within the SW¹/₄NE¹/₄ of Sec. 15, T. 16N, R. 1W, B.M., and the permit was approved February 15, 1961.

RE: Permit No. G-29419

Mort Curtis, Superintendent
School District B-13
Council, Idaho

Dear Mr. Curtis:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-29419 shows the well(8) is ~~XXXX~~ capable of conveying 1 miner's inches, or 0.02 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 7.00 , we will issue the Certificate of Completion of Works for 0.02 c.f.s. and the License and Certificate of Water Right for 0.02 c.f.s. confirming the right, with priority of February 7, 1961 to the use of subterranean water with the point of diversion in the SW¹/₄NE¹/₄, Sec. 15 for irrigation of 1 acre in the SW¹/₄NE¹/₄, Sec. 15, T. 16 N., R. 1 W., B.M.

Dear Mr. Curtis:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Adams County Leader, all submitted in proof of completion of works and beneficial use on Permit No. G-29419.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Re: Permit No. G-29419
School District No. 13

Gentlemen:

Thank you for your letter of January 27th and for the copy of the Permit which you sent us. Please find our check for \$1.50 enclosed for the fee for this copy.

We are now returning the completed Form No. 11 and two Form No. 36, as requested.

We have set the date for submitting proof on March 4th, at 11 A. M. before Ferd Muller, Notary Public. This will allow sufficient time for four (4) publications of the notice in the Adams County Leader, provided that the Notice is mailed to the newspaper from your office no later than Tuesday, February 8th. In fact, we will deliver a copy of the Notice to the paper this afternoon so that the type can be set up in plenty of time for the March 10th edition of the paper. We will tell the Editor not to run the notice, unless he hears from your office. If the Notice you send to the paper contains any additions or changes from the enclosed Notice, these changes or additions can easily be inserted before publication.

Thank you for your help in this matter.

Re: Permit No. G-29419

Gentlemen:

We are attorneys for School District B-13 of Adams County, Idaho, the holder of the above permit. Recently the Clerk of the District sent us forms 36 and 11 for making proof of completion of works. We informed the District that we would need the information from their permit in order to help them with this proof. A search was made in the District records, but apparently all papers relating to this filing were lost in the fire which destroyed the Council High School on October 14, 1964.

We request that you please send us a copy of the permit and we respectfully request that you grant an extension of time to permit these forms to be completed and returned to you.

It should take only a day or two for us to return the forms to you after we have received a copy of the permit.

Very truly yours,

Re: Permit No. G - 29419

School District B-13
Council, Idaho

Gentlemen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29419 are due not later than February 15, 1966.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,
Carl E. Tappan

Gentleman:

We enclose Permit No. G-29419 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-5646 which was issued covering payment in the amount of \$5.00 for the filing fee of the above mentioned permit.

You will note, under Question 10, that we have changed the required time for completion of works and complete application of the water to the proposed use to five years. However, you may make the required proofs at any time you are prepared to do so within that time.
