RE: Permit No. G-29418

Thomas E. Holmes
Midvale, Idaho

Dear Mr. Holmes:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-29418 shows the well(s) is ~~xxx~~ capable of conveying 3 miner's inches, or 0.06 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 7.00 , we will issue the Certificate of Completion of Works for 0.06 c.f.s. and the License and Certificate of Water Right for 0.06 c.f.s. confirming the right, with priority of February 7, 1961, to the use of subterranean water with the point of diversion in the SE¹/₄NE¹/₄, Sec. 18 for irrigation of 3 acres in the SE¹/₄NE¹/₄, Sec. 18, T. 13 N., R. 3 W., B.M.

Dear Mr. Holmes:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. G-29418. The proofs are to be made at 1:00 o'clock P.M., on the 1st day of February, 1966, before Arthur Wilson, Cambridge, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Cambridge News Reporter, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

Re: Permit No. G - 29418

Thomas E. Holmes
Midvale, Idaho

Dear Mr. Holmes:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29418 are due not later than February 10, 1966.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Carl E. Tappan

Dear Sir:

Enclosed you will find the application for permit for underground water which was returned for correction.

The land description was correct but the map had been drawn out of scale and in the wrong location. It should be correct as it now is shown.

I have increased the amount of water claimed, but not to the amount of one miner's inch for each acres to be irrigated as it is not possible for the well to produce that amount of water, in my estimation.

Trusting you will find this application correct.

Very truly yours,

Thomas E. Holmes

Re. app for Permit

Thomas E. Holmes
Midvale, Idaho

The point of diversion is shown as SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 18, on your application under 4. The land list under 12 is shown as 20 acres in SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 18. Your two maps show the well in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, and the land to include portions of SW $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, and SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 18, T. 13 N., R. 3 W. The amount of water claimed, 4.5 miners inches, is rather low. We suggest that the amount be changed to one miner's inch for each acre to be irrigated. There will be no change in the cost of the fee, if not over 50 miners inches
