LaVere A. Hoffer,
Route #3,
Weiser, Idaho.

Dear Mr. Hoffer:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. G-28247. The proofs are to be made at 10:00 o'clock A.M., on the 13th day of November, 1964, before A. J. Salfen, Courthouse, Weiser, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Weiser American Weiser, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

Dear Mr. Hoffer:

Receipt is acknowledged for your Notice of Proof of Completion of Works and Application of Water to Beneficial Use. However, there were several differences in your Notice and your permit.

First, we require a 40-day period from the date of receipt of the Notice to insure publication for four consecutive weeks.

Second, we do not have a copy of the Southern Idaho Land Company's Orchard and Garden Tracts to check your place of use.

Third, the priority date on said permit is October 27, 1959.

Enclosed are new forms 36 for your use in correcting the above errors. Please use the Government system for designation of land areas. All items to be corrected have been marked in red on your notice.

Return promptly.

Re: Permit No. G- 28247

Dear Mr. Hoffer:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 28247 are due not later than Nov. 6, 1964

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

CARL E. TAPPAN

Dear Mrs. Hoffer:

Returned herewith the Notice of Proof on Permit No. 21864 for the following reason: The name of the notary not given.

Please look on the back of your original application where your contract with the State is shown in detail. There you will see that the last proof to be made is Beneficial Use Proof due January 19, 1962.

Permit No. G-28247 is a groundwater permit which requires that both Completion of Works and Beneficial Use Proofs are to be made on the same date, November 6, 1964.

Kindly complete the Notice of Proof and return to this office without delay.

Dear Mr. Hoffer:

Enclosed are the application you submitted with attached check for \$5.00 filing fee, one Form 3, application for permit to appropriate subterranean water partially completed and one blank Form 3, with instructions.

On Page 2 of the application, show the number of acres in each 40-acre subdivision which will be irrigated. The lot numbers you show are not part of the public land survey and we have no information in regard to the location of such lots. Complete answers to No. 13 at bottom of page 2.

On both Form no. 0, sketch, show the location of the land to be irrigated and the location of the well within the section, being bounded by four heavy black lines, as well as the location of Crystal Lake or is that Buttermilk Slough?

You will notice on page 7 of the regulations and instructions that it is not necessary to file for permit for domestic water where the amount does not exceed 13,000 gallons per day, or one miner's inch of water, however you may make the application.
