Dear Mr. Carson:

One of the conditions of approval of your water Permit No. 67-2338 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 17, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Carson:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Weiser American, all submitted in proof of completion of works and beneficial use on Permit No. G-27377.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Re: Permits No. G-27377; 27378

William M. Carson
687 W. Butterfield St.
Weiser, Idaho

Dear Mr. Carson:

Returned herewith are the forms we received which have been corrected to agree with the permit records. Also enclosed are two forms for amending the land list and blank forms 36 and 36A.

For Permit No. 27378, you show E $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 13, and the permit shows S $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 13. Actually our map shows 2 or 3 acres in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, east of the creek, and about 12 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 13.

For Permit No. G-27377, you included the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 14, in the description which I believe is land you do not own and our map shows there is only an acre or two north and west of the creek.

Abbreviation of the land descriptions decreases the publication cost and still is a proper description.

Kindly correct as necessary. Remember there is a fee of \$1.00 for recording any amendment to a permit. The date for making the proofs including Forms 11, will not need to be changed if the forms are returned promptly.

On the line after "Notary Public, at (address) should show the street address or the name of the building.

Application for Amendment

POINT OF DIVERSION

Permit No. G-27377

Comes now William M. Carson and
represent to the State Reclamation Engineer of the State of Idaho:

That he is (are) the owner and holder of Permit to appropriate the Public
Waters of the State of Idaho, No. G-27377.

That the point of diversion is described in said Permit as being located:

Re: Permit No. G- 27377

Weiser, Idaho

Dear Mr. Carson:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 27377 are due not later than May 22, 1963

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

State Reclamation Engineer

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-27377

RECEIVED
AUG 7 1958
Department of Reclamation

Comes now William M. Carson and
represents to the State Reclamation Engineer of the State of Idaho:

That he is (~~###~~) the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-27377.

That the points of diversion ^{are} described in said permit as being located:

NW $\frac{1}{4}$ NW $\frac{1}{4}$ and SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 14, Twp. 11 N., Rge. 5 W.

That he now requests that the points of diversion be changed to ~~a~~ points located NW $\frac{1}{4}$ NW $\frac{1}{4}$ and two points in SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 14, Twp. 11 N. Rge. 5 W.

That the reason for desiring to make such change is as follows:

insufficient water from the one well drilled in said SW $\frac{1}{4}$ NW $\frac{1}{4}$.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.
