

Application for Amendment

POINT OF DIVERSION

Permit No. G-26627

RECEIVED
SEP 10 1962
Department of Reclamation

Comes now Benjamin R. Fairchild and
represents to the State Reclamation Engineer of the State of Idaho:

That he is (~~was~~) the owner and holder of Permit to Appropriate the Public
Waters of the State of Idaho, No. G-266 27.

That the point of diversion is described in said Permit as being located:

SW 1/4 NW 1/4, Sec. 3

That he now requests that the point of diversion be changed to a point
located: SE 1/4 NW 1/4, Sec. 3

That the reason for desiring to make such change is as follows:

To correct and amend the original permit, because that is where the
diversion is.

That no one will be injured by such change, and that such change will be made
at Permit Holder's own risk.

Signed at Weiser, Idaho, this 7th. day of September,
19 62.

Benjamin R. Fairchild

Date of Receipt at Department of Reclamation: September 10, 1962

APPROVAL OF STATE RECLAMATION ENGINEER

Ralph W. Thomas, Deputy

I, ~~Benjamin R. Fairchild~~, State Reclamation Engineer of the State of Idaho, HEREBY APPROVE
the above and foregoing application for amendment to Permit to Appropriate the Public
Waters of the State of Idaho, No. G-26627. This approval constitutes a new permit
and is issued as an amendment to the original permit, to which it refers and of which
it becomes a part, and said application is approved only insofar as the rights of others
will not be adversely affected thereby.

Recorded in Book 94 of
Permits, at Page 26627

Re: Permit No. G-26627

Benjamin R. Fairchild
Midvale, Idaho

Dear Mr. Fairchild:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-26627 shows the well is (are) capable of conveying 30 miner's inches, or .60 c.f.s. of water for the irrigation of 90 acres.

Upon receipt of the statutory fees, totaling \$ 11.00 , which consists of a Completion of Works fee of \$ 5.00 and License and Certificate of Water Right fee of \$ 6.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of November 26, 1956 to the use of .60 second feet of subterranean water with the point of diversion in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 3 for irrigation of 90 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 3, T. 13 N., R. 3 W., B.M.

Your permit shows the point of diversion to be in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 3 so it will be necessary to amend the point of diversion.

Since your permit does not include the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 3 it will be necessary to amend the land list on the permit if you want the extra land included in the license. Complete the enclosed forms, submit them with the above mentioned statutory fees, plus an additional fee of \$2.00 for recording the amendments, and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above.

If you do not want the extra land included, the statutory fees will total \$10.00 and the land list will be restricted to the lands shown on the permit which are actually irrigated.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Proof of Application of Water to Beneficial Use

and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Benjamin R. Fairchild, farmer, Midvale, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 26627, December 10, 1956. → 11-26-56

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Well and a pond on the Southwest Quarter of the Northwest Quarter of Section 3, Township 13 North of Range 3 West of the Boise Meridian.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Pumps. One Peerless Model PB, high pressure pump with discharge 3 inches in diameter 4 inch intake and 8 inch propeller; one pump 6 inch intake, 4 inch discharge and 8 inch propeller through open pipe to the high points on the land. Well with 12 foot casing, 30 inches in diameter, 3 feet to the top of the water level; the lower 8 feet is a perforated casing and is situated in the water. No accurate measurement has as yet been taken but if the pumps run continuously during the irrigation season they pump enough water to irrigate all of the lands during the irrigating season.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. 30 acres in the SW Quarter of the NW Quarter of Section 3; 40 acres or all of the SE Quarter of the NW Quarter of Section 3; North 20 acres of the NE Quarter of the SW Quarter of Section 3, all of Township 13 North of Range 3 W.B.M. By use of open pipe and sprinkler system; all of the above described lands have been actually irrigated. These are all cultivated lands and the lands are rendered much more valuable by reason of the irrigation and good crops of hay and grain are produced thereon.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Virgil Fairchild, Midvale, Idaho.

26627

B

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. Thirty (30) acres in the Southwest Quarter of the Northwest Quarter, Forty (40) acres in the Southeast Quarter of the Northwest North, Twenty acres (20) of the North east Quarter of the Southwest Quater of Section Three (3), Township Thirteen (13) North of Range Three (3) West of the Boise Meridian.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what etxent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy Loam About One (1) miner's inch of water per acre is necessary for complete irrigation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. During the irrigating season of 1959 and 1960.

(Signed) A. Claire Towell

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Washington County of Washington State of Idaho, on this 8 day of December A. NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 2:00 P.M., on the 8th day of December 1960, at Weiser, County of Washington, State of Idaho, before George Donart, Notary Public, at Weiser, Idaho, proof will be submitted of the completion of works for the diversion of 1.8 cubic feet per second of underground water from a well, and of application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-26627, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Benjamin R. Fairchild, Midvale Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 1.8 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 1.8 cubic feet per second.

4. The point of diversion of said water is SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 3; Twp. 13 N; Rge. 3 W. B. M.

5. The place where said water is used is S $\frac{1}{2}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 3 Twp. 13N; Rge. 3 W. B. M.

6. The date of priority which said user is prepared to establish is November 26, 1956.

Re: Permit No. G-26627

DEPOSITIONS ARE OF NO VALUE
UNLESS AFFIDAVIT OF PUBLICATION
IS ATTACHED

Mr. Benjamin R. Fairchild,
Midvale, Idaho

Dear Mr. Fairchild:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26627. The proofs are to be made at 2:00 o'clock P.M., on the 8th day of December, 1960, ~~xxxx~~, before George Donart, Weiser, Idaho, Notary Public.

As of this date we have mailed the Notice to the Upper Country News--Reporter with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 34546
Permit No. G- 26627
District No.

1. Name of Applicant: BENJAMIN R. FAIRCHILD
Postoffice address: Midvale County: Washington State: Idaho
2. Quantity of water claimed: 1.8 c.f.s.
 (a) Rate of withdrawal in cubic feet per second. 1.8 or Idaho
 Miners' inches 90 or gallons per minute.
 (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Underground, Dug well, 36" perforated casing.
4. Location of point of diversion or well is in the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 3
 Twp. 13 N. , Rge. 3 W. , B.M., County of Washington
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
 (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
 Rge. , B.M.
 (b) Waste water or sewage effluent is to be returned to
 at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Underground tile and pond, pump and ditches.
8. Estimated cost of works: \$ 2,000.00
9. (a) Is reservoir to be used? Pond
 (b) Capacity of reservoir: 40 ft. x 200 ft. x 6 ft.
10. The time required for the completion of such work and complete application of the water to the proposed use is 5 years.
11. If applicant is a corporation, give:
 I. (a) Date and place of incorporation:
 (b) Amount of capital stock: \$ (c) Amount paid in: \$
 (d) Names and addresses of directors:
 II. The financial resources of the applicant are (a) Cash on hand: \$
 (b) Treasury stock: (c) Bonds to be issued:
 (d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None.
 (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 (b) (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

/s/ BENJAMIN R. FAIRCHILD Applicant.

By

Agent.

Date of first receipt at Department of Reclamation: 8:00 a.m. November 26, 1956

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is G-26627

Recorded in Book 94 Page 26627 Approved December 10, 1956

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ to be filed on or before

Work to begin on or before and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before June 10, 1959.

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made on or before December 10, 1961.

Witness my hand this 10th day of December, 1956.

/s/ MARK R. KULP

State Reclamation Engineer.

IN TESTIMONY WHEREOF, We, ROBERT E. SMYLLIE, Governor of the State of Idaho, and JAS. H. YOUNG, Secretary of State of the State of Idaho, have caused this instrument to be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 10th day of December, 1956.

Countersigned:

Permit No. G-26627 ✓
CERTIFICATE OF COMPLETION OF WORKS

TO ALL WHOM IT MAY CONCERN:

This is to certify that BENJAMIN R. FAIRCHILD of Midvale, County of Washington, and State of Idaho, the holder of Permit No. G-26627, issued upon Application No. G-34546 bearing date of priority of November 26, 1956, authorizing the diversion of 1.8 second feet of waters of a well County of Washington, State of Idaho, for irrigation purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use .60 second feet of the waters of a well from subterranean flow; that the point of diversion of said waters SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 3, T. 13 N., R. 3 W., B.M. and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: 70 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 3, T. 13 N., R. 3 W., B.M.

Witness my hand this 22nd day of October, A. D. 1962.

RE: Permit No. G-26627

Benjamin H. Fairchild
Midvale, Idaho

Dear Mr. Fairchild:

Enclosed are the Certificate of Completion of Works, License and Certificate of Water Right, and Amendment to the Point of Diversion on the above numbered permit.

Also enclosed is departmental receipt No. G-7515 in the amount of \$10.00 covering the fees for the certificates and for recording the amendment.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

RE: Permit No. G-26627

Benjamin R. Fairchild
Midvale, Idaho

Dear Mr. Fairchild:

Returned herewith Application for Amendment and attached check for \$12.00.

Our field examiner found the point of diversion to be in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 30. This coincides with the small sketch map you sent with the amendment. Therefore it seems that the change should read from SW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 3 to SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 3. Please make the necessary correction if you agree with us.

The examination also revealed that the land irrigated included the SE $\frac{1}{4}$ NW $\frac{1}{4}$, and the N $\frac{1}{2}$ SW $\frac{1}{4}$, Section 3. One of these tracts, the NW $\frac{1}{4}$ SW $\frac{1}{4}$, is not found in the original permit, nor has an amendment to add this land been made. For this reason only the SE $\frac{1}{4}$ NW $\frac{1}{4}$ and the NE $\frac{1}{4}$ SW $\frac{1}{4}$ can be licensed unless you send an amendment requesting inclusion of the NW $\frac{1}{4}$ SW $\frac{1}{4}$.

We are enclosing one new form each for amending the point of diversion and land list for your use.

In regard to the fees choose one of the following alternatives:

Amended point of diversion, \$1.00; 2 40-acre subdivisions, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 3, License and Certificate of Water Right, \$4.00 (restricted to lands shown on permit); Certificate of Completion of Works, \$5.00, total \$10.00.

Amendment to the point of diversion, \$1.00; amendment to the land list, adding the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 3, \$1.00; Completion of Works fee, \$5.00; License and Certificate of Water Right fee, three 40-acre tracts (as found by examiner) \$6.00, total \$13.00

Kindly complete the forms, sign and return to this office promptly.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit No. G-26627

Benjamin R. Fairchild
Midvale, Idaho

Dear Mr. Fairchild:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-26627 shows the well is (acc) capable of conveying 30 miner's inches, or .60 c.f.s. of water for the irrigation of 90 acres.

Upon receipt of the statutory fees, totaling \$ 11.00 , which consists of a Completion of Works fee of \$5.00 and License and Certificate of Water Right fee of \$6.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of November 26, 1956 . to the use of .60 second feet of subterranean water with the point of diversion in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 3 for irrigation of 90 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 3, T. 13 N., R. 3 W., B.M.

Your permit shows the point of diversion to be in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 3 so it will be necessary to amend the point of diversion.

Since your permit does not include the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 3 it will be necessary to amend the land list on the permit if you want the extra land included in the license. Complete the enclosed forms, submit them with the above mentioned statutory fees, plus an additional fee of \$2.00 for recording the amendments, and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above.

If you do not want the extra land included, the statutory fees will total \$10.00 and the land list will be restricted to the lands shown on the permit which are actually irrigated.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

BOISE, IDAHO

Permit No. 9-26627

Proof of Application of Water to Beneficial Use

and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Benjamin R. Fairchild, farmer, Midvale, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 9-26627, December 10, 1956.

→ 11-26-56

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Well and a pond on the Southwest Quarter of the Northwest Quarter of Section 3, Township 13 North of Range 3 West of the Boise Meridian.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Pumps. One Peerless Model PB, high pressure pump with discharge 3 inches in diameter 4 inch intake and 8 inch propeller; one pump 6 inch intake, 4 inch discharge and 8 inch propeller through open pipe to the high points on the land. Well with 12 foot casing, 30 inches in diameter, 3 feet to the top of the water level; the lower 8 feet is a perforated casing and is situated in the water. No accurate measurement has as yet been taken but if the pumps run continuously during the irrigation season they pump enough water to irrigate all of the lands during the irrigating season.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. 30 acres in the SW Quarter of the NW Quarter of Section 3; 40 acres or all of the SE Quarter of the NW Quarter of Section 3; North 20 acres of the NE Quarter of the SW Quarter of Section 3, all of Township 13 North of Range 3 W.B.M. By use of open pipe and sprinkler system; all of the above described lands have been actually irrigated. These are all cultivated lands and the lands

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Virgil Fairchild, Midvale, Idaho.

926627

[Handwritten signature]

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 90 miners inches or 1.8 second feet.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water has been used in the entire irrigation seasons of 1959 and 1960 upon the above described lands in an amount at least equal to 90 miners inches.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans.

(Sign) Benjamin R. Fairchild

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Weiser, County of Washington, State of Idaho, on this 8th day of December, A. Permit No.

Proof of Application of Water to Beneficial Use

Deposition of Witness ^{and Completion of Works}

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. R. Claire Towell Farmer Midvale, Idaho

Ques. 2. Are you acquainted with Benjamin Fairchild, the holder of Permit No. G 26627? How long have you known him and where does he reside?

Ans. Yes, for about Thirty (30) years
Midvale, Idaho

Ques. 3. Have you read or heard read said Permit No. G 26627, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The source of the water is a well and a pond located on the Southwest Quarter of the Northwest Quarter of Section Three (3), Township Thirteen (13) North of Range Three (3) West of the Boise Meridian. It is conveyed from the well and pond by pumps, and aluminum pipes are used to convey it from the pumps out to the land.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. One and 8/10 (1.8)

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. One and 5/10 (1.5) I estimated this by the amount of water that was going through the sprinkler system.

B26627

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. Thirty (30) acres in the Southwest Quarter of the Northwest Quarter, Forty (40) acres in the Southeast Quarter of the Northwest North, Twenty acres (20) of the North east Quarter of the
Southwest Quarter of the Northwest Quarter of the Northwest Quarter of the
Range Three (3) West of the Boise Meridian.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy Loam About One (1) miner's inch of water per acre is
necessary for complete irrigation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. During the irrigating season of 1959 and 1960.

(Signed) A. Claire Towell

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Wesley
County of Washington State of Idaho, on this 8 day of December

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. **Sandy Loam About One (1) miner's inch of water per acre is necessary for complete irrigation.**

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. **No**

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. **During the irrigating season of 1959 and 1960.**

(Signed) Adolph Gaertner

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Boise,
County of Washington, State of Idaho, on this 8 day of December,
A. D. 1960.

Joe. D. Duncanson
Notary Public.

My commission expires 2/18-64

26627

The land is all cultivated and good crops of hay and grain are being produced thereon as a result of irrigation.

From the pond to the well there is a double 10 inch concrete tile pipe 45 feet in length. Under the Middle Valley Irrigation Company's canal is a 10 inch steel tile 60 feet long and 60 feet of 12 inch concrete tile. Below the canal there is 1200 feet of 10 inch concrete tile with 3 foot air vent and 170 feet of 8 inch tile about three and one-half feet below the ground level in the Southwest Quarter of the Northwest Quarter in said Section 3.

The land is all cultivated and good crops of hay and grain are being produced thereon as a result of irrigation.

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 2:00 P.M., on the 8th day of December 1960, at Weiser, County of Washington, State of Idaho, before George Dugan, Notary Public, at Weiser, Idaho, proof will be submitted of the completion of works for the diversion of 1.8 cubic feet per second of unappropriated water from a well, and of application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-20827, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Benjamin R. Fahrenhaid, Malvale Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 1.8 cubic feet per second.

3. The use to which said water has been applied is a irrigation purposes, and the amount applied to beneficial use is 1.8 cubic feet per second.

4. The point of diversion of said water is SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 3; Twp. 13 N; Rge. 3 W. B. M.

5. The place where said water is used is SW $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 3 Twp. 13 N; Rge. 3 W. B. M.

6. The date of payment which said user is prepared to establish is November 26, 1960.

RE: Permit No. G-26627

Mr. Benjamin R. Fairchild
Midvale, Idaho

Dear Mr. Fairchild:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in The News-Reporter, all submitted in proof of completion of work and beneficial use on Permit No. G-26627.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Gentlemen:

We have the tear sheet for proofing on the notice
of publication for Permit No. G-26627, in the name of Benjamin
R. Fairchild, and find the following correction:

Paragraph 5 - line 2 should read S¹W¹, NE¹SW¹,
Sec. 3, as a comma was left out changing the entire
description.

Please mail us a tear sheet after correction has
been made.

Very truly yours,

GEO. N. CARTER

Re: Permit No. G-26627

Mr. Benjamin R. Fairchild,
Midvale, Idaho

Dear Mr. Fairchild:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26627. The proofs are to be made at 2:00 o'clock P.M., on the 8th day of December, 1960, ~~XXXX~~ before George Donart, Weiser, Idaho, Notary Public.

As of this date we have mailed the Notice to the Upper Country News-Reporter with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Application for Permit

Benjamin R. Fairchild
Midvale, Idaho

Dear Mr. Fairchild:

We are returning your Application for Permit for the following information:

We assume on the sketch map sent in with the Application and also your answer to number twelve (12) under the tabulation of your land description that you intend to irrigate 30 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, 40 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, and 20 acres in the NE $\frac{1}{4}$ SW $\frac{1}{4}$. Providing this is not correct, please so state. We assume that you are not going to irrigate anything in the NW $\frac{1}{4}$ SW $\frac{1}{4}$.

Under question two (2) on the first page of the Application you state that your quantity of water claimed is 25 cubic feet per second. We can allow a filing for one inch per acre, which in this case, if you are only irrigating 90 acres, you can file on 90 inches of water or 1.8 cubic feet per second.

Providing this is the correct amount that you wish to file on, we wish that you would substitute us a check for \$5.25 instead of the \$5.00 check attached hereto, as the filing fee is \$5.00 for the first second foot and 25 cents additional for each second foot or fraction in addition to the one second.

We are not sure as to your point of diversion under question four (4). You state that your well is located, or your point of diversion is in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 3, and the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 3.

Under question seven (7) you state that your works consist of under-ground tile and pond. Therefore, we assume that you are not putting down a well, but are tiling your ground and filing on the water collected in the tile. Please show on the sketch map the lo-

826627

Benjamin R. Fairchild

-2-

November 28, 1951

cation of your tile across your lands. Also, show on sketch map the actual point of diversion.

We would assume if you are collecting water in a tile drain that it would be necessary for you to pump the water back to the land to be irrigated. If this is correct, show location of pump.

Please make the above corrections and return to this Department.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Application for Permit

Mr. Ben R. Farichild:

In reply to your letter we enclose a form of application for permit to appropriate subterranean water from a well together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of completion of work and application of the water to beneficial use are required. The time required for making these proofs should be indicated under Question 10.

Very truly yours,
