**Notice For Publication
NOTICE OF PROOF OF APPLI-
CATION OF WATER TO
BENEFICIAL USE**

Notice is hereby given that at 10:00 A. M. on the 26th day of June, 1961, at Cambridge, County of Washington, Stat of Idaho, before May Collins, Notary Public, proof will be submitted of the application to beneficial use of 1.5 cubic feet per second of the waters of Springs in slough (un-named stream) in accordance with the terms and conditions of Permit No 25822 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are: EDWIN G HORNING, Midvale, Idaho.

The use to which said water has been applied is irrigation & Stock water.

The amount applied to beneficial use is 1.5 second feet.

The place where said water is used is: 75 acres—35 acres in SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 18, and 40 acres in SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 17, Twp. 13 N., Range 3 WBM, Washington County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is pump and pipe from un-named stream.

The right to take water from such works is based upon Permit No. 25822.

The source of supply from which such water is diverted is Springs in slough.

Point of Diversion is: SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 17, Twp. 13 N, R. 3 WBM.

The date of priority which said user is prepared to establish is July 7, 1955.

To Appropriate the Public Waters of the State of Idaho

67-2250

APPLICATION No. 33687
 PERMIT No. 25822
 DISTRICT No.

Edwin G. Horning
 Midvale
 Idaho

1. Name of Applicant: EDWIN G. HORNING

Postoffice address: Midvale

County: Washington

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation: None
 (b) Amount of capital stock: None
 (c) Amount paid in: None
 (d) Names and addresses of directors: None

II. The financial resources of the applicant are:

- (a) Cash on hand: \$2000.00
 (b) Treasury stock: None
 (c) Bonds to be issued: None
 (d) Other resources: None

2. Quantity of water claimed: one and one-half (1.5) cubic feet per second.

3. Source of water supply: springs in slough (un-named stream) which is a tributary of Weiser River, water never reaches River only in flood stage.

Beginning at the SE corner of NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 18
 4. Location of point of diversion: South on E. line 920 feet distant from the SE of NE of NE corner of Section 18, T. 13 N, R. 3 W, B. M., and is in the SW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 17, T. 13 N, R. 3 W, B. M., County of Washington

5. Water is to be used for stock water & sprinkler irrigation

6. If for mining, milling, power or manufacturing purposes, give:

- (a) Point of use of water: feet distant from corner of Section
 T. , R. , B. M., in the of Section , T. , R. , B. M.
 (b) Amount of power generated: H.P., under feet head.
 (c) Water is to be returned to at a point feet
 distant from the corner of Section , T. , R. , B. M., in the
 of Section , T. , R. , B. M.

7. Estimated cost of works: \$ 1500.00

8. Kind of works: Pipe line for sprinkler

9. Height of dam feet; length of dam at top feet; length of dam at bottom
 feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;
 dimensions of flume:

Diameter of pipe 4 inches; length of conduit 1200 feet miles.
 Average grade per mile feet.

12. The time required for the completion of such work is 3 years years.

13. The time required for the complete application of the water to the proposed use is three additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None

16. (a) Is reservoir to be used? No If so, fill in (b) and (c) below:
(b) Name of Reservoir and number of Storage Permit: None
(c) Date of filing of Application for Storage Permit and Name of Applicant: None

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

EDWIN G. HORNING

Applicant.

Re: Permit No. 25822

Edwin G. Horning
Midvale, Idaho

Dear Mr. Horning:

Our field engineer's report on his inspection of the application of water to beneficial use under the terms of Permit No. 25822 shows the pump & sprinklers ~~are~~ capable of conveying 45 miner's inches, or 0.90 c.f.s. of water for the irrigation of 85 acres.

Upon receipt of the statutory fee of \$6.00 -based at the rate of \$2.00 for each 40-acre subdivision - we will issue the License and Certificate of Water Right, confirming the right with priority of July 7, 1955 to the use of 0.90 second feet of surface water with the point of diversion in the SW¹/₄, Sec. 17 for irrigation and stock water in the SE¹/₄, Sec. 17; SE¹/₄, Sec. 18, T. 13 N., R. 3 W., B.M.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

REPORT ON PROOF OF Beneficial Use

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permit No. 25822

Edwin G. Horning
Midvale, Idaho

Dear Mr. Horning:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the The News-Reporter, all submitted in proof of ~~completion of works and~~ beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

JUN 28 1961

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Department of Reclamation

Permit No. 25822

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Edwin G. Horning Residence Midvale, Idaho Farmer Midvale, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 25822, dated July 7, 1955, date of priority July 7, 1955.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of water supply is an unnamed slough. Location of Point of diversion SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 17, Twp 13 N R 3 WBM

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Works of diversion are an electric motored pump, 15HP, able to throw 300 gal. of water per minute, carried to fields with 1440 ft. of 4" tubing, reduced to 120 feet of 3" tubing. 37 sprinkler heads are used with 3/16" x 3/32" nozzles.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation, irrigating about 75 acres of land. Improvement which is a direct result of the use of said water is an increased yield of crops raised, furnishing more hay and pasture for milk cows. Lands irrigated are a portion of the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 18, Twp 13 N R 3 WBM, a portion of SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 17, and all of SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 17, Township 13 N. R 3 WBM.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Natural springs and land drainage cause the water to be in the slough.

25822

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water diverted under above mentioned permit has been used the past five years to the full extent during the summer months.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other waters

(Sign) *Edwin J. Harning*

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed

and sworn to before me, at my office in Cambridge, County of Washington,

PERMIT NO. 25822

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Claude F. Keithley Age 64 Residence Midvale, Idaho Farming

Ques. 2. Are you acquainted with Edwin G. Horning, the holder of Permit No. 25822? How long have you known him and where does he reside?

Ans. Have known him 47 years. He resides at Midvale, Idaho

Ques. 3. Have you read or heard read said Permit No. 25822, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of water is an unnamed slough. Place of diversion in SW 1/4 NW 1/4 Sec. 17, Twp. 13 N, R 3 WBM. Water is pumped from slough with an electric pump having 15 HP motor. Main pipe for sprinkler system is 4" main reducing to 3" and 37 sprinkler heads are being used.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1 1/2 cubic feet per second

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and stock water. 75 acres of cultivated and natural meadow is being irrigated. Improvement seen is increased production of crop and pasture for milk cows.

25822

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Dry natural pasture land and cultivated meadow were placed under irrigation.
Approximately 1½ cubic feet of water are needed for profitable cultivation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I live near the lands being irrigated and see the use of the water each day
the system is in operation and have witnessed its use each summer for five years.
I believe the full amount of water requested is being used.

(Signed) Charles F. Keithley

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Cambridge,

Ans. V. H. Battershell Age 55 Midvale, Idaho Farmer

Ques. 2. Are you acquainted with Edwin G. Horning, the holder of Permit No. 25822? How long have you known him and where does he reside?

Ans. 30 years. He resides at Midvale, Idaho

Ques. 3. Have you read or heard read said Permit No. 25822, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Unnamed slough. SW 1/4 NW 1/4 Sec. 17, Twp 13 N R 3 WBM. Pump placed in slough with sprinkler system for irrigation. Pump is 15 HP, electric motor. Pipe is 4" main line, reducing to 3". 37 sprinkler heads being used.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1 1/2 Cubic feet per second

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and stock water. Irrigates both cultivated and natural meadow. Improvement seen has been a second crop of hay being produced and late pasture for stock.

25822

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Ordinary dry land was placed under irrigation, and the amount of water required is approximately one and one-half cubic feet of water per second.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I live adjoining this land and see it in use every day that it is in operation, and it has been used to the full extent each summer for five years.

Dear Mr. Horning:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 25822. The proofs are to be made at 10:00 o'clock A. M., on the 26th day of June, 1961~~xxxxxx~~ before May Collins, Cambridge, Idaho, Notary Public.

As of this date we have mailed the Notice to the News Reporter with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

RE: Permit No. 25822

Date May 1, 1961

Edwin G. Horning
Midvale, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 25822 is due not later than July 25, 1961. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a Notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, ~~for~~ what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--by 40-acre legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

RE: Permit No. 25822

Boise, Idaho May 1, 1958

Edwin G. Horning
Midvale, Idaho

Dear Sir:-

Under the terms of your permit No. 25822 you are required to complete you diversion works on or before July 25, 1958. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Notice For Publication
NOTICE OF PROOF OF APPLI-
CATION OF WATER TO
BENEFICIAL USE

Notice is hereby given that at 10:00 A. M. on the 26th day of June, 1961, at Cambridge, County of Washington, Stat of Idaho, before May Collins, Notary Public proof will be submitted of the application to beneficial use of 1.5 cubic feet per second of the waters of Springs in slough (un-named stream) in accordance with the terms and conditions of Permit No 25822 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are: EDWIN G HORNING, Midvale, Idaho.

The use to which said water has been applied is irrigation & Stock water.

The amount applied to beneficial use is 1.5 second feet.

The place where said water is used is: 75 acres—35 acres in SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 18, and 40 acres in SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 17, Twp. 13 N., Range 3 WBM, Washington County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is pump and pipe from un-named stream.

The right to take water from such works is based upon Permit No 25822.

The source of supply from which such water is diverted is Springs in slough.

Point of Diversion is: SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec 17, Twp. 13 N, R. 3 W "
