Ans. NW 1/4 Sec 18, Twp 13N R 1 WBM, a drilled well 200 ft in a NW direction
from NW corner of dwelling. Water is conveyed by metal pipe line.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 35 gal. per minute can be conducted to place of use. I have seen it conduct
35 gal. per minute.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. Have seen the pump deliver 35 gal. per minute, and the estimate was made
by the number and size of sprinkler heads used. 7 sprinkler heads rated
for 5 gallon per minute.

G 24876

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Pasture land is irrigated, in one subdivision of five acres in NE $\frac{1}{4}$ SE $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 13, Twp 13 N R 1 WBM. Water also used for household use, stock water and fire protection, irrigation of farm yard. Reduced fire hazard, green yard instead of dry weeds, better living conditions and increased production of land.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

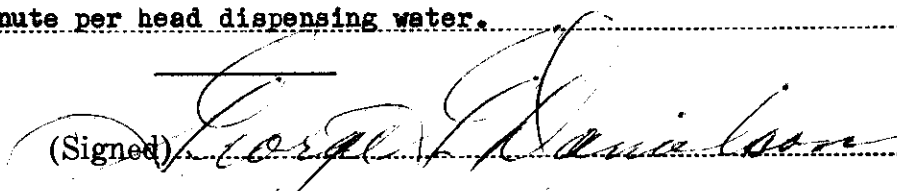

Ans. Native bottom land put into increased production. 0.08 cubic feet or 35 gal per minute for a period of about 3 $\frac{1}{2}$ months would be required for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

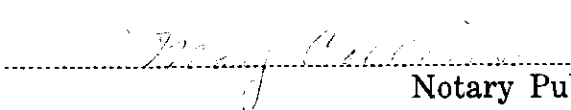

Ans. No. _____

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. At least once a year for the last five years have observed the use of water when on the ranch on business. I have seen seven sprinkler heads with approximately 5 gal per minute per head dispensing water. _____

Mrs. Mae Collins,
Cambridge, Idaho.

Dear Mrs. Collins:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-24876, in the name of Robert F. Wiley. Final proof is to be made before you, as Notary, on the 15th day of July, 1959, at 10:00 o'clock A.M., at Cambridge, Idaho.

As of this date, we have mailed the Notice to the News Reporter, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed Depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the Depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all Depositions (Holder and two Witnesses) are being returned. Also, be sure to enclose the Affidavit of Publication.

Very truly yours,

RE: Permit No. G-24876

Date February 1, 1959

Robert F. Wiley
Indian Valley
Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-24876 are due not later than April 27, 1959.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper will will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

Dear Mr. Kulp:

ATTENTION: Chief Clerk

We received the copy of your letter sent to Robert Wiley, Indian Valley, Idaho, on April 20, 1954. In this letter you state "This application has been placed on file and will be processed in regular course".

Might we ask what can be expected with reference to processing the application? In the past your office had been assigning a permit number upon which we were able to go ahead with servicing the applicant. In this case his well was not deep enough and found it necessary to drill deeper than anticipated and we are not in a position to consider loaning him money to finance the well and pump until he receives a permit number.
