BOISE
October 1, 1956

Mr. C. A. Browning
Midvale, Idaho

Dear Sir:

Under the terms of your permit No. 23373 you are required to complete your diversion works and make proof of beneficial use on or before December 17, 1956.

We enclose herewith a blank affidavit to be filled out, sworn to by you before a Notary Public or Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is December 17, 1956, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Very truly yours,

MARK R. KULP

Mr Mark R. Kulp

Dear Sir

I am asking for one year extension of time to complete the irrigation works regarding the ~~last~~ ^{new} irrigation under permit No 23373 for the following reasons.

First, This years crop planting was delayed about one full month, because of wet conditions when the crop should have been planted, thereby delaying the leveling of the land under application for irrigation - quite a little work will be necessary before such can be accomplished. Furthermore the

run off of the water shed furnishing
the water ~~was~~ so low that the time
of the crop needing water and the actual
supply of water did not coincide.

The month of May, about the tenth to the
first of June is the time to water the crop
if one should expect to use this flood
water, at that time we did not have
over ten inches running in the creek, but
on all normal seasons there is plenty of
water until about the first of July.

If this plea for extension of time can
be granted I am sure the project will
be completed satisfactorily in time for
the extension

Yours Very Truly
J. P. Prouty

RE: Permit No's. 21513 & 23373
→

Mr. K. P. Prouty
Midvale
Idaho

Dear Mr. Prouty:

We have your letter of January 19, 1954, in regard to the above numbered permits. You are correct when you say there has been a misunderstanding. The notice for proof on Permit No. 21513 was sent out the same as on all others as this is a routine procedure and we have received no relinquishment on this permit in accordance with your letter of January 10, 1953, and our reply of January 30, 1953.

Cancellation notice on Permit No. 21513 dated December 10, 1953 was also a routine notice in as much as our records failed to show any relinquishment.

However, when you received this cancellation notice you mistakenly thought it was for Permit No. 23373 and thus the mixup.

Since proof on permit No. 23373 is not actually due until December 17, 1955 and the proofs you have submitted do not fully agree with the statements made in the permit we suggest that you withdraw them at this time and resubmit proof at the later due date when you will have the works completed.

As therefore return your proofs and your money order for \$5.00 sent in connection therewith.

Very truly yours,

MARK R. KULP
