Mr. Nathan J. Shepherd
Route 1
Weiser, Idaho

Dear Mr. Shepherd:

We now have on file the report of our field engineer on examination for completion of works and beneficial use under the above numbered permits.

The report shows that under Permit No. 22671 you have irrigated 55 acres in the NW $\frac{1}{4}$ of Section 3, Township 10 North, Range 6 West, B.M., from Snake River, and Certificate of Completion of Works and License can be issued under this permit for the 0.9 of a second foot of water applied for, upon receipt of the statutory fees of \$5.00 for Certificate of Completion of Works, and \$8.00 for License. The latter being at the rate of \$2.00 for each 40 acre subdivision in which the land is located.

The report further shows that under Permit No. G-22672 you have irrigated 27 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 3, from your well located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of said section. A Certificate of Completion of Works and License for 0.44 second foot of water can be issued under this permit, the fees for which amount to \$5.00 for Certificate of Completion of Works, and \$2.00 for License, since the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 3 is the only additional forty that has been irrigated.

Dear Mr. Shepherd:

We have received from Mr. John B. Lloyd the affidavits of publication in connection with your proofs of completion of works and beneficial use on Permits Nos. 22671 and G-22672.

This completes your proof but before final action is taken in the matter, the law requires that an examination be made by an engineer from this department.

We cannot say just when this examination will be made as this department has but one field engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.
