RE: Permit No. 21605

Mr. Wayne Methis
Route 2
Weiser, Idaho

Dear Mr. Methis:

We now have on file the report of our field engineer on examination for beneficial use under Permit No. 21605.

This report shows that you have irrigated 62 acres of land in the N $\frac{1}{2}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 3, Township 10 North, Range 5 West, B.M. A license can therefore be issued for 0.76 second foot of water from Weiser River for the irrigation of this land, upon receipt of the statutory fee of \$6.00.

Since the permit is now in your own name, although we note from your letter of November 26, that you have sold the place to Mr. Edwin Ford of New York City, there are two alternatives to be followed before the license is issued:

1. The enclosed form of assignment may be executed by you to Mr. Ford and returned to this department with a fee of 50 cents for recording following which the license can be issued directly to Mr. Ford.

2. The license can be issued in your name and then can be included in your deed to Mr. Ford.

Very truly yours,

RE: Permit No. 21605

Mr. Wayne Mathis
Route 2
Weiser, Idaho

Dear Mr. Mathis:

We have placed on file the depositions of yourself and two witnesses, together with the affidavit of publication in The Weiser American, all in proof of beneficial use under Permit No. 21605.

Before final action is taken in the matter, the law requires that an examination be made by an engineer from this department.

We cannot say just when this examination will be made as this department has but one field engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

Very truly yours,

Dear Mr. Mathis:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in The Weiser American, all submitted in proof of beneficial use under Permit No. 21605.

However, these depositions are incomplete, and we return them for the following corrections:

Question 6 of your own deposition should describe the place of use by legal subdivision, section, township and range.

Question 10 of your deposition and Question 11 of the depositions of your two witnesses should state fully when and in what amount the water has been used.

Boise, Idaho **May 1, 1951**

Dear Sir:-

Under the terms of your permit No. 21605 you are required to complete your diversion works on or before July 19, 1951. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

We return your application for Permit to appropriate one (1) second foot of water from Weiser River, for corrections as follows:

1. Answer Questions 7, 12, 13, and 15.

2. The land description under Question 14 does not agree with the land shown on the sketch map. We assume that the 38 acres described in Question 14 as in the NE $\frac{1}{4}$ of Section 3, should be in the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of this Section, and the 4 acres described in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ should probably be in the NW $\frac{1}{4}$ NW $\frac{1}{4}$.
