Dear Mr. Yongue:

License on your Permit No. 21291 is in the process of being issued.

In checking through my field notes, I find that you had a question regarding additional proof under your present Permit by pumping onto the bench.

If the land which you wish to water by pumping was included in the land under the present permit, namely the SW $\frac{1}{4}$ of Section 17, Township 13 North, Range 3 West, B.M., all that will be necessary is to advertise for beneficial use on the land irrigated, as soon as you get your system installed and the water on the land.

However, the later license will have a later priority than the original, and is good only for the balance of water filed on in Permit No. 21291.

If you have any additional questions, do not hesitate to write us, or if you are in Boise, drop in at the office and discuss this matter with us.

Dear Mr. Yongue:

We acknowledge receipt of the depositions of yourself and two witnesses; also Affidavit of Publication in the Cambridge News-Reporter, all submitted in Proof of Beneficial Use under Permit No. 21291.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, the Field Engineer for this Department will try and contact you at the time he makes the examination in order that you may arrange to show him over the grounds.

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 21291.

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On December 21, 1949, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Midvale, Idaho before J. H. Goodnight, Notary Public.
2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.
