Gentlemen:

A representative of this Department has made an examination of the works covered by your Permit No. 20724/67-2186 and has found the following:

Quantity of water diverted: 2.64 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 2.48 cfs

The maximum quantity diverted shall not exceed 558 acre feet per year.

Beneficial use: Irrigation of 124 acres within the NW1/4NW1/4, S1/2NW1/4, Sec. 3; E1/2NE1/4, Sec. 4; Twp. 10 N, Rge. 5 W, B.M. & E1/2SE1/4, Sec. 33; SW1/4SW1/4 Sec. 34; Twp. 11 N, Rge. 5 W, B.M.

Point of diversion: NW1/4NW1/4 Sec. 3, Twp. 10 N, Rge. 5 W, B.M.

Source: Weiser River

Priority date established: May 6, 1967

The point of diversion and place of use found by our field examiner differs from that listed under your permit, therefore, it will be necessary for you to amend the permit before a Water License can be issued. We are enclosing a partially completed application for amendment for your use. Please sign the application and return it to this office with a \$10.00 filing fee within 10 days of the date of this letter in order that we may issue a water license as set forth above.

If you do not concur with these findings or have any questions, please contact this office within the 10 day period.

Gentlemen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit. Enclosed please find an Order which advances the priority under this permit to May 6, 1967.

During the 1967 session of the Idaho Legislature certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a permit holder to make proof of beneficial use.

The enclosed order modifies the above referenced permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a newspaper as prescribed by the Department. If you will complete and return the enclosed form, we will cause the notice to be published.

If you have any questions or if we may be of further assistance, please contact us.

Dear Mr. Williams:

We are enclosing a copy of the above referenced permit for your review. Please note under the conditions of approval on the second page that proof of beneficial use of water was to be submitted on or before November 5, 1952. Since this was not accomplished at the time, the permit is now subject to cancellation.

We are enclosing the Department's proof of beneficial use affidavit for your use. Please be advised that the proof affidavit must be received by this office on or before June 19, 1971; otherwise the permit will be cancelled as stated in our certified letter of May 10, 1971.

PROOF OF COMPLETION OF WORKS

R. S. & Glenn M. Williams

Weiser, Idaho

Boise, Idaho **Sept. 6, 1950**

Dear Sirs:

Under the terms of your permit No. 20724 you are required to complete your diversion works on or before November 5, 1950. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

Dear Mr. Williams:

We wish to acknowledge your letter of October 1 enclosing application for permit to file on the waters of Weiser River.

Your application seems to be made out correctly in every detail except Question 4 which designates the point of diversion, which says in part, "Location of point of diversion: river bank - 540 feet distant from the southwest corner of the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 3, Twp. 10 N., Range 5 W. B.M."

In checking the location at the U. S. Land Office on the location of the river it would be impossible to have the location of the diversion point as you have indicated thereon. We are enclosing sketch map showing the location of the river as taken from the U. S. Survey office plats.

It may be that since the survey was made that the river has changed its course, and in order for the point of diversion as given in your application to coincide with the river, the river would have to flow along the east boundary of your designated property.

If this is the case, please show the river location as you think it is on the enclosed map and return the two plats enclosed herewith.

Thanking you, we are,

Very truly yours,

MARK R. KULP
