Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation purposes as follows:
About 34 acres on ~~SE 1/4~~ ^{NW 1/4} Sec. 31, T 14 N
R 3 W B. M. This irrigated land is in cultivation.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This land is bottom land and requires about one miners inch to the acre to irrigate for profitable cultivation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen water under this permit used on this land each year since date of permit and have personally irrigated all of this land with this water this year.

Re: Permit No. 16000

Mr. Raymond Clayton,
Midvale, Idaho.

Dear Sir:-

We are today in receipt of your notices for proof of beneficial use of water under the above permit. In order to allow time for the required four weeks publication of the notice, we have set June 27 as the date for making proof, being one month later than the date specified in the permit for such proof. It will, therefore, be necessary to bring the date of priority down one month, or to June 15, 1924, instead of May 15. This, however, will not adversely affect your right as no filings have been made on Hopper creek since your permit was granted.

One copy of the notice has today been mailed to the News-Reporter, at Cambridge. Deposition blanks, one for holder and one each for two witnesses, will be mailed to H. J. Wilson, notary public, later.

Very truly yours,
GEO. W. CARTER,
Commissioner of Reclamation.

Dear Sir:-

In checking your affidavit for proof of completion of works under the above permit I note that you have given the ~~SE $\frac{1}{4}$ NE $\frac{1}{4}$~~ , section 31, as part of the land to be irrigated while the permit and the map filed with the application shows only two forties ~~the NE $\frac{1}{4}$ NE $\frac{1}{4}$ and NW $\frac{1}{4}$ NE $\frac{1}{4}$~~ of said section. The acreage, however, is the same- 60 acres. If you desire to include this third forty in your permit, it will be necessary to file an application for amendment upon the enclosed form, the same to be supported by maps in duplicate.

There also remains to be paid the statutory fee of \$5.00 for proof of completion of works.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Raymond, Vern, Nellie Clayton
Midvale, Idaho

Boise, Idaho, Feb. 2, 1925

Dear Sir:—

Under the terms of your permit No.. ~~16000~~.....you are required to complete your diversion works on or before. ~~May 27, 1925~~. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
