PERMIT NO. 14010**Proof of Application of Water to Beneficial Use****Deposition of Holder**

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. George Gould, 52 years, Council, Idaho, Rancher, Council,
Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 14010, Date of Permit, May 9th, 1919. Priority, May 9th, 1919

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Weiser River; In the Northeast Quarter of the Southwest
Quarter of Section Ten, Township Seventeen North of Range One West, B M

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Two diversion lateral canals, and each will carry in excess
of 2 cu. ft per sec. of water, measured under four inch pressure; these
laterals head in Farmers Canal. This Farmers Canal will carry at
least 80 cu. ft per sec. of water. This Farmers Canal, and my own
laterals therefrom are dirt ditches, with small amount of flume, and
capacity of flumes are in all cases equal to that of the ditches.

Ques. 6. State for what purpost water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivate or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. Purpose, Irrigation; 26.7 acres in the NE $\frac{1}{4}$ SE $\frac{1}{4}$; 36.6 acres in
the SE $\frac{1}{4}$ SE $\frac{1}{4}$; Section 22; and 36.7 acres in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section

Ques. 8. What is the minimum amount of water required for the specified above?

Ans. One hundred miners. or two cubic feet per second.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

14010

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. In 1919 and again in 1920, all of the land above described to the extent of the entire acreage indicated, was actually irrigated from said source and through said canal and laterals; and at least 2 cubic feet of water was diverted and used on said lands during each of said years

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and right claimed thereunder.

Ans. No other water from natural flow of streams was used on said lands during said years; use was denied me of these waters each year at time of low water in said Weiser River; and after my use was cut off by Water Master, I then and in each year, used reservoir water on these lands to the extent of flow of 2 cubic feet per second, but used the storage water, only, after I was so cut off by the water master. I used 2 cu ft per sec of these waters before low water period.

George Gould

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Council County of Adams State of

Ans. E R Windus, age 56 years, Council, Idaho, Rancher, PO address
Council, Idaho

Ques. 2. Are you acquainted with..... George Gould....., the holder of Permit No. 14010? How long have you known him and where does he reside?

Ans. Yes. Known him 6 years; He resides near Council, Idaho.

Ques. 3. Have you read or heard read said Permit No. 14010, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Weiser River; in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec 10, Tp 17 N R 1 W., B M. The water is conveyed from said river to place of use through the Farmers Canal, and therefrom taken by and through two laterals; this canal will carry at least 20 cubic feet per second, and each of the laterals will carry at least 2 cubic feet per second of water, the same are dirt canals with small amount of flume. capacity of flume same as canals.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Said Farmers canal will carry 20 cubic feet per second and said laterals will carry at least 2 cu Ft per sec each. I have seen the same so carried.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho,

George Could,
Council, Idaho.

Dear Sir:—

Under the terms of your permit No. 14010.....you are required to complete your diversion works on or before May 9, 1920.....I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

W. G. Swendsen,

Commissioner of Reclamation.
