DEPOSITION OF WITNESS

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. *W. Galtay* Age is 45 years. Farmer, Residence in Weiser, Idaho.

Ques. 2. Are you acquainted with *Elmer M. Aga*, the holder of Permit No. 10063? How long have you known him and where does he reside?

Ans. Yes. I have known him for many years. He resides on the lands concerning and for which he is this day making final proof of his water rights for.

Ques. 3. Have you read or heard read said Permit No. 10063, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Scotts Creek. In SW SW Sec. 35 in Tp. 12 N.R. 6 W.B.M. Leading from the Creek in this subdivision there are five ditches. These ditches carry the water to and upon the lands irrigated. At the points of diversion in each instance there is a small earth and rock dam and a headgate made of wood leading into ditch which takes the water to the lands irrigated. The largest of these ditches will carry about 60 miners inches of water. The others will together carry about one second foot of water.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. About 2.1 second feet of water. Have seen that much conveyed.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation purposes. 15 acres in Lot No. 1 Sec. 3; 12 acres in Lot 4 Sec. 2; 20 acres in SE 1/4 Sec. 2; and 14 acres in SW 1/4 Sec. 2 all in Tp. 12 N.R. 6 W.B.M. All irrigated and this season planted to rye, from which crops were taken and cut. Each year beginning with the year 1915 these lands have been irrigated with water taken from Scotts Creek through these ditches as hereinbefore described.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. All this is sandy loam and adobe land. Will take at best one inch per acre per irrigation season.

10063

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No. None.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have answered this question hereinbefore. I witnessed the application to this lands of the waters which I have hereinbefore described and set forth.

At the points of diversion in each instance there is a small earth and rock dam and a headgate made of wood leading into ditch which takes the water to the lands irrigated. The largest of these ditches will carry about 60 miners inches of water. The others will together carry about one second foot of water.**

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. **About 2.1 second feet of water Have seen that much conveyed**

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. **For irrigation purposes. 15 acres in Lot No. 1 Sec. 3; 12 acres in Lot 4 Sec. 2; 20 acres in SE 1/4 Sec. 2; and 14 acres in SW 1/4 NW 1/4 Sec. 2 all in Tp. 12 N.R. 6 W.B.M. All irrigated and this season planted to rye, from which crops were taken and out. Each year beginning with the year 1915 these lands have been irrigated with water taken from Scotts Creek through these ditches hereinbefore described.**

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. **None.**

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. **All this is sandy loam and adobe land. Will take at best reber irrigation season.**

10063

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No. None.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have answered this question hereinbefore. I witnessed the application to this lands of the waters which I have hereinbefore described and set forth.

In the Matter of the Re-instatement)
of Permit No 10063, under the) D E C I S I O N and O R D E R.
Provisions of H. B. 53, Session Laws)
1917.)

Permit No 10063 lapsed on the 10th day of April,
19 17, by the failure of the holder to make proof of completion of
the works of diversion, required by law, and as set forth in the permit
itself.

Notice that such proof was due was regularly given the holder by
this office on the 20th day of January, 19 17,
~~17th~~ ~~1917~~

On the 17th day of June, 19 19, notice to
show cause why said permit should not be cancelled under the terms of
H. B. 53, Session Laws, 1917, was duly served on the holder in accord-
ance with law.

Whereupon, the holder made appearance within the required time
and submitted affidavits showing that the said works were completed
within the required time, to-wit: on the 17th day of June 1919.

And, after examination of said affidavits and proofs, the
Commissioner of Reclamation is satisfied that the holder of the said
Permit No 10063 has proceeded in good faith, and has completed works
of diversion and made use of water therein for beneficial purposes.

Whereupon, without further proceedings or hearing in the matter it
is ordered that said Permit No. 10063, be, and the same is, hereby
re-instated and that a certificate of completion of works thereunder
be issued immediately.

Re Permit 10063. Felix M. Age.

Mr. E. R. Coulter,
Weiser, Idaho.

Dear Sir:--

In checking the records of the above numbered permit, I find that this right lapsed through failure to make proof of completion of works within the time specified in the permit. If the works were completed by April 10, 1917, the holder may proceed under House Bill 53, 1917 Session Laws, providing for the reinstatement of lapsed permits. The first step is such procedure is notice of cancellation of permit, which is herewith enclosed, with letter for reply. If the works were not completed within the required time, it will be necessary for the holder to file a new application.

PROOF OF COMPLETION OF WORKS

Felix M. Age,
Weiser, Idaho.

Boise, Idaho, January 20, 1917.

Dear Sir:—

Under the terms of your permit No. ~~10063~~, you are required to complete your diversion works on or before ~~April 10, 1917~~. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
