Dear Mr. Casper:

We enclose Permit No. G-30870 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

By this same mail, we have sent to the Bureau of Land Management two copies of this permit, one of which has been certified, to be used in connection with the Desert Land Entry filed in that office. A copy of that letter is enclosed.

~~We also enclose~~ Departmental Receipt No. G-7637 which was issued covering payment in the amount of \$ 7.50, which includes \$ 5.50 for the filing fee and \$ 2.00 for the copies sent to the Bureau of Land Management, **was given to you while in our office.**

Well logs are an important part of your recorded water right and State Statutes require that well drillers supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.
