RE: Water Permits G-33251, G-33459 and G-30767

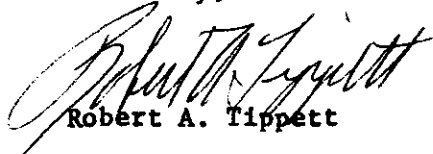

Dear Mr. McEldowney:

The above three Water Permits concern loans on property on which Connecticut General Life Insurance Company holds a mortgage, involving lands in Payette and Canyon Counties.

I would appreciate your letting me know the status of these Permits, and whether or not they have been brought to Licenses. If they have been brought to Licenses, I would appreciate your sending me photo copies of said Licenses.

Your help in this matter is very much appreciated.

Sincerely,

Robert A. Tippet

The Attorney General has ruled that all legal notices required by statutes relating to Proof of Completion of Works and/or Proof of Beneficial Use for licensing public waters of the State of Idaho to individuals or organizations must have the correct legal description for the points of diversion and lands to be irrigated.

Your paper under date of November 30, 1966 received in this office December 5, 1966, in legal notice in regard to proof to be made by Edward Jenkins, Billye Jenkins, and Don Brandt on January 5, 1967, shows the point of diversion is SW $\frac{1}{4}$ SE $\frac{1}{4}$, and the place of use is SW $\frac{1}{4}$, which must be corrected to the point of diversion is SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 25, T. 6 N, R. 5 W, B.M. and place of use is SW $\frac{1}{4}$ S $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 25; etc. and published in four successive issues.

The date for making the proof will January 5, 1967.

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-30767. The proofs are to be made ~~at~~ BYEUSON, on the 5th day of January, 19 67, before John H. Brandt Nampa, Idaho Notary Public.

As of this date, we have mailed the Notice to the Independent Enterprise, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION

Gentlemen:

Returned herewith is your notice of publication. In checking we find you have included Section 36 in the place of use. This property is not listed on the permit. Therefore, if you are going to irrigate Section 36 from this well we will require an amendment to the land list to include this land. Of course if you add additional land to the original permit your priority on the permit will be advanced to the date we received the amendment in our office. We are enclosing forms for making an amendment and there is a \$1.00 fee for recording.

Please make the necessary corrections and/or amendments and return promptly.

Blackfoot, Idaho

Dear Mr. Stout:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. **G-32407**, in the name of **C. Dean Packer**. Final Proof is to be made before you, as Notary on the **23rd** day of **February**, 19 **66**, at **10:00** o'clock **A.M.**, at **145 West Idaho Street, Blackfoot**, Idaho.

As of this date, we have mailed the Notice to the **Blackfoot News** **Blackfoot, Idaho**, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Lewis LaVar Newman
Route #1
Rigby, Idaho

Dear Mr. Newman:

Returned herewith are amendments to the points of diversion and land list under above noted permits, also your map. Also enclosed are two sets of Form 36 and 11, with instructions.

The priority dates were advanced to the time of first notice of change in location of the diversion of the water. The reason for change in priority being the change to two wells from one well and the long distance involved. The applications to amend the points of diversion would not have been approved without the condition and you would have had to stay with the permit location or relinquish these permits and file new applications.

You could have drilled the wells according to the permit and attached to the common main line.

Your map shows the north well in the SE~~1~~NE~~1~~, Sec. 2, whereas the amendments show NE~~1~~SE~~1~~, Sec. 2. If there is nothing on the ground indicating a 40-line and it would require a land survey to properly locate a well, we accept the owners location of the well. You can amend the permits, if desired.

Dear Mr. Knoblock:

We enclose Permit No. G-30767 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

By this same mail, we have sent to the Bureau of Land Management two copies of this permit, one of which has been certified, to be used in connection with the Desert Land Entry filed in that office. A copy of that letter is enclosed.

~~Enclosed~~ Departmental Receipt No. G-7500 which was issued covering payment in the amount of \$8.50, which includes \$6.50 for the filing fee and \$2.00 for the copies sent to the Bureau of Land Management, ~~was given to you when you were in our office.~~

Well logs are an important part of your recorded water right and State Statutes require that well drillers supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.
