RE: Void-Application for Transfer WRs #63-03311 & 63-03196B

Dear Mr. Montierth:

On October 8, 1996 you filed the above referenced application for transfer with the Idaho Department of Water Resources (IDWR). On January 3, 1997, IDWR requested ownership documentation relating to the lands involved. Advertisement of the application was contingent on receipt of the documentation. A notice of intent to void the application was sent by IDWR on January 21, 1998. To date no response has been received.

The application for transfer of WRs #63-03311 & 63-3196B is hereby **voided**. Your application will be removed from Department records. Enclosed is your application for transfer.

Should you have any questions please contact me at the Western Regional Office, phone 334-2190.

RE: Licensing of Water Right Nos. 63-07427B and 63-07753

Dear Mrs. Montierth:

Thank you for calling last week. As we discussed, I am reviewing permits 63-07427B and 63-07753 for licensing. During the field inspection, our examiner found that wells drilled in the SENE and NWSE of Section 16, T01N, R01W, and an older well in the SWNW of Section 15, T01N, R01W, were recently connected together and used to irrigate lands under permits 63-07427B and 63-07753, license 63-03311 and a portion of license 63-03196. Rights 63-03311 and 63-03196 have not been modified to show the additional points of diversion, however. Each of the two rights as recorded and as claimed in the Snake River Basin Adjudication shows the use of only one well. In order to record system changes and authorize the use of different wells for rights 63-03311 and 63-03196, you should file an application for transfer with IDWR.

We have taken the liberty of partially completing an application for transfer form based on the information collected by our field examiner for rights 63-07427B and 63-07753. The proposed transfer would add two points of diversion to rights 63-03311 and 63-03196 and would update the place of use for each of the two rights. Our place of use information is based on 1987 aerial photography.

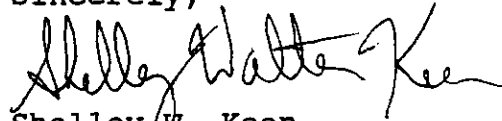

Please review the transfer application form carefully. If you agree with our approach, complete the blank parts of the application, sign it before a notary, and return it to this office with the \$100.00 application fee. You must also attach information proving your ownership of the water rights involved. Meanwhile, I am holding the files for 63-07427B and 63-07753 so that the entire system can be addressed as a package.

If our information about the use or configuration of your irrigation system is not correct, and you have not created a single system to irrigate acres in Section 15 with newer irrigation in Section 16, then please contact me right away.

RE: Adjudication Claims No. A61-07195 Et Al

Dear Mr. Montierth:

Enclosed are copies of the adjudication claims that you filed on 1-13-92 for property in Ada and Elmore Counties. A receipt for the 20% payment of the total \$6846.50 bill is also included. Additional 20% payments will be due, one per year, until the total bill is paid. You will be contacted by the IDWR state office staff when the next payment is due. If you have any questions about the extended payment plan, please contact Don Shaff at the state office (327-7932).

The next step for the water right permits for which adjudication claims were filed is to schedule and conduct licensing field exams. This office will contact you in the near future to conduct some of these exams.

Copies of the claims in the names of Connecticut General or Mony Pension were mailed to the respective offices. Thank you for your help in completing this rather involved process.

Sincerely,

Steve Lester

Dear Mr. Eshelman:

A representative from this department has made an examination of your works covered by Permit 63-3311. The works were found capable of producing 6.5 c.f.s. of which 4.8 c.f.s. can be recognized as beneficially used and licensed under Idaho law. The water is used for irrigation of 280 acres in W4, Section 15, Twp. 1N, Rge. 1W, B.M.

If you disagree with the findings, please advise us within 10 days; otherwise, a license will be issued showing the findings as set forth in this letter.

Dear Mr. Eshelman:

One of the conditions of the approval of your permit G-30703 was that proof of application of the water to beneficial use be submitted to this office on or before December 30, 19 68.

Enclosed is an affidavit form which must be used to submit this proof. You may also request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. G-30703 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.

Re: Permit No. G-30703

Carl F. Eshelman
Route 1
Kana, Idaho 83643

Dear Mr. Eshelman:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Dear Mr. Eshelman:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than September 11, 1967.

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

Re: Permit No. G-30703

Mr. Carl F. Eshelman,
Route #1,
Kuna, Idaho.

Dear Mr. Eshelman:

We enclose Permit No. G-30703 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

By this same mail, we have sent to the Bureau of Land Management two copies of this permit, one of which has been certified, to be used in connection with the Desert Land Entry filed in that office. A copy of that letter is enclosed.

~~We also enclose~~ Departmental Receipt No. G-7378 which was issued covering payment in the amount of \$ 8.00, which includes \$ 6.00 for the filing fee and \$ 2.00 for the copies sent to the Bureau of Land Management, **was given to you while in our office.**

Well logs are an important part of your recorded water right and State Statutes require that well drillers supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
