Dear Mr. Good:

Upon reviewing licenses G-30688 and G-30689, we find that the licenses can be changed to give you a more uniform distribution of water on your farm.

If you will send in your licenses and Certificates of Completion of Works, they can be changed and returned to you in the near future.

AFFIDAVIT OF PROTEST OF WATER
PERMITS NOS. 30474, 30688 and 30689

State of Idaho Ø
 : ss.
County of Canyon Ø

Kenneth E. Tiegs, being first duly sworn, on his oath
does depose and say:

That he is the president of Kenneth Tiegs & Sons, Inc.,
an Idaho corporation, that does own adjacent property. That
the affiant is making this protest in behalf of Kenneth Tiegs
& Sons, Inc., an Idaho corporation.

That the said corporation does hereby protest the statements
made by the person or persons submitting Proof of Beneficial
Application of water in the published notice of their intention
to submit such proof, all concerning Permit No. 30474 of the
State Department of Reclamation of the State of Idaho issued to
Kenneth D. Casper. The reasons for such protest on Permit
No. 30474 are as follows:

1. That the Notice of Proof of Completion of Works and
Application of Water to Beneficial Use states that the place
where the water is used is W½ NE¼, NE¼ NW¼, SW¼, Sec. 21, NE¼ SE¼
Sec. 20, Twp. 1 N., R. 2 W., B.M. This protest is against the
application of any water from this well to any land other than
the W½ of the NE¼ and the NE¼ of the NW¼, all in said Section 21.
The protestant refers the Board to the Transcript, Volume II, in
the matter of Kenneth Tiegs & Sons, Inc. vs. Kenneth D. Casper
before your Department concerning the testimony of Kenneth D.
Casper starting at page 265 of said Volume II of said Transcript.
All of the testimony of Kenneth D. Casper is by reference thereto
made a part hereof as though set forth in full herein. Mr. Casper

30689

2.

did testify in effect that the water from this well was used on this 120-acre tract only, and was not and could not be used on the balance of the land in Section 21, namely, the SW $\frac{1}{4}$ thereof, and was not and could not be used upon the said ground in Section 20. One particular of this is set forth on page 268 of said Transcript in lines 23 and 24, in which Mr. Casper states in effect that there is no desire to put that water upon the other lands served. At the time of the hearing, namely, May 29, 1964, the permit was only for the original 120 acres. Any amendment of the said permit No. 30474 after said date is a subterfuge and is in direct conflict with the sworn testimony in said hearing.

Mr. Casper's testimony was that water from the well involved in permit No. 30474 could not under any circumstances be used on this other land; that the same was impossible.

2. That water from this well covered by Permit No. 30474 is actually being used to irrigate the E $\frac{1}{2}$ of the NE $\frac{1}{4}$ of Section 21, outside the scope of the permit, even as amended, and that the license should be restricted to the W $\frac{1}{2}$ of the NE $\frac{1}{4}$ and the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$, all in Section 21, and only as to the amount of water actually applied for beneficial use thereof, and in accordance with the times of usage.

That the said corporation does hereby protest the statements made by the person or persons submitting proof of beneficial application of water in the published notice of their intention to submit such proof, all concerning Permit No. 30688 of the State Department of Reclamation of the State of Idaho issued to Kenneth D. Casper. The reasons for such protest on Permit No. 30688 are as follows:

1. That this permit is for usage upon 320 acres, more or less, of ground. The Department is again referred to the testimony

30689

3.

of Mr. Casper starting on page 265 of said Volume II. In Mr. Casper's testimony, he states in effect that he only has 200 acres on his desert entry permit, with only approximately 160 acres being irrigated. You are particularly referred to lines 12 through 22 on page 271 of Volume II of said Transcript..

2. Other lands not included in the permit are actually being watered from the well in question.

3. That the well in question is actually interfering and has interfered with the wells of the protestant corporation, and that the protestant corporation prays that any license be held in abeyance until such protest of interference is adjudicated. This protest of interference will be filed within the next thirty days.

That the said corporation does hereby protest the statements made by the person or persons submitting proof of beneficial application of water in the published notice of their intention to submit such proof, all concerning Permit No. 30689 of the State Department of Reclamation of the State of Idaho issued to Lanson C..Ross. The reasons for such protest on Permit No. 30689 are as follows:

1. That the well in question is on lands belonging to Kenneth D. Casper, and that the said Lanson C. Ross has no apparent record ownership therein, and therefore cannot be an applicant for a water license.

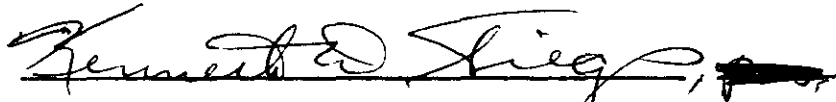

2. That the permit in question is for 200 acres, but that 200 acres of ground are not being actually irrigated.

3. That the well in question is actually interfering and has interfered with the wells of the protestant corporation, and that the protestant corporation prays that any license be held in abeyance until such protest of interference is adjudicated. This protest of interference will be filed within the next thirty days.

30689

4.

Nothing herein contained is to be construed as an abandonment of position by Kenneth Tiegs & Sons, Inc., in its pending action before your Department against Kenneth D. Casper that actually all three of the permits stated above are involved in this particular action, and that all licenses should be held in abeyance until final adjudication of all matters pending before your Board between the parties and pending the filing of protests for interference on the wells covered by 30688 and 30689.

Subscribed and sworn to before me this 10th day of August, 1964.

Dear Mr. McDowell:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-30689, in the name of Lanson C. Ross. Final Proof is to be made before you, as Notary on the 10th day of August, 19 64, at 11:30 o'clock A.M., at 224 Idaho Building, Boise, Idaho.

As of this date, we have mailed the Notice to the Idaho Free Press Hammer, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Dear Sir:

I am writing this letter to you in behalf of my client, Kenneth Tiegs & Sons, Inc., an Idaho corporation, in connection with application for permit to appropriate subterranean waters of the State of Idaho, which application is No. G-38770 and is Permit No. G-30689, with the applicant Lanson C. Ross.

Mr. Ross was daily in attendance at the hearing of my client vs. Kenneth Casper. A search of the records by Mr. Sam Barton has indicated that Mr. Lanson C. Ross has filed an application for amendment of the point of diversion. Mr. Barton also sent me a copy of Mr. Thomas' letter to Mr. Ross in which it was stated that the amendment of the permit would be approved only on the condition that the priority be advanced to June 1, 1964.

Kenneth Tiegs & Sons, Inc. do hereby protest the amendment of this permit for the reason that the well in question is not on property owned or controlled by the applicant, Lanson C. Ross. Also, protest is being made because the real property in question under Permit No. G-30689 is also being watered in part by a well belonging to Kenneth Casper, which well is the well in question under the said case entitled Kenneth Tiegs & Sons, Inc. vs. Kenneth Casper.

Kenneth Tiegs & Sons, Inc. respectfully request that the decision on the amendment under Permit No. G-30689 be held in abeyance until a final decision of the ground water board in the said case of Tiegs vs. Casper, as these matters are directly interrelated.

Please advise.

Sincerely yours,

Comes now Lamson C. Ross and
represent to the State Reclamation Engineer of the State of Idaho:

That he is (are) the owner and holder of Permit to appropriate the Public
Waters of the State of Idaho, No. G-30689.

That the point of diversion is described in said Permit as being located:

NE 1/4 NW 1/4, Sec. 29, T. 1 N, R. 2 W. B.M.

That he now requests that the point of diversion be changed to a point
located: NW 1/4 NE 1/4 + SW 1/4 NE 1/4, Sec. 21, T. 1 N, R. 2 W. B.M.

That the reason for desiring to make such change is as follows:

Original well site abandoned. New source of water
supply more feasible.

That no one will be injured by such change, and that such change will be made
at Permit Holder's own risk.

Dear Mr. Casper:

Returned herewith are the two applications to amend the points of diversion which show reason is to use water from both wells on all the lands and amendment to land list under No. G-30474. Also enclosed are two application forms to amend land list. The best method to achieve your desire to have water from each well for any of your land is to amend the land list under both permits to cover the same land.

The application to amend Mr. Ross's permit No. G-30689 to the same locations as your wells described in permits above will be approved subject to change in priority to June 1, 1964, the date of receipt of the application.

Mr. Lanson C. Ross,

Nampa, Idaho.

Dear Mr. Ross:

We enclose Permit No. 0-30689 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

By this same mail, we have sent to the Bureau of Land Management two copies of this permit, one of which has been certified, to be used in connection with the Desert Land Entry filed in that office. A copy of that letter is enclosed.

~~Enclosed~~ Departmental Receipt No. 0-7357 which was issued covering payment in the amount of \$8.50, which includes \$6.50 for the filing fee and \$2.00 for the copies sent to the Bureau of Land Management, **was given to you while in our office.**

Well logs are an important part of your recorded water right and State Statutes require that well drillers supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.

Very truly yours,
