Gentlemen:

We acknowledge receipt of the assignment conveying Permit 63-7381 to Connecticut Mutual Life Insurance Company and/or G & W Rim Ranch. The assignment has been recorded and the Department's records changed accordingly.

With regards to the assignments submitted in connection with Licenses 63-3289 and 63-3309, we wish to advise you that the Department has no procedure for changing the records of ownership once a permit has been licensed. When a license is issued, it becomes appurtenant to the land and ownership is automatically conveyed with the land unless specifically withheld in the sales transaction.

We will, however, place the assignments of the licensed rights in our files for future reference as to present ownership.

Sincerely,

D. Darlene Reich

**AFFIDAVIT OF PROTEST OF WATER
PERMITS NOS. 30474, 30688 and 30689**

State of Idaho :
 : ss.
County of Canyon :

Kenneth E. Tiegs, being first duly sworn, on his oath
does depose and say:

That he is the president of Kenneth Tiegs & Sons, Inc.,
an Idaho corporation, that does own adjacent property. That
the affiant is making this protest in behalf of Kenneth Tiegs
& Sons, Inc., an Idaho corporation.

That the said corporation does hereby protest the statements
made by the person or persons submitting Proof of Beneficial
Application of water in the published notice of their intention
to submit such proof, all concerning Permit No. 30474 of the
State Department of Reclamation of the State of Idaho issued to
Kenneth D. Casper. The reasons for such protest on Permit
No. 30474 are as follows:

1. That the Notice of Proof of Completion of Works and
Application of Water to Beneficial Use states that the place
where the water is used is W $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, Sec. 21, NE $\frac{1}{4}$ SE $\frac{1}{4}$
Sec. 20, Twp. 1 N., R. 2 W., B.M. This protest is against the
application of any water from this well to any land other than
the W $\frac{1}{2}$ of the NE $\frac{1}{4}$ and the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$, all in said Section 21.
The protestant refers the Board to the Transcript, Volume II, in
the matter of Kenneth Tiegs & Sons, Inc. vs. Kenneth D. Casper
before your Department concerning the testimony of Kenneth D.
Casper starting at page 265 of said Volume II of said Transcript.
All of the testimony of Kenneth D. Casper is by reference thereto
made a part hereof as though set forth in full herein. Mr. Casper

30688

2.

did testify in effect that the water from this well was used on this 120-acre tract only, and was not and could not be used on the balance of the land in Section 21, namely, the SW¼ thereof, and was not and could not be used upon the said ground in Section 20. One particular of this is set forth on page 268 of said Transcript in lines 23 and 24, in which Mr. Casper states in effect that there is no desire to put that water upon the other lands served. At the time of the hearing, namely, May 29, 1964, the permit was only for the original 120 acres. Any amendment of the said permit No. 30474 after said date is a subterfuge and is in direct conflict with the sworn testimony in said hearing.

Mr. Casper's testimony was that water from the well involved in permit No. 30474 could not under any circumstances be used on this other land; that the same was impossible.

2. That water from this well covered by Permit No. 30474 is actually being used to irrigate the E¼ of the NE¼ of Section 21, outside the scope of the permit, even as amended, and that the license should be restricted to the W¼ of the NE¼ and the NE¼ of the NW¼, all in Section 21, and only as to the amount of water actually applied for beneficial use thereof, and in accordance with the times of usage.

That the said corporation does hereby protest the statements made by the person or persons submitting proof of beneficial application of water in the published notice of their intention to submit such proof, all concerning Permit No. 30688 of the State Department of Reclamation of the State of Idaho issued to Kenneth D. Casper. The reasons for such protest on Permit No. 30688 are as follows:

1. That this permit is for usage upon 320 acres, more or less, of ground. The Department is again referred to the testimony

30688

3.

of Mr. Casper starting on page 265 of said Volume II. In Mr. Casper's testimony, he states in effect that he only has 200 acres on his desert entry permit, with only approximately 160 acres being irrigated. You are particularly referred to lines 12 through 22 on page 271 of Volume II of said Transcript..

2. Other lands not included in the permit are actually being watered from the well in question.

3. That the well in question is actually interfering and has interfered with the wells of the protestant corporation, and that the protestant corporation prays that any license be held in abeyance until such protest of interference is adjudicated. This protest of interference will be filed within the next thirty days.

That the said corporation does hereby protest the statements made by the person or persons submitting ~~proof~~ of beneficial application of water in the published notice of their intention to submit such proof, all concerning Permit No. 30689 of the State Department of Reclamation of the State of Idaho issued to Lanson C. Ross. The reasons for such protest on Permit No. 30689 are as follows:

1. That the well in question is on lands belonging to Kenneth D. Casper, and that the said Lanson C. Ross has no apparent record ownership therein, and therefore cannot be an applicant for a water license.
2. That the permit in question is for 200 acres, but that 200 acres of ground are not being actually irrigated.
3. That the well in question is actually interfering and has interfered with the wells of the protestant corporation, and that the protestant corporation prays that any license be held in abeyance until such protest of interference is adjudicated. This protest of interference will be filed within the next thirty days.

30688

4.

Nothing herein contained is to be construed as an abandonment of position by Kenneth Tiegs & Sons, Inc., in its pending action before your Department against Kenneth D. Casper that actually all three of the permits stated above are involved in this particular action, and that all licenses should be held in abeyance until final adjudication of all matters pending before your Board between the parties and pending the filing of pretests for interference on the wells covered by 30688 and 30689.

Dear Mr. Casper:

We enclose Permit No. G-30688 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

By this same mail, we have sent to the Bureau of Land Management two copies of this permit, one of which has been certified, to be used in connection with the Desert Land Entry filed in that office. A copy of that letter is enclosed.

~~Enclosed~~ Departmental Receipt No. G-7356 which was issued covering payment in the amount of \$ 8.50, which includes \$6.50 for the filing fee and \$2.00 for the copies sent to the Bureau of Land Management, was given to you while in our office.

Well logs are an important part of your recorded water right and State Statutes require that well drillers supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.
