Lonnie D. Skogsberg
Route #7, Box 7200
Nampa, ID 83651

Dear Mr. Skogsberg:

Per our discussion last week I have reviewed further the situation which you have described. It appears that perhaps the most economical way to reflect your irrigation system is to file one transfer of water that includes both water rights 63-8387 and 63-3307. We first have to license 63-8387 as it was shown to be in use by our field examiner.

To expedite this I am enclosing our normal form letter which describes what we will license. If it is ok then a license will be issued in December and I will send you the transfer application thereafter.

The remaining permit 63-8244 still needs to have a field exam conducted and will reflect your system in operation at the time of the field exam. An amendment will be necessary before we could license it, however, you will then have 3 rights which will properly describe the system you are using with adequate water being recognized. The field exam probably will not be scheduled until next spring at the earliest.

If you have any questions, please let me know.

I enjoyed your visit.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor

Dear Mr. Cafarelli:

We acknowledge receipt of the depositions and affidavit of publication in the
Payette Valley Sentinel submitted as proof of com-
pletion of works and beneficial use on Permit G-30641.

Before a certificate and license of water right can be issued, a field
examination must be made by a representative from this department. We
cannot tell just when this examination will be made, but our field examiner
will try to contact you at the time he makes the examination so that you
may show him the system.

Re: Permit No. G - 30641

June 1, 1967

Wm. E. Cafarelli
6422 Arlington Drive
Boise, Idaho

Dear Mr. Cafarelli:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30641 are due not later than Aug. 28, 1967

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.
