Dear Mr. Shepp:

Enclosed is a copy of a fee letter to Mr. Thomas F. Howe in regard to Permit No. G-30520. Before the permit in question may be licensed, we must be in receipt of the $7.00 licensing fee.

It has been brought to our attention that you are now the owner of the land which is referenced under Permit No. G-30520. Since a permit is personal property, Permit No. G-30520 will remain in the name of Mr. Howe. However, if you desire the permit to be transfered to your name, we will require the enclosed assignment form to be filled out by Mr. Howe.

Another alternative would be, if you are unable to contact Mr. Howe, for you to pay the $7.00 licensing fee and have the license issued in Mr. Howe's name. A license, however, becomes appurtenant to the property it references when it becomes a license.

We are enclosing an assignment form and a copy of our fee letter of March 12, 1968, for your use. Please note that there is a 30 day reply period for the fee letter. After this time the permit will be held for cancellation if we have received no correspondence from you or Mr. Howe.

Mr. Thomas Howe,

Boise, Idaho.

Dear Howe:

We enclose Permit No. G-30520 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-30520 which was issued covering payment in the amount of $5.00 for the filing fee of the above mentioned permit.

Well logs are an important part of your recorded water right and State Statutes require that well drillers' supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.
