RE: 63-3269 & 63-7623

Dear Ms. Row:

The above reference water rights are those now in the name of Willowbrook Property Owners Association. Please note that 63-3269 is a License for irrigation and 63-7623 was filed for domestic and irrigation but the proof of beneficial use was only filed for irrigation. I also understand that only irrigation was included on the field exam of the permit.

If in fact you have domestic uses from these water rights, and do not want the license for 7623 issued without domestic uses, I recommend that you contact Jim Johnson, in the water rights section, at our state office. His telephone number is 334-7947.

I have enclosed copies of the information available at this office for your information.

Re: Application for Transfer, License 63-3269

Dear Melvin:

Enclosed is the transfer application to update the water right for domestic use. We can advertise the application, but a few minor items need attention in the meantime.

Please initial the following changes (necessary on a notarized form):

- 1) pg. 1, A1, "change place of use". I added this to the transfer since additional tracts are involved beyond the license description.
- 2) pg. 6, B1, "hours/day/year". You want the domestic right to include all day, every day.

Also, please provide the information required on page 3, item A2. We can advertise but not approve the transfer until this is provided. This item refers to the land currently licensed, which is the ten acres in the SW1/4 of NW1/4, Section 17. Our records do not specify which ten acres of the tract are involved, but the field exam file lists William H. Ayres as the owner when the license was originally issued. Probably the land is that of lot 10552, which has a well on it.

Please respond as soon as possible to facilitate the transfer. We will provide additional help if needed.

Dear Mr. Edwards:

Our office received your letter along with the above referenced Assignments of Permit on March 26, 1982. In reviewing the files, I find that Permit No. 63-8302 has lapsed due to non-completion of beneficial use. Therefore, I am returning the assignment to you.

In October 1977, our office processed an assignment for Permit No. 63-7623. The assignment gave full right and interest to Willowbrook Property Owners. I have put the assignment you sent into the file and marked it as a duplicate to the one processed in 1977.

In June 1969, Permit No. 63-3269 was licensed. A licensed water right in Idaho is considered real property and can be acquired when the land to which the water right is appurtenant to is purchased. Therefore no assignment is necessary. I have put the assignment in the file for future reference only.

If you have any questions, please contact me at 334-4123.

Dear Mr. Hanley:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-30325. The proofs are to be made ~~XXX~~ XXXXXX, on the 2nd day of December, 19 66. before Van Hindiliter Eagle, Idaho Notary Public.

As of this date, we have mailed the Notice to the Meridian Times, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION

Very truly yours,

Re: Permit No. G - 3j0325

William H. Ayres

Pearl Route
Eagle, Idaho

Dear Mr. Ayres:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30325 are due not later than Dec. 11, 1966

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

STATE RECLAMATION ENGINEER
