AFFIDAVIT OF PUBLICATION

RECEIVED
APR 23 1965
Department of Reclamation

STATE OF IDAHO)
COUNTY OF CANYON) ss.

I, Everett A. Colley, being first duly sworn, depose and say:

1. That I am a citizen of the United States of America, and at all times hereinafter mentioned was and now am over the age of twenty-one years, not a party to nor interested in the proceedings hereinafter mentioned.

2. That during the time of the publication of the notice herein after mentioned, I was and now am the editor or publisher of THE WILDER HERALD, a newspaper of general circulation printed and published weekly, on Friday of each and every week, in the City of Wilder and County of Canyon and State of Idaho.

3. That the said THE WILDER HERALD has been printed and published continuously and uninterruptedly in said County during a period of seventy-eight weeks prior to the first publication of the attached notice.

4. That said notice Notice of Proof of Completion
of Works and Application of Water to
Beneficial Use

of which a printed copy, taken from said newspaper, is hereto annexed, was published in the regular issue thereof, and not in a supplement

thereto, in said newspaper, in four (consecutive) calendar weekly issue(s) of said newspaper, on the following date(s):

March 5, 1965

March 12, 1965

March 19, 1965

March 26, 1965

(Signed)

Everett A. Colley
26th March

Subscribed and sworn to before me this 26th day of March,
A. D., 1965.

Kenneth D. Shell
Notary Public in and for the State of Idaho.

residing at Wilder, Idaho.

My commission expires Aug 25, 1967

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A.M., on the 7th day of April 1965, at Caldwell, County of Canyon, State of Idaho before Wm. F. Gigray, Jr., Notary Public, at 9th & Dearborn, proof will be submitted of the completion of works for the diversion of 2.42 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-30316, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Idaho Farmway, Inc., Rt. No. 4, Caldwell, Idaho.

2. Said works of diversion will be fully completed on the date for such completion, and the amount of water which said works are capable of conveying to the place of use is 2.42 cubic feet per second.

3. The use to which said water has been applied is Irrigation purposes and the amount applied to beneficial use is 2.42 cubic feet per second.

4. The point of diversion of said water is SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 4., Twp. 3N., Rge. 4WBM.

5. The place where said water is used is SW $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ Sec. 4., Twp. 3N., Rge. 4WBM.

6. The date of priority which said user is prepared to establish is November 30, 1961.

CARL E. TAPPAN,
State Reclamation
Engineer.

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 38356
Permit No. G- 30316
District No.

1. Name of Applicant: Idaho Farmway, Inc.
Postoffice address: Route 4, Caldwell County: Canyon State: Idaho
2. Quantity of water claimed: 121.4" 2.42 cfs
 (a) Rate of withdrawal in cubic feet per second or Idaho
 Miners' inches or gallons per minute
 (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean
4. Location of point of diversion or well is in the SW 1/4 of the SE 1/4 of Section 4
 Twp. 3 N , Rge. 4 W , B.M., County of Canyon
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
 (a) Point of use of water is in the 1/4 of the 1/4 of Section , Twp.
 Rge. , B.M.
 (b) Waste water or sewage effluent is to be returned to
 at a point in the 1/4 of the 1/4 of Section , Twp. , Rge. , B.M.
7. Kind of works: Well drilling, pump & sprinkler, electric motor
8. Estimated cost of works: \$ 5000.00
9. (a) Is reservoir to be used? no
 (b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is 5 years.
11. If applicant is a corporation, give:
 I. (a) Date and place of incorporation: Caldwell, Idaho - 1955
 (b) Amount of capital stock: \$ 50,000.00 (c) Amount paid in: \$ 50,000.00
 (d) Names and addresses of directors: George Weitz, Jr., 1023 Grant; Gertrude E. Weitz, Box 368; Philip L. Weitz, Route 4
 II. The financial resources of the applicant are (a) Cash onhand: \$ 13,000.00
 (b) Treasury stock: None (c) Bonds to be issued: None
 (d) Other resources: 250,000 assets
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:
 Permit No. G-30257
 (a) 36" (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 (b) 85.4 inches (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

Applicant.

By

s/ P. L. Weitz, Secy.

Agent.

Date of first receipt at Department of Reclamation: 11:00 A.M. November 30, 1961

Returned to applicant for correction:

Corrected application received:

The number of this permit is G— 30316

Recorded in Book 106 Page 30316 Approved December 1, 1961

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before

and to continue diligently and uninterruptedly to completion, unless

temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before June 1, 1964

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made and proofs offered on or before December 1, 1966

Witness my hand this 1st

day of **December, 1961**

s/ RALPH W. THOMAS
Deputy STATE RECLAMATION ENGINEER.

IN TESTIMONY WHEREOF, We, ROBERT E. SMYLLIE, Governor of the State of Idaho,
and ARNOLD WILLIAMS, Secretary of State of the State of Idaho, have caused this instrument to
be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 1st
day of December, 19 61.

Countersigned:

D. FLOW MEASUREMENTS

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
COX HALL	NOT KNOWN	NOT KNOWN	NOT KNOWN	NOT KNOWN	NOT KNOWN	NOT KNOWN

2. **Measurements:** A Cox/Hall measurement was performed in the original field exam in 1966. The system has since been changed, so a new measurement would not be represent the use when beneficial use was filed.

63-03268

E. NARRATIVE/REMARKS/COMMENTS

The water for this permit is diverted from a 40 Hp well in the SWSE of Section 4 through a 10-inch mainline. The mainline travels approximately 40 ft north to a 40 Hp booster. The booster send the water due west through a 10" mainline to feed wheel lines that irrigate the east field. At the end of the east field there is a 25 Hp booster that re-pressurizes the water through a mainline traveling west approximately 1/8 mile where the mainline T's. At the T the water travels north and south and delivers water to a series of hand lines that irrigate the west 80 acres. Originally 2 other wells added water to this system under water right 63-02995, but the wells were not very productive. The owner quit using these well and upgraded the boosters on this system so he could pump all of the water from both rights through this well. The owner has not filed a transfer to do this, but it was done shortly after this well was put into production in the late 1960's, therefore an accomplished transfer in the SRBA on 63-02995 should cover the increased water use from this well.

OVERLAP: There are 2 overlapping rights for this ground. The first right is 63-02995 that irrigates the same property, but is from a different well. As I mentioned above the owner of this right now pumps 63-02995 through the well associated with this permit through an accomplished transfer. The second right 63-02881 shows the irrigation of 25 acres within the place of use for this permit. When I spoke with the owner about this license he state that it must be a mistake because the owner of 63-02881 has never owned or irrigated the 25 described by the license. 63-02881 was not claimed in the SRBA, so I think it was an old license that was incorrectly described and is no longer used.

RECOMMENDATIONS: I recommend that this permit be licensed for 2.00 cfs diversion rate and 544.5 afa to irrigate 121 acres. When combined with 63-02995 these rights should be limited to 2.42 cfs and 544.5 afa for 121 acres of irrigation. The owners should not be allowed to use more than .02 cfs or 4.5 afa per acre. No season of use was given in the permit, so I recommend that the current standard of 3/1 to 11/15 be used for this permit.

Have conditions of permit approval been met? ☒ yes ☐ no

63-03268

F. FLOW CALCULATIONSYES Additional Computation Sheets Attached

Measured Method:

2.00 CFS (see attached sheet for calculations)**G. VOLUME CALCULATIONS****1. Volume Calculations for Irrigation:**

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = (121) \times (4.5) = 544.5 \text{ afa}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = (2.00) \times (260) \times (1.9835) = 1031 \text{ afa}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 544.5 \text{ afa}$$

DIVERSION RATE CALCULATION SHEET

COX HALL FLOW MEASUREMENT:

The original field examiner made a Cox Hall flow measurement in 1966. The following are the field examiner's calculations:

$$D = 7 \frac{13}{16} = 47.937 \times 17 \text{ Diff.} = 815 \text{ gpm} / 448.8 \times 1.11 = 2.00 \text{ cfs}$$

In order to determine if this was an accurate measurement I used supporting information to double-check the measurement. The original field examiner stated that there were 3 sprinkler lines with 33 $\frac{3}{16}$ nozzles in each line for a total of 99 $\frac{3}{16}$ nozzles. I calculated the pressure needed to operate these nozzles at this diversion rate.

$$2.00 \text{ cfs} \times 448.8 = 897.6 \text{ gpm} / 99 = 9.06 \text{ gpm per nozzle}$$

The University of Idaho Fact sheet in the Field Examiners Handbook shows that a pressure of 75 psi would be needed to operate these sprinklers at 9.06 gpm.

I also performed a theoretical calculation using the well log and the boosters horse power.

$$\frac{(8.8) \times (40 \text{ Hp well} + 25 \text{ Hp booster} + 15 \text{ Hp booster}) \times (0.70)}{110 \text{ ft static water level} + (75 \text{ psi} \times 2.31)} = \frac{492.8}{282.5} = 1.74 \text{ cfs}$$

The sprinkler check shows that the sprinklers were operating at a little higher psi rate than normal, but they are still within standard practices. The theoretical also shows that the well and boosters were really not strong enough for this high of diversion rate. However, each of the pumps and boosters did have a 1.15 service factor that could raise the combined horsepower to 92, which would increase the theoretical diversion rate to 2.00 cfs. The supporting documentation does show that even though the system was being worked extremely hard, that it is reasonable to go with the measurement and allow a 2.00 cfs diversion rate. **I recommend that the diversion rate for this permit be licensed at 2.0 cfs.**

PLEASE NOTE: A new measurement could not be performed on the well at the time of my field examination. The 25 Hp booster was upgraded to a 40 Hp booster and the 15 Hp booster was upgraded to a 25 Hp booster. Therefore, in order to license the original amount of water diverted we must use the original system.

**WELL LOG AND REPORT OF THE
STATE RECLAMATION ENGINEER OF IDAHO**

Department of Reclamation

Permit No. 8-30346 Well No. I County Cannynon

Owner Idaho Farm Way Inc.

Address Caldwell Idaho

Driller Guy F. Doty

Address Box 18 Huston Idaho

Well location SW 1/4 SE 1/4 Sec. 4, T. 3N N of R. 4E 1/4 W

Size of drilled hole 12 In.

Locate well in section

NW 1/4	NE 1/4
SW 1/4	SE 1/4

Total depth of well 420 Ft.

Give depth to standing water from the ground 55 Ft. Water temp. _____ °Fahr.

On "Pumping Test" delivery was 1,090 g.p.m. or _____ c.f.s. Drawdown was 60 feet.

Size of pump and motor used to make test Ten In. Bowles and deasil tractor

Length of time of test 72 hours _____ minutes.

If flowing well, give flow _____ c.f.s. or _____ g.p.m. and of shut off pressure _____

If flowing well, described control works _____

(TYPE AND SIZE OF VALVE, ETC.)

Water will be used for Irrigation Weight of casing per lineal foot 30 Lbs.

Thickness of casing 188 Casing material Steele

(STEEL, CONCRETE, WOOD, ETC.)

Diameter, length and location of casing 12 In. From 0 to 240 Ft.

(CASING 12 IN DIAMETER OR LESS, GIVE INSIDE DIAMETER.
CASING OVER 12 IN DIAMETER, GIVE OUTSIDE DIAMETER.)

CASING RECORD

Diam. Casing	From Feet	To Feet	Length	Remarks—seals, grouting, etc.
12 In.	0	240		

Number and size of perforations 40 1/2 x 3 In. located 0 feet to 240 feet from ground

Date of commencement of well Nov. 3, 1961 Date of completion of well Sept. 1, 1962

SW 1/4 SE 1/4 30 4W

REPORT OF ENGINEER

Permit No. G-30316This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Idaho Farway, Inc.,
2. Source of water supply: Subterranean
3. Location of point of diversion: Is in the SW 1/4 of Section 4
T. 3 N R. W.B.M. County of Canyon
4. Describe works as they exist, giving dimensions and capacities of same: 40 HP F-M Motor # F274946, F-M Pump # PV 6517 8" x 40' steel discharge pipe to a 25 HP Westinghouse Motor with 6 V Belt drive to a FM Centrifugal 6" X 4" Booster pump to 1/4 mile buried main line to another 15 HP Centrifugal booster pump. 3 full 1/4" laterals with 33-3/16" nozzles.
5. Water is used for: Irrigation
6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SW 1/4, SW 1/4 Sec. 4., Twp. 3 N., Rge. 4 W.B.M. Approx. 121.4 acres

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: Mr. H. Akimoto irrigator along

Cox Flow Meter D=7 1/2" = 47.937 X 17 diff = 815 gpm X 1.14 = 240 cfs

This examination was made on the 22nd day of June, 1966(Signed) Loren Johnson

Examiner.

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address: P. L. Weitz;

Canyon County, Idaho; farmer and officer of Idaho Farmway, Inc.; Route #6,
Caldwell, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf:

Idaho Farmway, Inc., an Idaho corporation with its principal place of business at Caldwell, Idaho. I am Secretary and General Manager and as General

Ques. 3. State number, approval date of permit, and date of priority you propose to establish under the permit; Permit No. G-30316; approval date Dec. 1, 1961;
date of priority ~~Apr. 27, 1962~~ Nov. 30, 1961

Ques. 4. State source of water supply: Underground water.

Give location of point of diversion, showing subdivision, section, township and range:

In the Southwest portion of the Southeast Quarter of the Southwest Quarter,
Sec. 4, Twp. 3 N., R. 4 W.B.M. in an area lying South & West of the Mora Canal.

Ques. 5. Describe your works of diversion: Deep well with pump powered by an elec-

tric motor; state amount of water they are capable of con-

veying from point of diversion to place of use 2.5 c.f.s; Give name of canal or ditch

or other works by which water is conducted to such place of use: not applicable

; if a well, state depth of well 420 feet; depth and size of cas-

ing: 240 feet depth, 12 inch casing; depth to water 35 feet; if pump is used,

state discharge of pump: 2.5 c.f.s.; tell how it was measured or determined: By meter

; if sprinkler irrigation, give number and size of nozzles and

operating pressure: 135 nozzles 3/16 inch. 60 lbs of pressure

Ques. 6. State for what purpose water is used: Irrigation of arid land

If for irrigation, name each subdivision in which used and number of acres in each subdivision that have actually been irrigated with said water: 1.4 acres in the NE $\frac{1}{4}$

of the SW $\frac{1}{4}$; 40 acres in the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$; 40 acres in the SW $\frac{1}{4}$ of the SW $\frac{1}{4}$;

34 acres in the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$; and 6 acres in the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$; all Sec.

4. Twp. 3 North, R. 4 W.B.M.

State nature of all improvements which have been made as a direct result of said use:

Arid land as re-claimed and now in production of crops.

63-3268

30316

Ques. 6-a: If this is a ground water permit, give name and address of person that drilled the well: Guy Doty, Doty Drilling Company, Caldwell, Idaho

Ques. 7. If for other than irrigation purposes, state purpose and how used:

Ques. 8. What is the minimum amount of water required for the purpose specified above:
1.8 cubic feet per second

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder:

Ques. 10. State when and in what amount the water diverted under above mentioned permit has been first used: April 15, 1962 Time used since first use:
During entire crop years of 1962, 1963 and 1964.

Ques. 11. Describe all other water rights appurtenant to same place of use:
36 inches per minute under Permit G-30257 which is being relinquished
as of April 7, 1965.

(sign) 

I hereby certify that the foregoing testimony was read to the above subscribed, before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in

Caldwell, County of Canyon
State of Idaho, on this 7th day of April, A.D. 19 65.

DEPOSITION OF WITNESS

The deposition of two witnesses on this form, taken separately, required in each case

Ques. 1. State your name, age, residence, occupation and postoffice address:

Ernest J. Ross; age 45 years; Rural Canyon County, Idaho; occupation-
farmer; postoffice address-Route #6, Caldwell, Idaho

Ques. 2. Are you acquainted with Idaho Farmway, Inc., a corporation the holder of
Permit No. G-30316 ? ^{Yes} / How long have you known him and where does he reside:

I have known of the corporation and its farming activities for the past
ten years.

Ques. 3. Have you read or heard said Permit No. G-30316 read, and are you familiar
with its provisions and conditions: Yes: Yes No:

Ques. 4. State source of water supply: Deep drilled well and pump,

State place of diversion: In the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$, Sec. 4, Twp. 3 N, R. 4 W.B.M.

Describe works for conveying water to place of use:

Ques. 5. How many second feet of water do you estimate said works will safely conduct
to place of use: 2.42 How much water have you seen being so
conveyed: 2.42

Ques. 6. If for irrigation, show number of acres irrigated in each subdivision, giving
full legal description:

Seen water applied on 1.4 acres in the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$; 40 acres in the
NW $\frac{1}{4}$ of the SW $\frac{1}{4}$; 40 acres in the SW $\frac{1}{4}$ of the SW $\frac{1}{4}$; 34 acres in the SE $\frac{1}{4}$ of
the SW $\frac{1}{4}$; and 6 acres in the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$; all Sec. 4, Twp. 3 North,
R. 4 W.B.M.

Ques. 7. If for power or other purposes than irrigation, state how water has been used.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation:

Terrain gentle slope - sandy loam soil

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent: None whatsoever.

Ques. 10. When did you first see this water used: On or about April 15, 1962.

Other times you have seen such use: Several times during the crop years 1962, 1963 and 1964.

(Signed)

Ernest J. Ross

RE: Permit G-30316

P. L. Weitz, Manager
Idaho Farmways, Inc.
Route #6
Caldwell, Idaho

Dear Mr. Weitz:

Our field examiner was out to inspect your beneficial use of water on the above referenced permit. It is noted that part of the land covered by your permit has licensed water rights all ready. License G-22409 in the name of Rebecca Baird has 25 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 4. License G-25046 in the name of George A. Weitz, Inc., has 15 acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ and 40 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 4. If this land has been transferred to the Idaho Farmways, Inc. without water rights we can issue a license for the 100 inches of water the well produces. Otherwise, we can issue a license for the 43 inches to cover the land on your permit without a license on it.

We will require an affidavit from the holder of License G-22409 and G-25046 stating the ground was sold without water rights or if 43 inches is satisfactory we can license the permit for that amount.

Hoping to hear from you in this matter.

Very truly yours,

M. RUSSELL BOSCH
Office Manager

Dear Mr. Weitz:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the WILDER HERALD, all submitted in proof of completion of works and beneficial use on Permit No-30316.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER

March 2, 1965

Mr. Wm. F. Gigray, Jr.,
Attorney at Law,
9th and Dearborn,
Caldwell, Idaho.

Dear Mr. Gigray:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-30316, in the name of Idaho Farmway, Inc.. Final Proof is to be made before you, as Notary on the 7th day of April, 19 65, at 10:00 o'clock A.M., at 9th & Dearborn, Caldwell, Idaho.

As of this date, we have mailed the Notice to the Wilder Herald, Wilder, Idaho, with instructions to publish it once a week for five consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done hereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In return the depositions to this office, be sure that all copies have been found, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

CARL E. TAPPAN
