Dear Mr. Cox:

A representative of this Department has made an examination of the works covered by your Permit No. 30018/63-3251 and has found the following:

Quantity of water diverted: 0.95 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.95 cfs

The maximum quantity diverted shall not exceed 337.5 acre feet per year.

Beneficial use: Irrigation of 75 acres within the S1/2NE1/4, Sec. 5, Twp. 4 N, Rge. 1 E, B.M.

Point of diversion: SE1/4NE1/4 Sec. 5, Twp. 4 N, Rge. 1 E, B.M.

Priority date established: November 15, 1961 (late proof)

We have enclosed a partially completed application for amendment for your use. Please sign the application and return it along with a \$10.00 filing fee.

Please be advised that there is also a \$9.00 licensing fee due. Therefore, we must receive the completed amendment application and a fee totaling \$19.00 within 30 days of the date of this letter in order to be able to issue your water license as set forth above.

If you do not concur with these findings or have any questions, please contact this office within the 30 day period.

513 E. Idaho Street
Meridian, Idaho

Dear Mrs. Langley:

Our field examiner has conducted a field examination regarding G-30018 and has found that Mr. Glen Cox is the apparent owner and operator of this farm which is located in the S₂NE₄, sec. 5, T. 4 N, R. 1 E, B.M.

The department would like to know if you would want to assign your right and interest regarding water permit No. G-30018 to Mr. Glen Cox or if you would like to complete the permit yourself and pay the licensing fee. The only other alternative would be to relinquish this permit.

Very truly yours,

Dean Reynolds
Field Examiner

Re: Permit No. G- 30018

Meridian, Idaho

Dear Mr. Smith:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30018 are due not later than **August 7, 1966**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Dear Mr. Eschler:

This is in reply to your letter of May 9, 1966 in which you ask about the possibility of an extension of time on your permits 30015 and 30118. As you are aware, these permits provide for diversion of a total of 6.0 second feet of water from open or dug wells. Your proposal to now drill one deep well would amount to a new development. Since proof of completion of works is due under your permits on August 7 and September 1st, 1966 we suggest you immediately file an application for a permit to drill the proposed well this next summer.

A form for this purpose is enclosed for your use. We will be happy to give you any assistance necessary in this matter.
