Boise, Idaho

Dear Mr. Agee:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-29759 shows the well(s) is ~~(are)~~ capable of conveying 144 miner's inches, or 2.88 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 19.00 , we will issue the Certificate of Completion of Works for 2.88 c.f.s. and the License and Certificate of Water Right for 2.88 c.f.s. confirming the right, with priority of May 26, 1961, to the use of subterranean water with the point of diversion in the NE¹/₄SE¹/₄, Sec. 36 for irrigation of 266 acres in the SE¹/₄NW¹/₄, S¹/₂NE¹/₄, N¹/₂SE¹/₄, NE¹/₄SW¹/₄, SE¹/₄SE¹/₄, Sec. 36, T. 3 N., R. 1 E., .M.

Dear Mr. Agee:

Our field engineer has been out to check your works and beneficial use on the above numbered permit. We find by his examination that you are actually irrigating all the lands originally covered by this permit. However, when you forwarded your publication notice you did not advertise $SE\frac{1}{4}$ of the $NE\frac{1}{4}$ or the $SE\frac{1}{4}$ of the $NW\frac{1}{4}$, Section 36. Therefore, we can issue you a license for only the ground advertised or or 96 inches of water or you can re-advertise and take new proofs and we can give you the full amount.

We are enclosing forms for re-advertising if you so desire. If you want to accept the license for only the ground advertised please notify our office. Otherwise, please fill out the forms 36 and 11 and return to our office.
