Dear Russ:

This letter will confirm earlier calls to you and a visit by Mr. Kent Barber to the Water Administration office regarding the Brian Water Corporation providing a standby facility in the Brian Subdivision.

Mr. Dave Hudson is presently drilling an 8-inch well approximately 25 feet south (towards Brian Road) of our present well. We hope that it will only have to be about the 80 feet deep that our present well is drilled. The State Health Department approved the casing that is being used, a stainless steel screen will be provided, and a $7\frac{1}{2}$ h.p. Jacuzzi submersible pump will be installed. The facility will all be underground and hooked into our present system within our present well-house. The controls will be in our well-house and this will only be a standby facility.

We are presently servicing 40 homes in the Brian Subdivision and will expand to 45 ultimately. The Public Utilities Commission recommended our installing this standby facility in case of emergency. Our I.P.U.C. certificate is #260 and the well permit is #G-29354. I hope this is sufficient information for your records at this time.

Very truly yours,

Dear Mr. Stewart:

We acknowledge receipt of the depositions of holder and two
witnesses, also affidavit of publication in the Meridian
News-Times, all submitted in proof of completion of works
and beneficial use on Permit No. G-29354.

Before final action is taken in the matter, the law requires that
a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our
field engineer will try and contact you at the time he makes the examination
so that arrangements may be made to show him over the grounds.

Dear Mr. Bertram:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29354 are due not later than January 30, 1966.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.
