Gentlemen:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-28872 shows the well(x) is (~~some~~) capable of conveying 85 miner's inches, or 1.70 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 13.00 , we will issue the Certificate of Completion of Works for 1.70 c.f.s. and the License and Certificate of Water Right for 1.70 c.f.s. confirming the right, with priority of July 15, 1960 , to the use of subterranean water with the point of diversion in NE $\frac{1}{4}$ NW $\frac{1}{4}$ for irrigation of 160 acres in W $\frac{1}{2}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 25, T. 3 N, R. 4 W, B.M.

Re: Permit Nos. G-24027, G-26462
and G-28872

Symms Fruit Ranch, Inc.,
R. R. #6,
Caldwell, Idaho.

Gentlemen:

With reference to the wells with permits we discussed last Friday, June 24, 1966, our records show as follows:

Permit No. G-24075 - Lynn Prohaska, assigned
to Symms Fruit Ranch 7-18-60,
Licensed for 1.0 cfs (50 inches)
Point of Diversion: SW¹/₄ NE¹/₄, Sec. 23,
to irrigate SW¹/₄ NE¹/₄, Sec. 25, Twp. 3 N.,
Range 4 W., 160 acres;

Permit No. G-26462 - Jay P. Munsey
Licensed for .57 cfs (28 1/2 inches)
Point of Diversion: SE¹/₄ NW¹/₄, Sec. 23,
to irrigate SW¹/₄ NW¹/₄ - 80 acres,
NE¹/₄ SW¹/₄, 30 acres, Sec. 23, Twp. 3 N.,
Range 4 W.,

Permit No. G-28872 - Symms Fruit Ranch, Inc.

This permit was inspected by myself April 6, 1962, and held in suspension until proof of completion of works and beneficial use was made.

The proofs were not received in this office until May 6, 1965. The examination made in 1962 was somehow overlooked and a new report of examiner was made and put in the examination pending file. This was made October 4, 1965 by Don McElidowney. I cannot explain the third Examiner's Report.

However, the examination made in 1962 showed the well produced 1.70 cfs (85 inches) and is to be supplemental to Permit No. G-24075.

28872

Symms Fruit Ranch, Inc.,

6-27-66

Page 2

The combined discharge from both wells total 2.70 cfs (135 inches) with the point of diversion in the NE1/4, Sec. 25, and is to irrigate the W1/4, NE1/4, Sec. 25, Twp. 3 N., Rge. 4 E;

No license has been issued on this well. A letter will follow requesting a fee and stating the results of the examination.

Also please find enclosed forms and instructions for application for permit for the new well located in the SW1/4, Section 25. I have located the well on the two enclosed maps. You show the land to be irrigated as per instructions. The filing fee must accompany the application.

Very truly yours,

Dear Mr. Symms:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the NEWS-TRIBUNE, all submitted in proof of completion of works and beneficial use on Permit No. G-28872.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Gentlemen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 28872 are due not later than **July 26, 1965**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Carl E. Tupper
