RE: Permit No. G-28847

Bernard Warntjes
Box 909
Nampa, Idaho

Dear Mr. Warntjes:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-28847 shows the well(2) is (222) capable of conveying 32.5 miner's inches, or 0.65 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 7.00 , we will issue the Certificate of Completion of Works for 0.65 c.f.s. and the License and Certificate of Water Right for 0.65 c.f.s. confirming the right, with priority of July 7, 1960 , to the use of subterranean water with the point of diversion in NE1/4NE1/4 for irrigation of 42 acres in NE1/4NE1/4, Sec. 6, T. 3 N, R. 4 W, B.M.
