That they are the owners and holders of Permit to Appropriate the Public Waters of the State of Idaho, No. G-28486.

That the point of diversion is described in said Permit as being located: Center NE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 23, T. 6 N., R. 5 W., B. M.

That they now request that the points of diversion be changed to points located: NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 23; NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 24, T. 6 N., R. 5 W., B. M.

That the reason for desiring to make such change is as follows: On point of diversion in Section 23, the forty shown was deleted from the desert land entry and the point in sec. 24, was more feasible for the two forties added.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Dear Mr. Stockton:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G-28486 are due not later than March 8, 1965

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,
