Dear Mrs. Gross:

In our letter to you dated September 22, 1966 we inadvertently overlooked the fact that you are irrigating 6 acres in the SW1/4, Sec. 35, T. 2 N., R. 2 W., B.M. when we wrote the letter for fees, and we therefore did not charge the examining fee for that subdivision.

If you want the 6 acres included in the license will you please send us a check for an additional \$2.00?

Nampa, Idaho

Dear Mrs. Gross:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. ~~G-27970~~ shows the well ~~is~~ ~~capable~~ of conveying ~~64~~ miner's inches, or 1.28 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 11.00 , we will issue the Certificate of Completion of Works for 1.28 c.f.s. and the License and Certificate of Water Right for 1.28 c.f.s. confirming the right, with priority of August 28, 1959, to the use of subterranean water with the point of diversion in the SE¹/₄ Sec. 34 for irrigation of 100 acres in the NE¹/₄ Sec. 34, T. 2 N., R. 2 W., S.M.

RE: Permit No. G-27970

Justine Gross, Executrix
Rt 3
Nampa, Idaho

Dear Mrs. Gross:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-27970 shows the well is capable of conveying 50.5 miner's inches, or 1.01 c.f.s. of water for irrigation of 106 acres in the ~~NE 1/4~~, ~~S 1/4~~, Sec. 34, T. 2 N., R. 2 W., B.M. from the well in the ~~SE 1/4~~, Sec. 34, T., 2 N., R. 2 W., B.M.

Your permit shows the well to be in the ~~SW 1/4~~, Sec. 34, T. 2 N., R. 2 W., B. M. so you will have to amend the point of diversion before we can issue the certificates of water right. The Attorney General has ruled that you will have to readvertise and make new proofs in such a case. See the enclosed copy of the ruling.

We are enclosing Forms 36 and 11, and an amendment form so that you may proceed according to law. There is a recording fee of \$1.00 for the amendment which you may remit with the forms.

Dear Mr. Gross:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G-27970 are due not later than **June 11, 1964**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

CARL E. TAPPAN

Gentlemen:

I am writing to you in connection with Permit No. 27970 in the name of Dale Gross. Mr. Gross received a letter dated April 1, 1964 concerning the proof on this application.

Mr. Gross passed away the 5th day of April, 1964, and I am writing this letter in behalf of his widow. I was going to start the proof of completion of works, when I discovered that the water was actually applied to partially different land than in the permit.

118 acres have been actually irrigated from this particular well. The land so irrigated is all of the S½ of the NE¼ of Sec. 34, Twp. 2 N., R. 2 W.B.M., in Canyon County, Idaho, and this particular 80 acres is contained in the permit. No water was applied to any of Section 26, in said Twp. and Range. The remaining 38 acres that were actually irrigated are described as follows, to-wit:

All that land in the SW¼ of the NW¼ of Section 35, Twp. 2 N., R. 2 W.B.M., Canyon County, Idaho, lying South and West of a straight line drawn between the Northwest corner of said SW¼ of the NW¼, and the Southeast corner of the said SW¼ of the NW¼.

The additional 18 acres is described as follows, to-wit:

That portion of the W½ of the NE¼ of the NE¼ of Section 34, Twp. 2 N., R. 2 W.B.M., Canyon County, Idaho, lying South and Easterly of a straight line drawn from the Northeast corner of the said W½ of the NE¼ of the NE¼, and the Southwest corner of the said W½ NE¼ NE¼.

Would you please advise us as to the procedure you desire us to take. I would presume that the permit should be amended,

27970

State Reclamation Engineer

April 14, 1964

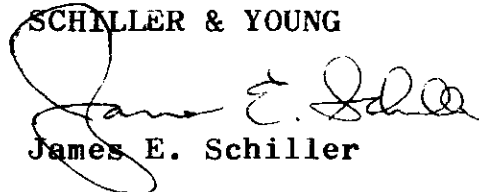

Page 2.

and proof should be made with the new and correct legal description of the land irrigated.

I do not believe that the death of Mr. Gross will complicate matters, as he died testate, and all of his property was willed to his wife, Justine Gross. She will be soon appointed the Executrix of the estate.

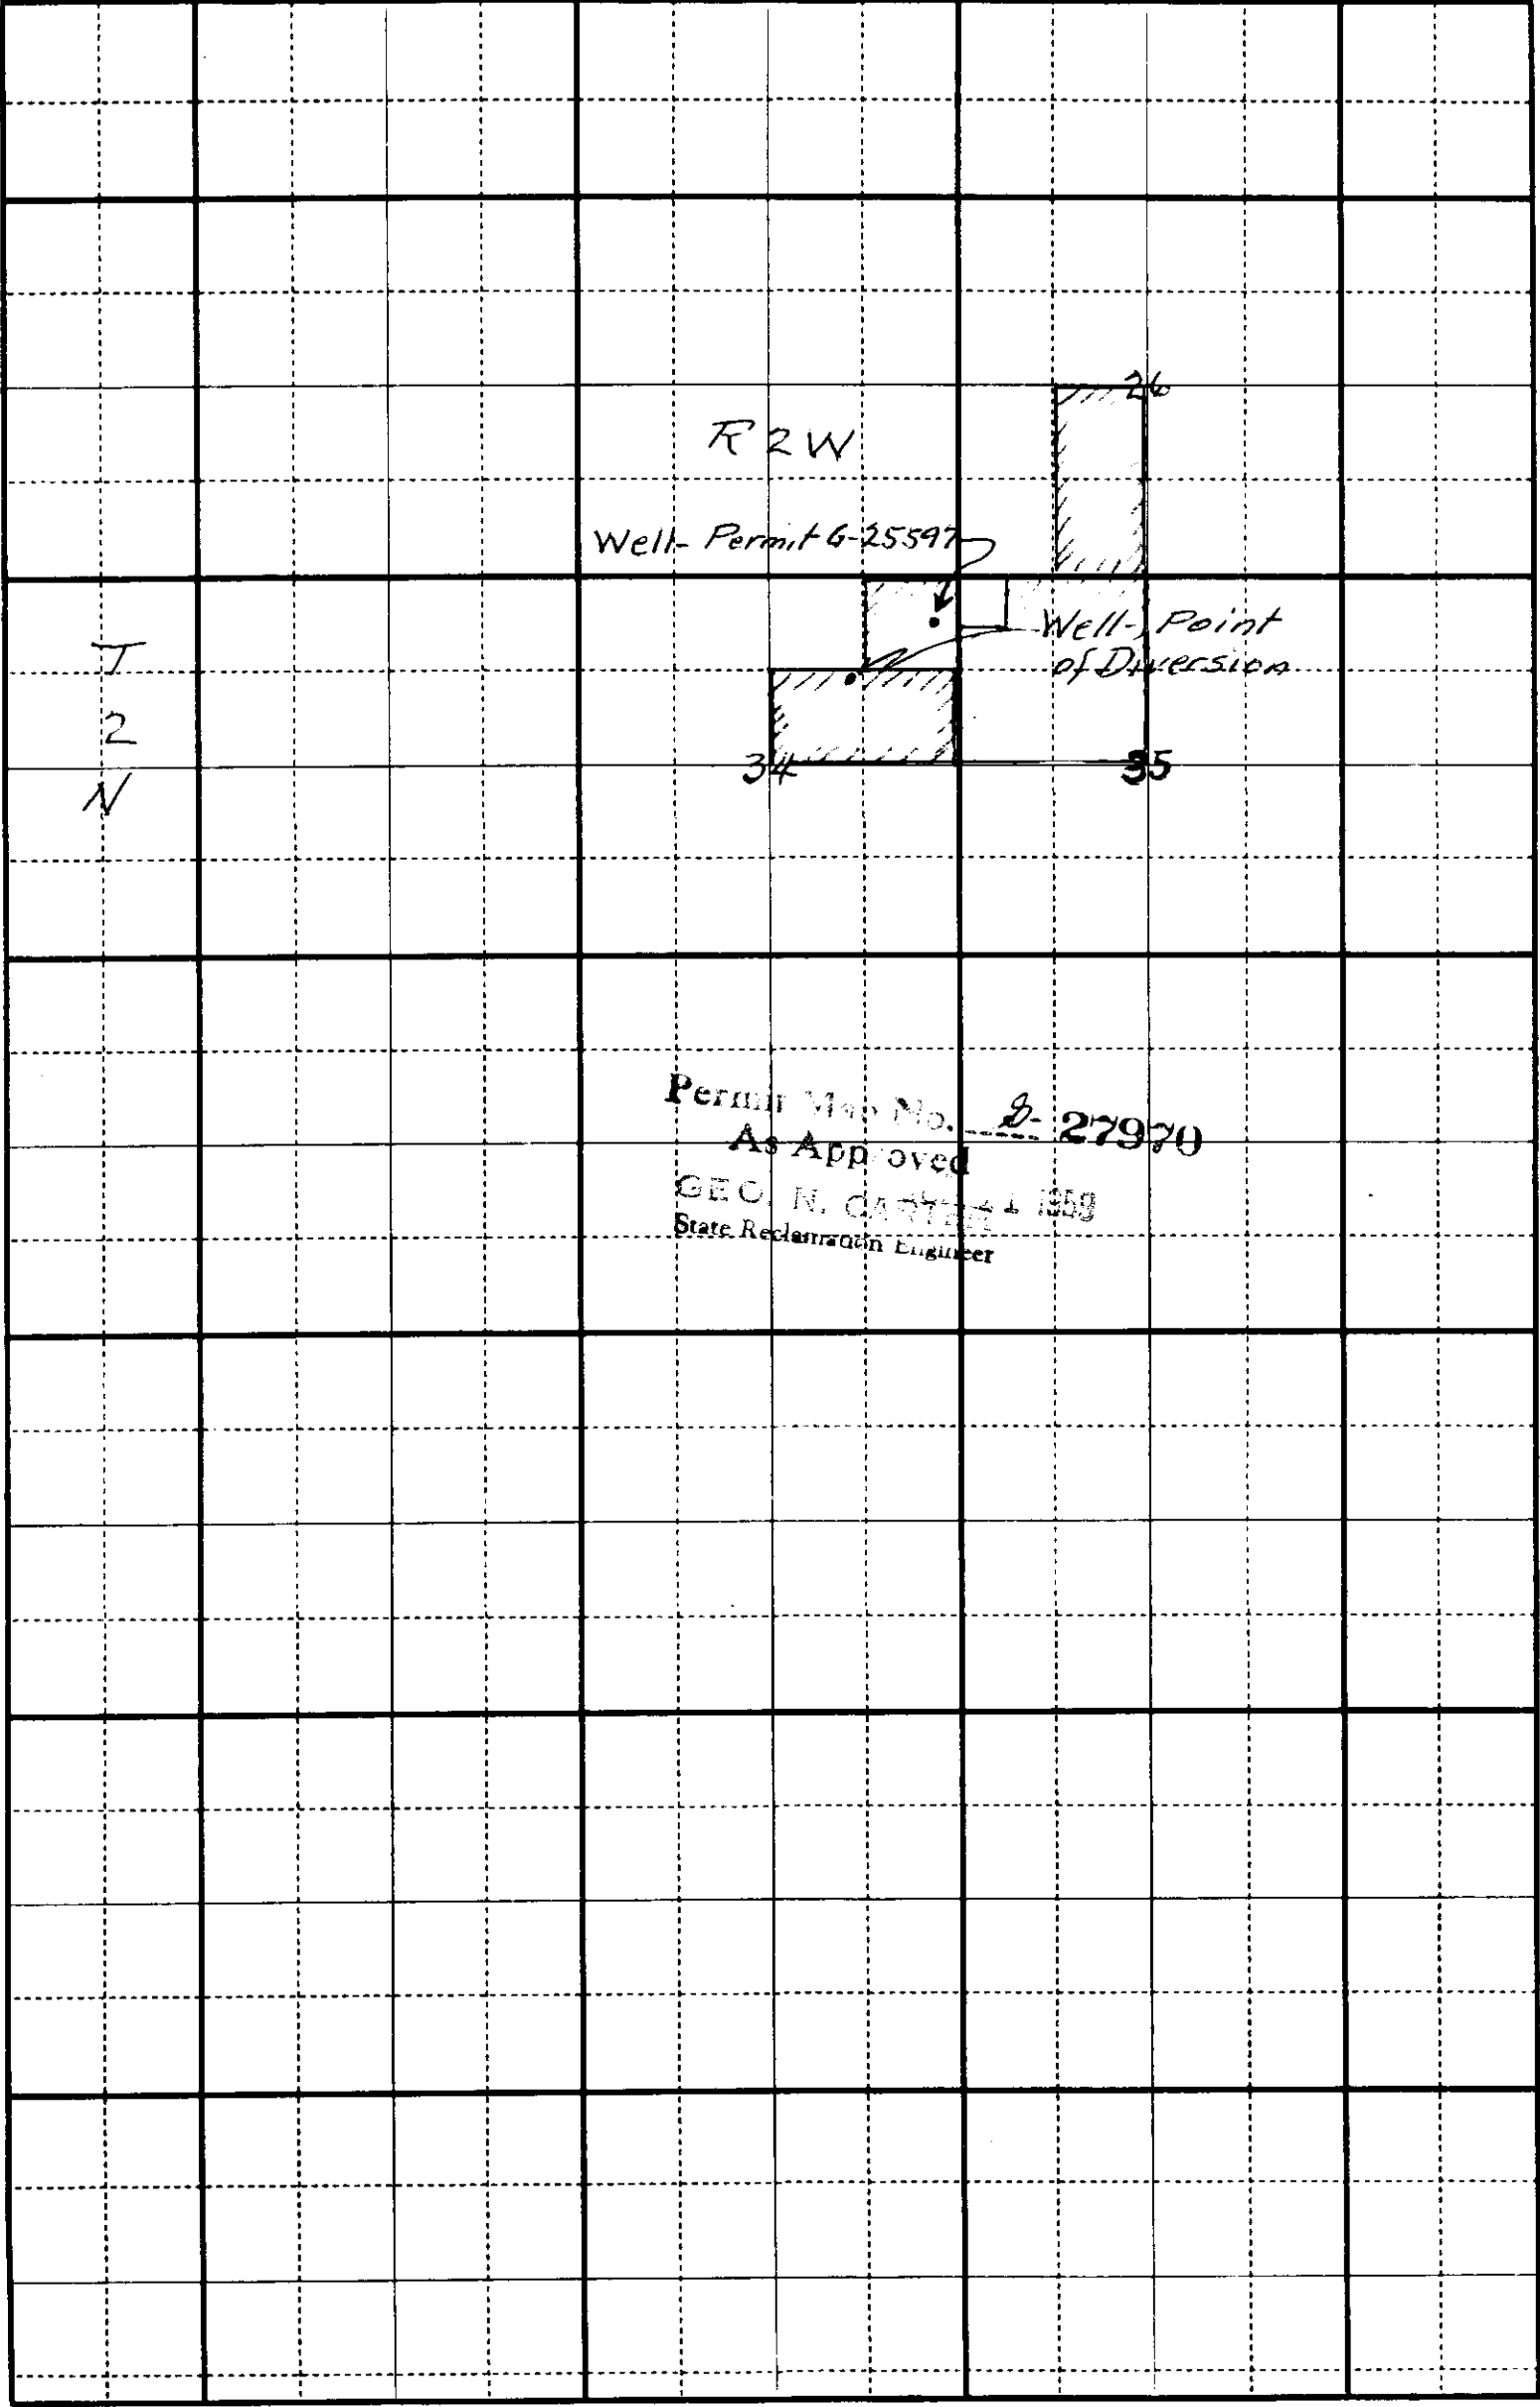

Sincerely yours,

SCHILLER & YOUNG
