**ORDER AUTHORIZING
TEMPORARY CHANGE**

WHEREAS, a drought emergency has been declared for Blaine County to allow administrative actions to lessen the severe impacts of the drought conditions in the county; and

WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a drought emergency, the director of the Department of Water Resources is authorized to allow temporary changes in the point of diversion, the place of use, and the purpose of use for valid existing water rights or temporary exchanges of water, as provided in section 42-240, Idaho Code, when the director determines that such changes can be accomplished in accordance with the provisions of section 42-222A, Idaho Code; and

WHEREAS, on April 26, 2001, Moj and Debbie Broadie ("applicant") submitted the attached Temporary Change Application numbered TC-37-01 to the Department; and

WHEREAS, the Department has reviewed the application and has determined the application can be approved with certain conditions; and

WHEREAS, The applicant assumes all risk and is the responsible party if diversion and use of water under the temporary change approval causes injury to other water rights or constitutes an enlargement in use of the original right;

ORDER

IT IS HEREBY ORDERED that the application is **APPROVED** subject to the following conditions:

1. Diversion and use of right no(s). 37-00939, 37-01213 and 37-07770 (part) are authorized only at the points of diversion and place of use described on the application or as otherwise approved in this order.
2. This temporary change approval does not authorize construction of a new well or new diversion works on Silver Creek. Only existing facilities are allowed to be utilized.
3. This temporary change approval may only be used to provide a replacement water supply to lands or other uses that normally have a full

water supply, except for the drought condition. This temporary change approval may not be used to provide water for new development or to allow expansion of the use of water under existing water rights.

4. Right(s) 37-00939, 37-01213 and 37-07770 part are limited to the irrigation of a total of 294.7 acres in a single irrigation season instead of the requested 544 acres. Once these rights are the only ones deliverable, the applicant may choose which 294.7 acres within the 484 acres shown on the attached map may continue to be irrigated. The applicant is not authorized to rotate the water to irrigate more than 294.7 acres.
5. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the written consent of such corporation or irrigation district.
6. The applicant agrees to hold the director and the state of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.
7. This temporary change approval does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
8. The watermaster of Water District No. 37 is authorized to administer the temporary change approval.
9. This temporary change approval expires on October 31, 2001 unless rescinded or extended by the director. Thereafter, the water right shall revert to the point of diversion, place of use and nature of use existing prior to the temporary change approval.
10. For purposes of the Snake River Basin Adjudication, the department reserves the right to modify the acreage limitations and other aspects of the rights.

6. General Information:

37-1213

- a. Who owns the water right to be changed? Applicant & J.R. Simplot Co. (37-0939)
- b. Describe the arrangement allowing use of the right Applicant Farms both properties
- c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this application:
Fewer acres will be farmed due to reduced supply.
- d. Has the water right sought to be transferred been used this year? Yes If yes, explain. The rights have been used on their respective farms but not yet co-mingled.
- e. Absent the changes, how would the right be used for the remainder of the year? Neither farm could be watered with only 50". Both farms would dry up.
- f. Describe other water rights used for the same purpose.
Late-priority Silver Creek rights have already been cut off.
- g. Remarks:
These rights have been co-mingled since 1985 when water gets short. However, this year the watermaster is requiring this temporary transfer approved by IDWR.

I hereby assume all risk in accordance with Section 42-222A, Idaho Code, and assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in voiding its approval.

- a. Who owns the water right to be changed? Applicant J.A. Simplot Co. (37-0939)
- b. Describe the arrangement allowing use of the right Applicant farms both properties
- c. Describe the effect on the land now irrigated if the place of use is changed pursuant to this application:
Fewer acres will be farmed due to reduced supply. ✓
- d. Has the water right sought to be transferred been used this year? Yes If yes, explain. The rights have been used on their respective farms but not yet co-mingled.
- e. Absent the changes, how would the right be used for the remainder of the year? Neither farm could be watered with only 50". Both farms would dry up.
- f. Describe other water rights used for the same purpose.
Late-priority Silver Creek rights have already been cut off.
- g. Remarks:
These rights have been co-mingled since 1985 when water gets short. However, this year the watermaster is requiring this temporary transfer approved by IDWR.

I hereby assume all risk in accordance with Section 43-222A, Idaho Code, and assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in voiding its approval.
