CONDITIONS/REMARKS:

1. A measuring device of a type approved by this Department shall be maintained as a part of the diverting works.
2. Use of water under this water right will be regulated by the watermaster of State Water District No. 37N.
3. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for the lands above.
4. Approval of this transfer in no way grants any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.
5. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
6. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
7. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
8. The total combined annual volume of water under Right Nos. 37-00634A, 37-00456 and 37-01134 shall not exceed 680.4 af.
9. The total combined annual volume of water under Right Nos. 37-00633 and 37-00634B shall not exceed 177.8 af.
10. Combined Right Nos. 37-00634A, 37-00456 and 37-01134 are limited to irrigation of 194.4 total acres as identified above in a single irrigation season.
11. Combined Right Nos. 37-00633 and 37-00634B are limited to irrigation of 50.8 total acres as identified above in a single irrigation season.

RECEIVED
JUN 19 1994

MEMORANDUM

TO: File Nos. 37-00456/00633/00634 & 01134

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER NO. 4258

DATE: April 25, 1994

=====

Transfer No. 4258 was filed to change and split the place of use under the water rights listed below. The rights are all decreed surface water rights from the Little Wood River to a partially overlapping place of use that was generally described in the decree. (See the attached orthophoto quad map and diagram that reflects the decreed place of use.)

The farm is being split and the irrigated portion west of the West Canal (Part A) will be sold. In order for the split systems to be feasible, the rights have been rearranged reserving all of the 1881 right (37-00633) and a less than proportionate share of the overlapping 1882 right (37-00634) for Part B, 50.8 acres located between the East and West Canal.

Part A will retain a larger than proportionate share of 37-00634 and all of the remaining overlapping and separate portions of the rights. The decree identifies the E1/2 NW under Right No. 37-00456 which is not included under the transfer place of use. The Blaine County Assessor's office identifies the US Government and Carey Pasture (County has contract of sale for county landfill at this site) as the current owners and the orthophoto map confirms no irrigation in these QQs. These QQs have been removed from Right No. 37-00456 thru this transfer.

The remaining portion of the place of use, as identified under the transfer, has been identified by the assessor's office to be owned by Tingey.

The transfer includes the full rate of diversion for these rights with a total of 245.2 specified irrigated acres reducing the acres possible under the vague QQ description of the decree (10 QQ x 40 possible acres = 400 maximum acres).

Review of other overlapping rights identify rights claimed in the SRBA for the Little Wood Canal Co. and Little Wood River Irrigation District. A water right from Fish Creek appears to be fully overlapping, however the same SRBA claimed right does not overlap the transfer place of use at all, and we can assume it has not been historically used on the decreed place of use.
