BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF TRANSFER NO. 66914)
)
OF WATER RIGHT 37-00580 IN THE NAME)
)
OF DRY CREEK PARTNERS)

ORDER GRANTING
EXTENSION OF TIME TO
COMPLETE TRANSFER

On March 7, 2000 the Department approved Application for Transfer 5494 (renumbered to 66914) with a condition that:

The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.

The right holder has notified the Department that the transfer has not yet been accomplished.

The right holder has requested an extension of time for completion of the transfer and has shown reasonable cause for the delay.

IT IS, THEREFORE, HEREBY ORDERED that the right holder of Transfer No. 66914 is granted an extension to March 7, 2003 in which to accomplish the transfer.

Dated this 23rd day of February, 2001.

		4	SENE 14.2			14.2
			Total number of acres irrigated:			160.0

CONDITIONS OF APPROVAL AND REMARKS

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 37.
2. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.

PART 1

6. General Information:

a. Description of diversion system Robertson Ditch from Big Wood River to place of use.
Pumped to sprinkler irrigation.

b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?
☐ Yes ☒ No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.

c. Describe the effect on the land now irrigated if the place of use is changed pursuant to this transfer:
No effect. The only purpose of this transfer is to make the acres agree with the
SRBA claim, which reflects historical irrigation.

d. Remarks:

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

D E C R E E

This matter coming on regularly for trial in open Court at Shoshone, Idaho, on the 1st day of July, 1924, and subsequent days, before the Honorable Robert M. Terrell, presiding judge, without a jury, the plaintiff being represented by its attorneys, Bissell & Bird, the defendant not appearing in person or by counsel, and the intervenors appearing by their counsel Martin & Martin and Geo. Padgham; whereupon, testimony on behalf of said appearing parties was introduced and the matter was submitted to the Court upon such testimony and by written briefs of the parties thereafter filed, and the court having considered such testimony and briefs, and being fully advised in the premises, and having made its findings of fact and conclusions of law in said cause;

IT IS HEREBY ORDERED, ADJUDGED AND DECREED, That the hereinafter mentioned parties are the owners of and entitled to the use of the number of cubic feet per second of time of the waters of Big Wood and Maladé Rivers and their tributaries as indicated hereinbelow, with date of priority indicated, and for use upon the land described and indicated, to-wit:

RE: Water Rights 37-00580 (Transfer 66914)

Dear Water Right Holder(s):

Enclosed please find an Order Granting Extension of Time to Complete Transfer issued by the department in reference to the above listed information.

Idaho Code 42-204 does not make provision for an extension of the commencement of construction date. Therefore, no change has been authorized to Permits 37-8893 and 37-8894. However, any effort to begin your project, such as site planning or seeking financing could be viewed as diligently pursuing the development of your permits. The Department will send a Notice of Proof Due 60 days prior to March 1, 2003, the proof of beneficial use date identified on Condition No. 1 of the Permits. Both a Proof of Beneficial Use form and a Request for an Extension of Time for Proof of Beneficial Use form will be sent at that time with instructions.

Please be advised that the Department cannot grant additional extensions of time to complete this transfer.

If you have any questions regarding this matter, please call me at 327-7940.

Sincerely,

Camela S. Skaggs
for Jeff Peppersack, Manager

RE: PERMITS NO. 37-08893, 37-08894 & TRANSFER OF WATER RIGHT 37-00580, 37-00865A, 37-00865B

Dear Mr. Keen,

This letter is to follow up on our discussion of this afternoon concerning the referenced permits / transfers, which as you know were conditionally approved by IDWR on March 7, 2000.

Severely depressed milk price in 2000 created a climate, which was not conducive to financing a new operation. We have however, proceeded with our planning, both in terms of finding a market for the milk and locating suitable financing. We believe that recent development here and with respect to milk prices are very encouraging and we hope to proceed with the project in the coming year. At this point we do not want to jeopardize the time and effort we have already invested in the permitting process and are therefore requesting that you grant an extension of the referenced permits and transfers.

Specifically, we are making the following request:

Concerning TRANSFERS NO. 37-00580, 37-00865A & 37-00865B:

That the date to accomplish the change authorized by the transfer be extended from the current date (i.e., March 7, 2001) so that it coincides with the proof of beneficial use date on the referenced water permits (i.e., March 1, 2003).

Concerning PERMITS NO. 37-08893 & 37-08894:

That the date for commencement of construction be changed from one year following the date of issuance of the permits (i.e., March 7, 2001) to June 1, 2002.

Thank you for your assistance. Please contact me at the above number if you have any questions.

Sincerely,

G. William Novinger

RE: TRANSFER OF WATER RIGHT 37-00580 (Transfer 5494)

Dear Water Right Holder(s):

Enclosed is the copy of your approved Transfer of Water Right for the above referenced water right (Transfer 5494). Please be sure to thoroughly read the Conditions and Remarks listed on the transfer. Also, please be advised that the accompanying transfer approval should be considered and treated as an **preliminary order** of the department issued pursuant to section 67-5243, Idaho Code. Enclosed are instructions for responding to **Preliminary Orders** if you are in disagreement with the approved transfer.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact the department if you have questions.

Sincerely,

Camula S. Shaggs

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED
MAR 24 2000

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Right 37-00580

FROM: Pam Skaggs/State Office

SUBJECT: Transfer 5494

DATE: February 4, 2000

Transfer 5494 changes the place of use under Right 37-00580 to reflect the acres as historically irrigated and as claimed in the SRBA. The exact acres in each quarter-quarter was identified by Allen Merritt in the region office through GIS and a map is included as part of his 12-30-1999 Memo.

Although the watermaster comment sheet was sent and marked received on the region review sheet, the form cannot be found in this or companion transfer 5492. The region staff will provide a second copy and the file will be withheld from processing until it has been received. Ownership documentation was copied from the other transfer file and provides ownership of the historically irrigated acres.

The applicant also provided a relinquishment form for Right 37-00859 from Dry Creek which overlaps this property according to the original decree, but has never been used by the applicant and has been partially claimed in the SRBA by the adjacent land owner.

Standard diversion volume and season of use were identified on the approval. Recommended conditions include watermaster control, measuring device & lockable controlling works, irrigation overlap and standard transfer conditions.

MEMO

FROM: Allen Merritt 

DATE: December 30, 1999

TO: Transfer File No.	5492	5494
Water Right(s):	T37-00865A	T37-00580
	T37-00865B	

Application for Permits: 37-08893 & 37-08894

In the Name of: Dry Creek Partners

SUBJECT: Review and Recommendation

These four applications were filed for the purpose of clarification of water rights and conversion of rights for construction of a new dairy. They all need to be reviewed together.

Transfer 5494 reconfigures right 37-00580 P/U by shifting the right over to historically irrigated lands.

Transfer 5492 splits right 37-00865 into two parts. Part A is a change of irrigation of 54.4 acres to that of recharge to groundwater. This right is used to mitigate application for permit for the dairy and for the recharge pond (37-08893 & 37-08894). Part B reconfigures the remaining 228.6 irrigated acres on a historically irrigated parcel.

Application for permit 37-08893 is for development of groundwater for the new dairy. It is mitigated with 37-00865A.

Application for permit 37-08894 is for storage in the recharge pond located at the confluence of Black Canyon Creek and Dry Creek. Evaporation at the pond is mitigated by 37-0865A.

Brockway Engineering prepared the applications and provides the supporting documentation.

The applications were advertised and T5492 and application 37-08893 were protested by Lee Halper but after meeting with Mr. Novinger he withdrew his protests.

I have GIS'd the transfers and as a result I have shifted the acreage slightly as a result. Also the tract of NESW was added as a place of use for recharge in T5492 and application 37-08894 since the confluence of Dry Creek and Black Canyon Creek would place the pond at this location. I do not advise re-advertisement due to this slight change. Also I corrected the mailing address of the applicant.

During the preliminary work with Brockway the SRBA claims were amended to more correctly reflect the irrigated acres. Also the applicant resolve the competing claim of O'Maley for right 37-00580. O'Maley now claims 37-00581. Attached is a GIS map describing the property ownership. Also is a preliminary GIS map showing the historically irrigated lands. The applicant has

MICROFILMED

455 2 - 2000

relinquished his claim to Dry Creek water 37-00859 since he does not use it. The lands historically irrigated within the property are irrigated by the decrees from the Big Wood River as well as American Falls supplemental water (1.31 cfs) Big Wood Canal Co shares and American Falls Lower Water Users shares (599 shares).

To prevent expansion due to drying up acres all shares should be retained on the property that currently exist. To prevent injury to groundwater the recharge should be monitored closely.

Recommendation

I recommend that these applications be approved subject to the following conditions:

- Measuring and reporting of use plan be submitted and approved by the department and watermaster to document the recharge to groundwater and use at the dairy. (No credit shall be given for waters recharged from the natural flows in Dry Creek or Black Canyon Creek. Only water measured from right 37-00865A shall be allowed as credit for mitigation for permit 37-08893.) To measure recharge recording devices must be installed on Dry Creek and Black Canyon Creek above the recharge pond and on Dry Creek below the recharge pond. Also the water injected into Black Canyon Creek must also be measured.
- All rights under the control of watermaster of water district 37.
- Drilling permit requirement for new wells at dairy site.
- All other water rights or shares be maintained on property.
- Subject to SRBA.
- Subject to other county, state or federal requirements as appropriate.

TITLE OF NOTICE

PLAINTIFF ATTORNEY

DEFENDANT

PLAINTIFF

IDWR

BILL TO

COPY OF NOTICE

NOTICE OF APPLICATIONS FOR WATER PERMIT AND PROPOSED CHANGE OF WATER RIGHT

Notice is hereby given that Dry Creek Partners, c/o Bill Novinger, PO Box 301, Gooding ID 83330 on June 1, 1999 filed two applications for water permit and later finalized two applications for transfer of existing rights. All applications are associated with development of a new dairy and recording of surrounding irrigation rights.

Application for Permit No. 37-08893 requests development of groundwater from one existing well and two new wells within SESE Section 3, T05S, R14E, Gooding County. Use is for Stockwater and Commercial (total of 1.00 cfs from 1/1 to 12/31) used within portions of Sections 2 and 3 of T05S, R14E. Commercial use includes dairy barn and land application of wastewater from dairy. This application intended to be mitigated by recharge to groundwater pursuant to transfer application No. 5492.

Application for Permit No. 37-08894 requests development of year-round 40 acre foot storage/recharge pond within Section 3, T05S, R14E, Gooding County. Pond to be built at the confluence of Black Canyon Creek and Dry Creek, tributary of the Big Wood River with a flow of 5.0 cfs from these same creeks for recharge.

7-8 p Recharge will occur as water sinks in c/Pica
7-8 p unlined pond.

ins Transfer No. 5492 requests modification of right 37-00865 with a priority date of 4/1/1905 for 5.60 cfs diverted from the Big Wood River within the SWNW Section 7, T05S, R18E (Robertson Ditch) and used for irrigation of 280 acres within Sections 2 and 3 of T05S, R 14E. The transfer

N proposes to dry up 51.4 acres where the dairy is to be built and use water (1.03 cfs or 154.2 acre feet per year to be diverted to storage/recharge pond described above via Black Canyon Creek). 228.6 acres will continue to be irrigated with 4.57 cfs. The acres being dried up are intended to mitigate for evaporation in above described pond and for recharge to groundwater to mitigate for development of application 37-08893.

Transfer No. 5494 is intended to correctly describe the historical place of use of right 37-00580 with a priority date of 4/2/1906 for 3.20 cfs for irrigation diverted from the Big Wood River through the Robertson Ditch. Current recorded place of use is within Sections 3, 10 and 15, T05S, R14E with unspecified number of acres irrigated. This transfer proposes to record the historical place of use as 160 acres within Sections 3 and 4, T05S, T14E.

Any protest against the proposed applications must be filed with the Department of Water Resources, Southern Region, 1341 Fillmore St., Suite 200; Twin Falls, ID 83301 together with a protest fee of \$25.00 on or before October 12, 1999 to be considered by the Department in its decision to grant or deny any part of the proposed applications. (Each application requires a separate protest). The protestant must also send a copy of the protest to the applicant.

Re: Applications for Transfer of Water Right Nos. Dry Creek Partners T# 5492, 5494

Dear Mr. Peterson:

Enclosed are copies of Applications for Transfer of a Water Right within your District, and Watermaster's Recommendation Form(s).

Section 42-222 of the IDAHO CODE requires that the watermaster must be advised of proposed changes in water rights in the water district and must notify the Department of his recommendation on the application.

Please complete the enclosed recommendation form(s) and return to this office.

Regional review of an unprotested application can be completed as soon as the final protest period is past; therefore, your prompt response to this request is appreciated.

If you have any questions about an application, please contact this office or the applicant.

Very truly yours,

**Allen D. Meritt, P.E.
Regional Manager**

Re: Applications for Permit No. 37-08893 & 37-08894; Applications for Transfer No. 5492 & 5494

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your applications and have assigned the above referenced identification numbers. Please refer to this number in all further correspondence.

This office has scheduled advertising the applications in the Gooding County Leader for 09/23 & 09/30/99. A period of ten days following the second publication will be allowed for the submittal of protests.

If an application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If an application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. If a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Allen D. Merritt, P.E.

Re: Dry Creek Dairy transfer and SRBA claims

Dear Allen:

As we discussed, the following documents are enclosed:

1. SRBA claim for 37-00580 by Dry Creek Partners
2. SRBA claim for 37-00865 by Dry Creek Partners
3. Amended SRBA claim for 37-00581 by Patrick O'Maley
4. Transfer application for 37-00580 to change the decreed acres to agree with the SRBA claim acres.
5. Relinquishment of portion of water right 37-00859 by Dry Creek Partners.

Please do not hesitate to call if you have any questions. Based on our conversations, I understand that the transfer / permit package previously filed can now be processed and advertised.

Enclosed are two checks from Dry Creek Partners: \$355 that you calculated for the two SRBA claim forms, and \$100 for the transfer application. Please determine the fee, if any, for O'Maley's amended claim and I will send you a check.

Sincerely,

Charles G. Brockway

Re: Transfer and permit applications – Dry Creek Partners
Project No. 347-01-1999

Dear Allen:

Enclosed is one transfer application and two permit applications for the proposed Dry Creek Dairy. As we have discussed, the intent is to transfer a portion of an existing irrigation right to aquifer recharge as mitigation for a new groundwater permit for the dairy. Also, acres are being removed from this right to compensate for the pond evaporation. I have completed a narrative which documents the existing water rights and the intent of the applicant and proposes a method by which pre-project natural stream seepage may be estimated as a baseline from which to compute additional recharge.

Please do not hesitate to call if you have any questions.

Sincerely,

Charles G. Brockway
