Re: George Arkoosh - Transfer No. 835

Gentlemen:

In response to your letter dated June 12, 1973, we have searched our records in an effort to locate any water rights for lands described in schedule A.

We were unable to locate any water rights other than those transferred by transfer no. 835 which moved 13.9 c.f.s. of water to parts of the land described in schedule A.

We located three licensed rights from Deer Creek, Little Deer Creek and Lund Springs. They are as follows: License No. 37-2057 in the name of D. C. Irwin for 6.0 c.f.s. from Deer Creek and Lund Spring with a priority date of 4-10-1906. Points of diversion are SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 19, Twp. 1 N., Rge. 15 E., B.M. from Deer Creek and NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 24, Twp. 1 N., Rge. 14 E., B.M. from Lund Spring. Place of use is given as N $\frac{1}{2}$, Sec. 25, Twp. 1 N., Rge. 14 E., B.M.

License No. 37-2224 issued to B. F. Wilson for 0.9 c.f.s. of water from Little Deer Creek with a priority date of 11-23-1911. The point of diversion is in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 24, Twp. 1 N., Rge. 14 E., B.M. and the use is on the N $\frac{1}{2}$ SE $\frac{1}{4}$ of that section.

License No. 37-2215 issued to Eva A. Simmons for 0.084 c.f.s. from Little Deer Creek with a priority date of 6-21-1911. The points of diversion are in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 13 and the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 18, Twp. 1 N., Rge. 14 E., B.M. and used on the E $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 13, Twp. 1 N., Rge. 14 E.; Lot 4, Sec. 18, and Lot 1, Sec. 19, Twp. 1 N., Rge. 15 E., B.M.

If we can be of further assistance, please advise.

Sincerely,

"Nothing"

This year our town decided to do something about its hay-fever sufferers. Hap Thomas is our health officer, so he was made ragweed "inspector."

"Can't see why anybody should be bothered by a few weeds," he snorted. "I say it's all in their minds." But Hap went on out to do his job.

Then, yesterday, I met Hap—looking kind of sheepish. His eyes were red and as he took out a big handkerchief, he sneezed. "Know somebody who isn't allergic, who'd like a job?" asks Hap.

Mr. Mark R. Kulp, Director

Dear Sir:

This will acknowledge receipt of forms for application for transfer of water right in connection with which we have several question, on which we hope you can be of assistance. The applicant owns lands in Camas County with two separate rights appurtenant to two parts thereof. He also owns adjoining lands which do not have an appurtenant water right. He likewise owns a water right which has heretofore been appurtenant to lands not owned by him. He desires to make all of the water rights he owns appurtenant to all of the lands he owns so that the water may be used by rotation at different times on each parcel thereof. Greater use can be made of the water by seasonal application of the entire amount of water on different parts. There is no change in the point of diversion, but would be merely a change of place of use to include other lands. There would be no abandonment of use of water except as to the lands from which the water was purchased.

We note the requirement of the statute that the water-master approve the transfer. Mr. Mans Coffin of Shoshone advises that Little Deer Creek and Deer Creek are two of the few creeks he has never assumed jurisdiction of. No other watermaster has been appointed for the streams for the reason that the applicant is entitled to all of the waters of Deer Creek and Little Deer Creek.

Your form requires the statement of someone else, a member of the water district, and since there are no other users from the creeks and no water district, we wonder if the Department would accept a statement from anyone familiar with the use and application of the water.

Our principal question therefore is whether or not we can apply not particularly for the transfer of water but the extension of use of water to other lands.

Thanking you for your courtesy, we remain,

Very truly yours,

ATTENTION: Mr. Andrew F. James

Dear Mr. James:

We apologize herewith for not answering your letter of June 24 before this late date. Your letter was referred to the writer who has been continuously in the field for the past two weeks.

In regard to the transfer of water right as stated in your letter, we would state that it is okay to transfer the water right from the lands to which it is now appurtenant to all the lands owned by your client.

Relative to the approval of a watermaster, you can omit the watermaster's affidavit as we have no watermaster for that section.

In regard to the depositions of two water users who are familiar with the transfer transaction, we will take the depositions from any one whether water users or not provided they know the lands and the intention of the transfer.
