DEPARTMENT OF WATER RESOURCES

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner.

1. Permit No. 37-08938 Telephone No. (208) 886-2206

2. Name of Permit Holder(s): US Dept. of Interior, Bureau of Land Management

3. Mailing Address: P.O. Box 2B 400 West F Street

City Shoshone State ID Zip 83352

4. Source of Water: Spring If **GROUNDWATER** (well), Date Drilled: mo. _____ / yr. _____

a. Well Driller: _____ Drilling Permit Number: _____ - _____ - _____ - _____

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): 430 Range Cattle

Irrigation (No. of acres): _____ Other: 4000 Range Sheep
Wildlife in varying amounts

6. Total rate of diversion and/or volume for which proof is submitted: 0.02 cfs OR _____ acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required?

Yes _____ or No X

Has the measuring device been installed?

Yes _____ or No X

8. Fee Enclosed: \$ 50.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

(208) 886-7272, or

Name: Floyd P. DeWitt (BLM employee) Telephone Number: (208) 886-2206

Address: Same as Item 3 above

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted. I agree to relinquish any undeveloped portion of the permit to the State of Idaho. Three photos, and Attachments A & B are proof of

Beneficial Use.

Signature of permit holder: [Signature] Field Manager Date: 09/18/2000

Permit to Appropriate Water

NO. 37-08938

Priority: 09/20/2000

Maximum Diversion Rate: 0.02 CFS

This is to certify, that US DEPT OF INTERIOR
BUREAU OF LAND MANAGEMENT
400 W F ST
PO BOX 2B
SHOSHONE ID 83352

has applied for a permit to appropriate water from:

Source: SPRING

Tributary: SINKS

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
STOCKWATER	01/01 to 12/31	0.02 CFS
WILDLIFE	01/01 to 12/31	0.02 CFS

LOCATION OF POINT(S) OF DIVERSION:

SPRING L4 NW $\frac{1}{4}$ NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 6, Twp 01N, Rge 17E, B.M. BLAINE County

PLACE OF USE: STOCKWATER

Twp Rge Sec	NE				NW				SW				SE				Totals
	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
01N 17E 6						X											
						L4											

PLACE OF USE: WILDLIFE, same as Stockwater

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before March 01, 2002.
2. Subject to all prior water rights.
3. This right, when considered with all other rights common to the same grazing allotment, is limited to the quantity of water beneficially used by the number of stock within the allotment.
4. Stockwater use is for 430 range cattle and 4,000 sheep.
5. The source is known locally as Parrot Spring.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 20th day of March, 2001.

PARROT SPRING			

INSTRUCTIONS - Cooperator(s) to receive original, and one copy each to the District case or lease file and District job file.

1. I, (We) Faulkner Land & Livestock of Gooding, Idaho ,
of ,
of ,
and of ,

hereinafter called cooperator(s) and the United States of America, by the Bureau of Land Management, hereinafter called the Bureau, for and in consideration of the mutual benefits hereunder, and in accordance with the Taylor Grazing Act (43 U.S.C. 315, 315a-r), as amended, the National Soil Conservation Act (16 U.S.C. 590a-q(1)), as amended, the Federal Land Policy and Management Act (43 U.S.C. 1701, et. seq.), and the Public Rangelands Improvement Act (43 U.S.C. 1904) do enter into this cooperative agreement for the construction and/or maintenance of range improvements, installation of conservation works or establishment of conservation practices, hereinafter referred to collectively as improvements, for the benefit of the public lands and of the cooperator(s).

2. The improvements known as the Parrot Spring

☒ will be ☐ are located upon: NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec(s). 6 , T. 1 N. , R. 17 E. ,
Boise Meridian, County of Blaine , State of Idaho .

3. IT IS MUTUALLY AGREED:

(a) The parties hereto will furnish labor, materials, and equipment as required, the total cost or value not to exceed the amount listed below for each of the parties respectively for the initial construction and/or installation of the improvements indicated in paragraph 2.

NAME(s) OF COOPERATOR(s)	ITEMS	TOTAL COST OR VALUE
		\$
BUREAU OF LAND MANAGEMENT	Material & Labor	2,650.00
	AGGREGATE COST	\$ 2,650.00

Attachment B: Parrot Spring

(b) Upon notice from the authorized officer of the Bureau, cooperator(s) will promptly supply labor, materials, and equipment as specified in paragraph 3(a) as required. Contributed materials in excess of the amount required shall be returned to the contributor. Equipment contributed shall be returned promptly following completion of the work. Work will be conducted under the supervision and direction of the authorized officer and shall be pursued with diligence until completed.

4(a) The cooperator(s) shall be liable, jointly and severally, for the repair and maintenance of the improvements following completion, in good and serviceable condition. The cooperator(s), without further notice from the authorized officer shall do the necessary work promptly. If work is not performed as necessary, the authorized officer shall notify the cooperator(s) and specify a period within which to complete the work as required.

(b) In event the cooperator(s) default in the repair and maintenance of the improvements the authorized officer may do or cause such work to be done for and in behalf of the cooperator(s); and the necessary cost and expense thereof shall become a charge and obligation upon and shall be paid by the cooperator(s). It is further understood in case of default that any grazing permit or lease may be cancelled and may not be renewed or extended or any assignment thereof may not be approved unless and until all charges and costs owed by the cooperator(s) hereunder shall have been paid; and provided that the Bureau may pursue such other remedies, legal or administrative, as may be authorized.

(c) Repair and maintenance, as herein required, shall mean normal upkeep and maintenance necessary to preserve, protect, and prolong the useful life of the improvements, but shall not include major repairs where the damage is due to floods, earthquakes, or other acts of God, or fire not the result of fault or negligence of the cooperator(s) as determined by the authorized officer.

5. IT IS FURTHER AGREED:

(a) This agreement does not convey right, title, or interest in any lands or resources held by the United States.

(b) Title to nonstructural or nonremovable improvements authorized by this agreement shall be in the United States of America.

(c) Title to structural or removable improvements authorized by this agreement shall be shared by the United States and the cooperator(s) in proportion to the actual amount of their respective contribution to the initial construction of said improvements. The improvements may be removed, in whole or in part, during the term of this agreement or any extension thereof, by mutu-

al consent of the parties or by direction of the authorized officer; such removal shall be made by the cooperator(s), or by the Bureau at its option. During the course of salvaging material, the United States assumes no responsibility for the protection or preservation of said material. Upon removal of the improvements, any salvageable materials, after deducting an amount to compensate for the actual cost of removal, shall be available for distribution to the parties then subject to this agreement in proportion to the actual amount of their respective contributions to the initial construction of the improvements. The parties shall take possession and remove their portion of the salvaged materials within one hundred and eighty (180) days after first notification in writing that such material is available; upon failure to do so within the time allowed, the materials shall be deemed to have been abandoned and title thereto shall thereupon vest in the United States.

(d) In the event lands containing improvements described under (a) or (b) above are devoted to another public purpose which precludes grazing, including disposal, the cooperator(s) shall be entitled to compensation for the adjusted value of the cooperator's contribution to the improvements.

6. If the cooperator(s) shall assign or transfer any grazing permit or lease embracing the lands upon which the improvements are constructed or in connection with which they are used, the cooperator(s) shall include in such assignment or transfer his interest in this Cooperative Agreement. Before the assignee or transferee will be recognized as successor to the cooperator(s)'s interest hereunder, such assignee or transferee will be required by the authorized officer to accept an assignment of this agreement and agree to be bound by the provisions respecting the use and maintenance of the improvements.

7. The cooperator(s) use of the improvements will be in conformance with any special conditions, the grazing permit(s) or lease(s), and regulations of the Secretary of the Interior.

8. This agreement shall not accord to cooperator(s) any preference, privilege, or consideration with respect to any grazing permit or lease not expressly provided herein or in the rules and regulations governing such grazing permit or lease.

9. Items 2, 3, and 4(a) of this agreement may be modified or cancelled by written agreement of the parties which agreement shall become a part hereof.

PROOF ACKNOWLEDGMENT LETTER

**RE: PERMIT NOS. 37-08918 through 37-08921, 37-08923, 37-08924,
37-08926, and 37-08928 through 37-08943**

Dear Permit Holder:

The department acknowledges receipt of the proofs of beneficial use forms submitted for the above referenced permits. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **Southern** Regional Office of the department in Twin Falls at (208) 736-3033.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau

RE: Permit No. 37-8938

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed a least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED
APR 11 2001

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Applications for Permit No. 37-08918 Through 37-08943 in the name of BLM (Camas, Elmore, Gooding and Blaine Counties)

Dear Sharla:

I am writing this letter as an update to our original request that fish passage be provided for all of the dams and diversions that the BLM has applied water rights for. We are revising our original request as a result of our staff's inspections of the photographs and descriptions provided by the BLM in their applications. Based on the inspections we do not believe that it is necessary for the BLM to modify the existing structures referenced to in the following application numbers:

#37-08918 through #37-08921
#37-08923 through #37-08924
#37-08926
#37-08928 through #37-08943

We therefore have no problem with the issuance of water right permits to the BLM for the above listed applications. We do request withholding water right permits for the following dams referenced by the application number until further investigation is done to determine if fish passage is needed:

#37-08922
#37-08925
#37-08927

Please contact Chuck Warren, the Regional Environmental Staff Biologist, in this office if you have any questions. Thank you for your assistance in this matter.

Sincerely,

David Parrish
Magic Valley Regional Supervisor

MEMORANDUM

To: Files 37-08918 through 37-08943

From: Sharla

Date: March 5, 2001

Re: Watermaster Conditions, F&G Concerns and Water Uses

In January, David Parrish of Fish & Game sent a letter to Allen Merritt after reviewing the above referenced application for permit filings. In his letter, Mr. Parrish requested that we condition the permits to require fish passage facilities if the diversions cause a water surface elevation difference of 12" or more and that plans for ladders or other structures be approved by F&G prior to construction.

Watermaster comments were also sought by regional personnel and the watermaster recommended conditions placing all the filings under control of the watermaster and that any interference with irrigation rights to be immediately corrected by BLM.

The entire batch of filings represent excavated pit-style reservoirs that are already in existence which catch spring run-off or are springbox constructions that feed stock troughs. They are not "on-stream" reservoirs that could possibly be related to fish passage issues. With the exception of nine (9) of the filings, all are tributary to "sinks"; of the other nine (9), only three (3) are for sources other than a spring or an unnamed stream. And the remaining six (6) are tributary to named streams/creeks but still represent pit-style reservoirs.

"Fish passage" conditions are not warranted and I have sought concurrence from Fish and Game. Watermaster control conditioning is not appropriate for those filings for springs that sink and have not been placed on those permits. Several files are not even within a water district at all and one is within Water District 37N. Further, these filings represent no possible interference with irrigation rights so special conditioning concerning that matter is not appropriate.

Finally, all of these applications that represent storage of water also listed stock & wildlife FROM storage uses. Water is not diverted to tanks out of the reservoirs; the stock drink directly from the reservoirs, therefore, the "FROM STORAGE" uses have been removed.

FAX: 324-1160

RE: Applications for Permit Nos. 37-08918 Through 37-08943
in the Name of BLM (Camas, Elmore, Gooding & Blaine Counties)

Dear Mr. Parrish:

In January, you sent a letter to Allen Merritt of our Twin Falls office after you reviewed the above referenced application for permit filings. In your letter, you requested that we condition the permits to require fish passage facilities if the diversions cause a water surface elevation difference of 12" or more and that plans for ladders or other structures be approved by your agency prior to construction.

The applications have arrived here at the State Office for final review and approval. I have some information for you to consider and ask that you let me know whether or not you concur with my findings after you've reviewed the matter.

The entire batch of filings represent excavated pit-style reservoirs that are already in existence which catch spring run-off or are springbox constructions that feed stock troughs. They are not "on-stream" reservoirs that could possibly be related to fish passage issues. I am attaching photos from a couple of the applications to give you a sample of what these filings represent. With the exception of nine (9) of the filings, all are tributary to "sinks"; of the other nine (9), only three (3) are for sources other than a spring or an unnamed stream (photo labeled Found Calf Reservoir is one example). The remaining six (6) are tributary to named streams/creeks but still represent pit-style reservoirs (see photo labeled Upper Bench Reservoir for example).

If this information is sufficient for you to determine that "fish passage" conditions are not warranted, I would appreciate an e-mail or fax noting your agreement with my proposal. I can then send the files forward for permit approval. If you still feel such conditions are necessary or you want to have copies sent to you of the photos for each reservoir, let me know and we will do our best to accommodate your needs. I look forward to hearing from you.

Sincerely,

Sharla Curtis
Sr. Water Resource Agent

Comments were sought from F&G and the watermaster of District 37. The F&G requested that on perennial streams if the diversions create a fish barrier (elevation difference of 12" or greater) that a fish ladder be required and plans of ladder be reviewed and approved by F&G. The watermaster commented that these permits be under his control and that they not interfere with prior irrigation

MICROFILMED

APR 11 2001

rights.

My review of these filings finds that most if not all are on streams that sink and are ephemeral in nature.

The applications were processed without protest.

Recommendation

I recommend that these applications be approved subject to the following conditions:

- Under control of watermaster of district 37.
- Any reservoir or diversion on a perennial stream must not create a fish barrier. Such structures and diversion works must be reviewed and approved by F&G.

RECOMMENDATION OF WATERMASTER

I, Lee R. Peterson, watermaster of Big Wood, Little Wood, Malad Rivers & Camas & Silver Creek, of Water District No 37 & 37M, County of Blaine, Lincoln, Camas & Gooding, whose address is P O Box T, Shoshone, Idaho 83352, have read the attached copy of the application for permit in the name of U.S.D.I. BLM, and to the best of my knowledge believe the application to be true.

A. I hereby endorse the above numbered Application for Permit and recommend that the director of the Department of Water Resources approve the application subject to the following conditions: I approve of the above numbered applications for permits with recommendations: They be regulated by the Watermaster of Districts 37 & 37M. If they should in any way interfere with irrigation water rights the problem will be corrected immediately by the Bureau.

OR

I do not endorse approval of the above numbered Application for Permit as requested for the following reasons: _____

Dated at Shoshone, Idaho, this 3rd, day of January, 2001

**RE: Water Right Applications for Bureau of Land Management - Camas, Elmore,
Gooding, and Blaine Counties**

Dear Allen,

We have reviewed the above referenced applications from the BLM to divert and store water for wildlife and stockwater in parts of the above listed counties. Please consider the following issue in approving the applications:

On perennial streams, we would request that the permits be conditioned to require fish passage facilities if the diversions cause a water surface elevational difference of 12" or greater. We request that plans for ladders or other structures be approved by our agency prior to construction.

Thank you for the opportunity to review and comment on this proposed diversion.

Sincerely,

David Parrish
Magic Valley Regional Supervisor

Re: Applications for Permit –USDI (BLM)

Dear Mr. Peterson:

Enclosed are copies of Applications for Permit within your District.

We also have enclosed a Watermaster's Recommendation Form for your comment and/or recommendation.

Regional review of an unprotested application can be completed as soon as the final protest period is past; therefore, your prompt response to this request is appreciated.

If you have any questions about an application, please contact this office or the applicant.

Very truly yours,

Mary A. Baldwin
Administrative Assistant
