NOTICE OF APPLICATIONS FOR WATER PERMIT

The following applications have been filed to appropriate the public waters of the State of Idaho:

INDIAN CREEK RANCHES OWNERS ASSN. INC.
C/O DENNIS KAVANAGH
PO BOX 3411
HAILEY ID 83333

Source: Indian Creek tributary to Big Wood River
Use: 1/1-12/31
Date Filed: 5/4/98

Application for Permit No. 37-08872

Diversion Pt(s): SW1/4NW1/4, S27, T03N, R18E; Blaine County.

Storage for Wildlife (3.5 afa)

In: SW1/4NW1/4, S27, T03N, R18E; Blaine County.

Application for Permit No. 37-08873

Diversion Pt(s): NE1/4SE1/4, S22; & NW1/4SW1/4, S23; all T03N, R18E; Blaine County.

Storage for Wildlife (1.9 afa)

In: NE1/4SE1/4, S22; NW1/4SW1/4, S23; all T03N, R18E; Blaine County.

Any protest against the proposed application(s) must be filed with the Department of Water Resources, Southern Region, 1341 Fillmore St., Suite 200; Twin Falls, ID 83301 together with a protest fee of \$25.00 on or before June 8, 1998 to be considered by the Department in its decision to grant or deny any part of the proposed application(s). The protestant must also send a copy of the protest to the applicant.

Karl J. Dreher, Director

IN THE MATTER OF CHANGING THE)
MEASURING DEVICE CONDITION OF)
APPROVAL FOR PERMIT NO. 37-08872)
IN THE NAME OF INDIAN CREEK)
RANCHES OWNERS ASSN., INC.)
_____)

ORDER

WHEREAS, the Department of Water Resources (department) has issued the above captioned water right permit with a condition of approval requiring the permit holder to install/maintain permanent measuring devices on a storage reservoir; and

WHEREAS, the department received written notice on October 16, 2000, from the Watermaster for Water District 37 that after his examination of the storage ponds advised the department there was no need for control structures and measuring devices. Therefore, the department has determined that the measuring devices are not presently needed to measure the water in question; and

IT IS THEREFORE HEREBY ORDERED that the condition of approval requiring the installation of measuring devices for the above captioned permit is **WAIVED**. The department retains jurisdiction to reinstate the condition in the future upon a finding of need by the department.

Dated this 19th of October, 2000.

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner.

1. Permit No. 37-08872 Telephone No. 208-788-0071
2. Name of Permit Holder(s): INDIAN CREEK RANCHES OWNERS ASSN, INC.
3. Mailing Address: P.O. Box 3411
City Hailey State Id. Zip 83333
4. Source of Water: INDIAN CREEK If GROUNDWATER (well), Date Drilled: mo. ____ / yr. ____
a. Well Driller: _____ Drilling Permit Number: _____
5. Use(s) (as authorized by the water right permit):
Domestic (No. of households): _____ Stockwater (No. and type of stock): _____
Irrigation (No. of acres): _____ Other: WILD LIFE / STORAGE
6. Total rate of diversion and/or volume for which proof is submitted: 4 cfs OR 3.5 acre feet
7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)
Measuring Device: Is a measuring device required? Yes _____ or No ✓
Has the measuring device been installed? Yes _____ or No _____
8. Fee Enclosed: \$ 50.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)
9. Person to contact to accompany the Department representative during field examination of the water system.
Name: DENNIS KAVANAGH Telephone Number: 208-726-2599
Address: P.O. Box 5556 Ketchum, Id. 83340
10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted. I agree to relinquish any undeveloped portion of the permit to the State of Idaho.
Signature of permit holder: Dennis Kavanagh Pres. Date: 7-12-00

BLAINE County

PLACE OF USE: WILDLIFE STORAGE

TWN RGE SEC

03N 18E 27

SWNW

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 2000.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Use of water under this water right will be regulated by the watermaster of State Water District No. 37.
5. The right holder shall install/maintain permanent measuring devices in such a manner that the amount of water entering the reservoir and the amount of water released from the reservoir can be measured.
6. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary for this purpose will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
7. Water shall not be diverted under this right when flows in the Big Wood River are below established minimum stream flows.

E. NARRTIVE/REMARKS/COMMENTS

PERMIT: 37-8872
FROM: Amanda Folsom
DATE: July 30, 2001

I met with Dennis Kavanagh on June 12, 2001. Dennis is a co-owner of the water right for Indian Creek Ranches Owners Association Inc. This water permit is for the use of an in stream pond constructed by the Indian Creek Ranches for the use of wildlife storage.

POINT OF DIVERSION

The pond was constructed in Sec 27, Twp 03N, Rge 18E. The pond is 191' by 115' by 6.5'. The total volume for the pond is 3.3af. The pond is in stream to Indian Creek, and flows year round.

PLACE OF USE

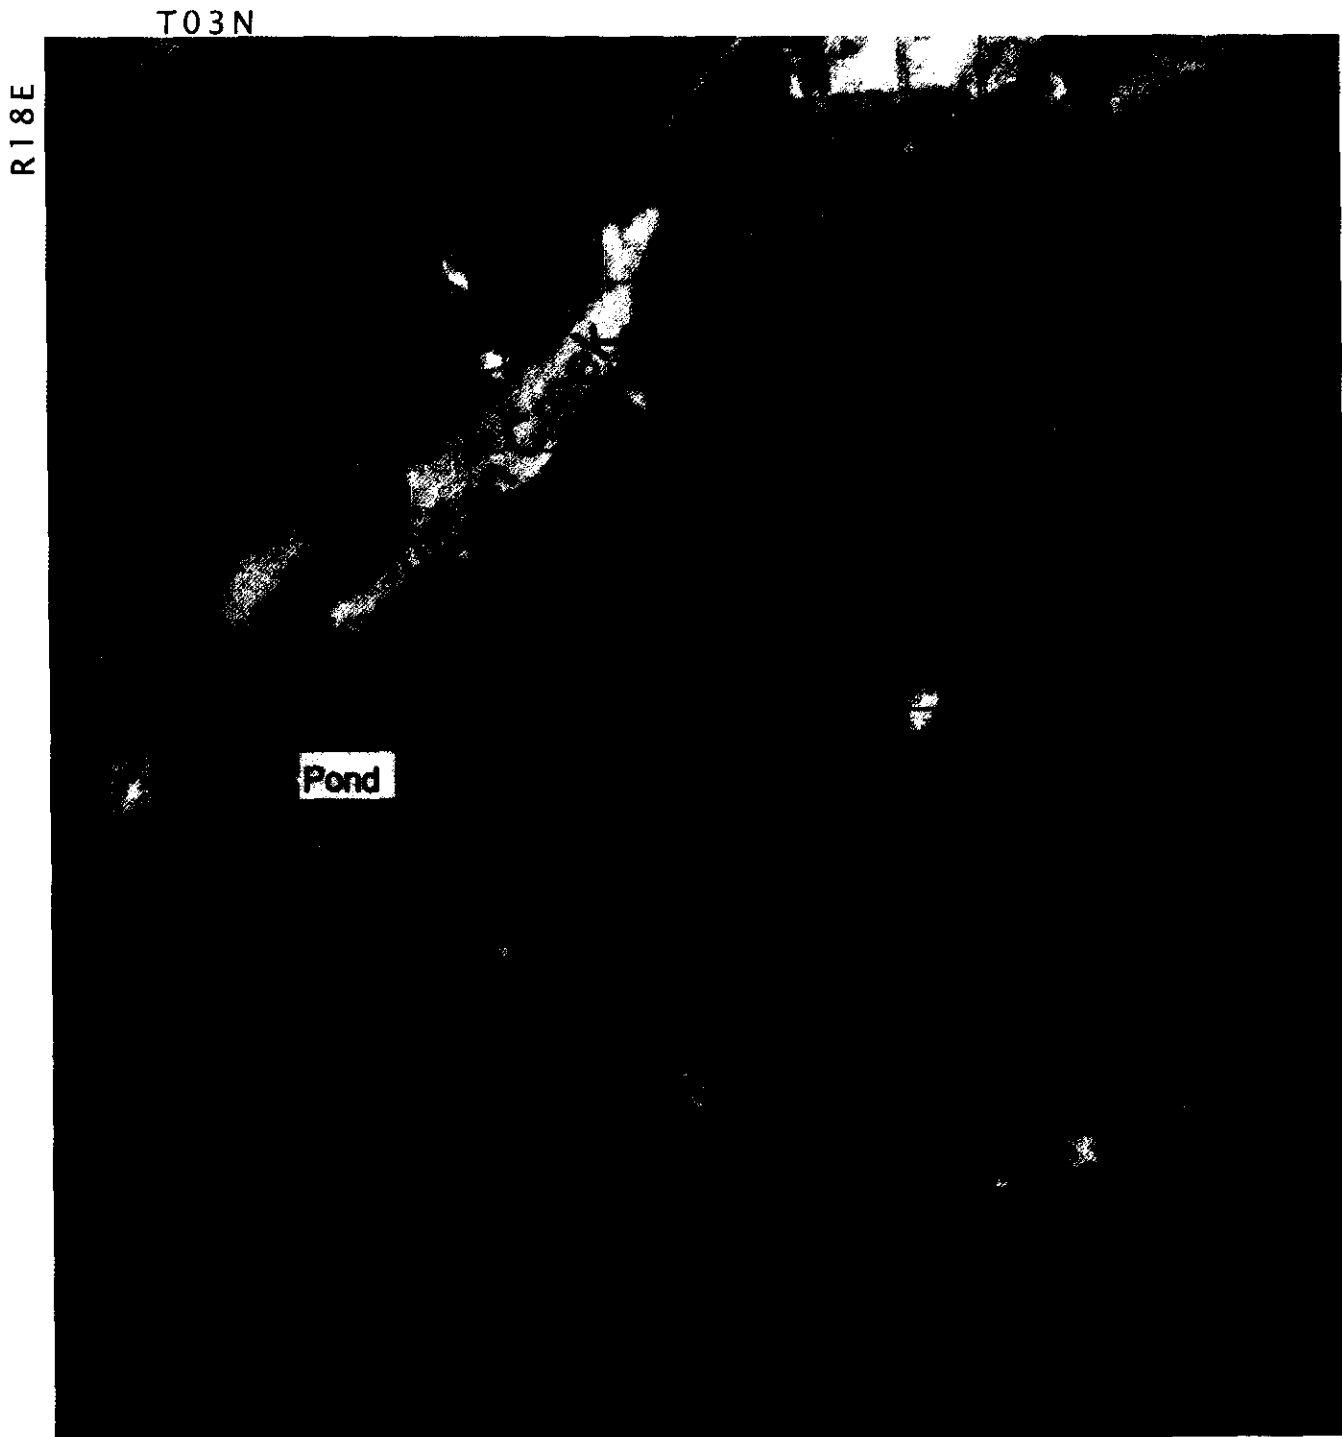

The use from this pond is for wildlife storage year round.

I am recommending the 3.3af that was calculated from my exam and the diagram that was submitted from Indian Creek Ranches.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 37-08872

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order reinstating the permit and advancing the priority since proof was submitted after the proof due date.

The proof you submitted shows that you have not installed measuring devices which are required by Condition of Approval No. 5 of your permit. In order to maintain your permit in good standing, these devices must be installed and in place at the time the department conducts a field examination of your water use. As an alternative to the installation, if the watermaster of Water District 37, advises the department in writing that he does not need the devices to administer your water right, the department will waive the requirement for installation of the devices.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If

37-08872

11-

Page 2

you have questions concerning the field examination, please contact the **Southern** Regional Office of the department in Twin Falls at (208) 736-3033.

Sincerely,

A handwritten signature in cursive script that reads "Deborah Gibson".

OF THE
STATE OF IDAHO

IN THE MATTER OF CHANGING THE)
MEASURING DEVICE CONDITION OF)
APPROVAL FOR PERMIT NO. 37-08872)
IN THE NAME OF INDIAN CREEK)
RANCHES OWNERS ASSN., INC.)
_____)

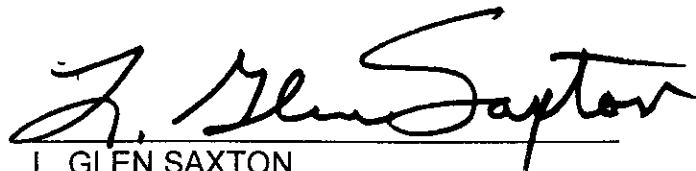

ORDER

WHEREAS, the Department of Water Resources (department) has issued the above captioned water right permit with a condition of approval requiring the permit holder to install/maintain permanent measuring devices on a storage reservoir; and

WHEREAS, the department received written notice on October 16, 2000, from the Watermaster for Water District 37 that after his examination of the storage ponds advised the department there was no need for control structures and measuring devices. Therefore, the department has determined that the measuring devices are not presently needed to measure the water in question; and

IT IS THEREFORE HEREBY ORDERED that the condition of approval requiring the installation of measuring devices for the above captioned permit is **WAIVED**. The department retains jurisdiction to reinstate the condition in the future upon a finding of need by the department.

Dated this 19th of October, 2000.

Permit To Appropriate Water

NO. 37-08872

Proposed Priority: May 4, 1998

Maximum Storage Volume: 3.5 AF

This is to certify, that **INDIAN CREEK RANCHES OWNERS ASSN INC**

C/O DENNIS KAVANAGH

PO BOX 3411

HAILEY ID 83333-3411

has applied for a permit to appropriate water from:

INDIAN CREEK

tributary of **BIG WOOD RIVER**

and a permit is **APPROVED** for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
WILDLIFE STORAGE	01/01 to 12/31		3.5 AF

LOCATION OF POINT(S) OF DIVERSION:

SWNW , Sec. 27, Township 03N, Range 18E
BLAINE County

PLACE OF USE: WILDLIFE STORAGE

TWN RGE SEC

03N 18E 27

SWNW

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 2000.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Use of water under this water right will be regulated by the watermaster of State Water District No. 37.
5. The right holder shall install/maintain permanent measuring devices in such a manner that the amount of water entering the reservoir and the amount of water released from the reservoir can be measured.
6. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary for this purpose will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
7. Water shall not be diverted under this right when flows in the Big Wood River are below established minimum stream flows.

TO: Application No. 37-08872 & 37-08873

In the Name of: Indian Creek Ranches Owners Assn Inc

SUBJECT: Review and Recommendation

These two applications propose to develop two small ponds (1 each) on Indian Creek. These applications are intended to cover ponds that were not timely constructed under permit 37-08721.

I recommend that the applications be approved subject to the following conditions:

- The ponds are non-consumptive.
- Under control of watermaster district 37.
- If it is determined that significant losses occur through the ponds the losses will need to be mitigated.

FROM: Jim Stanton

SUBJECT: Indian Creek ^{Apps.} ~~Transfers~~

These applications have been advertised without protest, and are on Allen's desk for final regional review before being sent to Boise for final action. Due to other commitments, Allen will not be able to review the apps. until at least next week.

FAXED this date

RECOMMENDATION FROM STREAM CHANNEL PROTECTION SPECIALIST

APPLICATIONS FOR PERMIT NOS. 37-08872 & 08873

I, TERRY G. BLAU, Stream Channel Protection Specialist for the State of Idaho, Idaho Department of Water Resources, 1341 Fillmore St., Twin Falls, Idaho have read the attached copy of the applications for permit in the name of Indian Creek Ranches Owners Assn. .

I recommend the following conditions:

[1] It is recommended that a 3 to 5 foot riparian buffer zone of strong rooted perennial plants be maintained between the stream channel and/or edge of pond and any mowed or maintained lawn or garden area. It is also recommended that a dead tree or portion thereof be incorporated into the pond to provide fish habitat and provide for natural aesthetics.

[2] All construction activities shall be conducted in such a manner so as to minimize turbidity and sediment movement and to comply with Idaho water quality standards. No excavation or fill is authorized in water flowing from the site. Stream flow must be isolated from the construction.

[3] Stream bank vegetation shall be protected to the extent practical during construction. Disturbed areas shall be revegetated and/or seeded with perennial vegetation as prescribed or approved by the local office of the Natural Resource Conservation Service to reduce erosion and the invasion of noxious weeds. Trees and shrubs shall be planted as soon as possible after construction in a manner that will provide maximum shading of the pond.

[4] The ponds shall not cause violations of the water quality standards for temperature. The owner shall be responsible for the monitoring of water temperature, above the diversion and below the point of return, at least weekly from June 15 to October 15 each year. Any violations of the temperature standards shall be reported to the Department of Health and Welfare Division of Environmental Quality and appropriate action shall be taken to comply with the temperature standard.

[5] All temporary structures, excavated material or construction debris resulting from the construction shall be disposed of out of the stream channel where it cannot reenter the channel at high

May 28, 1998

flows. All debris shall be removed from the site and disposed of properly.

[6] No material shall be placed that will increase the height of the bank and have the affect of separating the stream from its flood plain.

[7] No structure in the stream channel shall constitute a migration barrier to fish indigenous to this stream.

[8] All pond and new channel work shall be constructed in the dry.

[9] Streamflow shall be routed through ponds in such a way as to provide adequate water circulation.

[10] Spoil piles shall be removed or blended into natural contours and revegetated.

[11] Ponds shall be irregularly shaped and designed to fit into the natural topography.

Dated at Twin Falls, Idaho, May 28, 1998.

SUBJECT: Apps. for Permit On Indian Creek Filed 5-4-98

I worked on Indian Creek within the last couple of years in relation to a transfer. Steve Clelland had previously determined the historic usage there, as they are in the SRBA test-basin area. The subdivision occupies the whole Indian Creek Draw, and controls all the rights on the stream except for what Hailey takes out above the subdivision. The proposed upper ponds will be near the Hailey p/d, so we should send a copy of this app. to them. Terry Blau told me that the county p & z wants the ponds to be unlined to aid in groundwater recharge, but there could be a water-quality concern by Hailey that would require the upper ponds to be lined. The lower ponds could be lined or unlined with little effect on other users. Both apps. represent deminimus uses, and should be approved unless conflicting data is received.

Dear Mr. Stanton,

Bruce Linn has been assisting the Indian Creek homeowners with some projects intending to enhance our stream and water course.

Due to some confusion on my part, the applications for our water permit were filed and not marked.

We would greatly appreciate any help you might be able to give us as far as expediting the permit process. Our goal was to try and construct the ponds and go through our reseeding this spring, to encourage revegetation during the wet months, and hopefully limit the amount of weed infiltration that comes later in the year.

I will call you early next week to discuss this and will look forward to talking to you then.

Best Regards

Dennis Kavanagh

Deborah,

In regards to your letter of August 10, 2000, permit No. 37-08872, recommending a statement from the Watermaster for condition of Approval No. 5, of the permit.

On September 28, 2000, I went up Indian Creek and examined both ponds referred to in the permit, the ponds are used for aesthetic, wildlife, and fire protection. I also observed that these ponds could be very significant in reducing the erosion of the channel, during spring runoff.

I do not see a need for control structures and measuring devices on these ponds at this time. In the future if they are used as irrigation ponds, then it would be easy to install these fixtures on both ponds.

If I can be of further assistance do feel free to call.

Sincerely,

Lee R. Peterson

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 37-08872

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order reinstating the permit and advancing the priority since proof was submitted after the proof due date.

The proof you submitted shows that you have not installed measuring devices which are required by Condition of Approval No. 5 of your permit. In order to maintain your permit in good standing, these devices must be installed and in place at the time the department conducts a field examination of your water use. As an alternative to the installation, if the watermaster of Water District 37, advises the department in writing that he does not need the devices to administer your water right, the department will waive the requirement for installation of the devices.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If

LAPSE NOTICE

RE: PERMIT NO. 37-08872

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated April 30, 2000. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 37-08872

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 2000.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

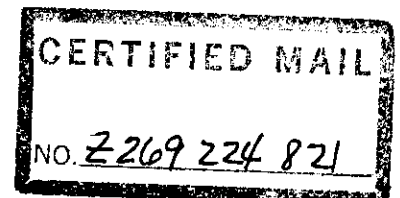

SINCERELY,

PERMIT APPROVAL NOTICE

RE: PERMITS 37-08872/3708873

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permits authorizing you to establish new water rights. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permits are preliminary orders issued by IDWR pursuant to section 67-5243, Idaho Code. They can and will become final orders without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

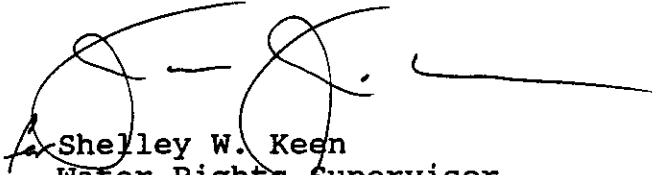

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

AUG 03 1998

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

FROM: Allen Merritt

DATE: July 1, 1998

TO: Application No. 37-08872 & 37-08873

In the Name of: Indian Creek Ranches Owners Assn Inc

SUBJECT: Review and Recommendation

These two applications propose to develop two small ponds (1 each) on Indian Creek. These applications are intended to cover ponds that were not timely constructed under permit 37-08721.

I recommend that the applications be approved subject to the following conditions:

- The ponds are non-consumptive.
- Under control of watermaster district 37.
- If it is determined that significant losses occur through the ponds the losses will need to be mitigated.

AUG 03 1998

RECOMMENDATION FROM STREAM CHANNEL PROTECTION SPECIALIST

APPLICATIONS FOR PERMIT NOS. 37-08872 & 08873

I, TERRY G. BLAU, Stream Channel Protection Specialist for the State of Idaho, Idaho Department of Water Resources, 1341 Fillmore St., Twin Falls, Idaho have read the attached copy of the applications for permit in the name of Indian Creek Ranches Owners Assn. .

I recommend the following conditions:

[1] It is recommended that a 3 to 5 foot riparian buffer zone of strong rooted perennial plants be maintained between the stream channel and/or edge of pond and any mowed or maintained lawn or garden area. It is also recommended that a dead tree or portion thereof be incorporated into the pond to provide fish habitat and provide for natural aesthetics.

[2] All construction activities shall be conducted in such a manner so as to minimize turbidity and sediment movement and to comply with Idaho water quality standards. No excavation or fill is authorized in water flowing from the site. Stream flow must be isolated from the construction.

[3] Stream bank vegetation shall be protected to the extent practical during construction. Disturbed areas shall be revegetated and/or seeded with perennial vegetation as prescribed or approved by the local office of the Natural Resource Conservation Service to reduce erosion and the invasion of noxious weeds. Trees and shrubs shall be planted as soon as possible after construction in a manner that will provide maximum shading of the pond.

[4] The ponds shall not cause violations of the water quality standards for temperature. The owner shall be responsible for the monitoring of water temperature, above the diversion and below the point of return, at least weekly from June 15 to October 15 each year. Any violations of the temperature standards shall be reported to the Department of Health and Welfare Division of Environmental Quality and appropriate action shall be taken to comply with the temperature standard.

[5] All temporary structures, excavated material or construction debris resulting from the construction shall be disposed of out of the stream channel where it cannot reenter the channel at high

May 28, 1998

flows. All debris shall be removed from the site and disposed of properly.

[6] No material shall be placed that will increase the height of the bank and have the affect of separating the stream from its flood plain.

[7] No structure in the stream channel shall constitute a migration barrier to fish indigenous to this stream.

[8] All pond and new channel work shall be constructed in the dry.

[9] Streamflow shall be routed through ponds in such a way as to provide adequate water circulation.

[10] Spoil piles shall be removed or blended into natural contours and revegetated.

[11] Ponds shall be irregularly shaped and designed to fit into the natural topography.

Dated at Twin Falls, Idaho, May 28, 1998.

Re: Applications for Permit No. 37-08872 & No. 37-08873

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right applications for permit. The applications have been assigned the above referenced identification numbers. Please refer to these numbers in all further correspondence.

This office has scheduled advertising the applications in the Wood River Journal for 05/20 & 05/27/98. A period of ten days following the second publication will be allowed for the submittal of protests.

If an application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If an application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of an application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent

AUG 03 1998

TO: File

DATE: May 5, 1998

FROM: Jim Stanton

SUBJECT: Apps. for Permit On Indian Creek Filed 5-4-98

I worked on Indian Creek within the last couple of years in relation to a transfer. Steve Clelland had previously determined the historic usage there, as they are in the SRBA test-basin area. The subdivision occupies the whole Indian Creek Draw, and controls all the rights on the stream except for what Hailey takes out above the subdivision. The proposed upper ponds will be near the Hailey p/d, so we should send a copy of this app. to them. Terry Blau told me that the county p & z wants the ponds to be unlined to aid in groundwater recharge, but there could be a water-quality concern by Hailey that would require the upper ponds to be lined. The lower ponds could be lined or unlined with little effect on other users. Both apps. represent de minimis uses, and should be approved unless conflicting data is received.

Department of Water Resources
Southern Region

Dear Mr. Stanton,

Bruce Linn has been assisting the Indian Creek homeowners with some projects intending to enhance our stream and water course.

Due to some confusion on my part, the applications for our water permit were filed and not marked.

We would greatly appreciate any help you might be able to give us as far as expediting the permit process. Our goal was to try and construct the ponds and go through our reseeding this spring, to encourage revegetation during the wet months, and hopefully limit the amount of weed infiltration that comes later in the year.

I will call you early next week to discuss this and will look forward to talking to you then.

Best Regards

Dennis Kavanagh
