RE: ASSIGNMENT OF PERMIT 37-08830

Dear Ms. Haugh:

We acknowledge receipt of the correspondence changing ownership of the above referenced water right to you. We have modified our computer records to reflect this change in ownership. A computer generated report is enclosed for your information.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address **PRIOR** TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

If you have any questions regarding this matter, please feel free to contact us.

This form is to be used to document public record information requests regarding any SRBA claim or other water right. The form may also be used to document IDWR communications requesting information regarding any SRBA claim or claims when the request is not made in writing or the claim verification report is not readily available to document the request.

IDWR Employee/Agent Allen Merritt Date September 30, 1994

Contact person(s) Lee Peterson (Watermaster Dist 37)

Nature of Contact I requested his comments regarding application.

Substance of Communication:

This day I phoned Lee and discussed with him the applic by Bloomfield. I described the application to Lee and we talked about the Comstock Ditch. Lee indicated that there are several users on the ditch which include users for irrigation as well as other aesthetic right holders. He indicated that most users on the ditch with ponds have sealed the ponds but he requested that measuring devices be required on the inlet and outlet from the ponds so that the loss can be monitored. He had no other comment and had no problem with approval of the application. He indicated that the Comstock Ditch diverts water from the Big Wood River as well as collecting water from Clear Creek. I believe that the Big Wood River should be listed as a source but limit it to the irrigation season. Maybe this could be addressed in the licensing process instead of placing it on the permit.

Re: Application for Permit No. 37-08830

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office has scheduled advertising the application in the Wood River Journal for 9/7 & 9/14/94. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Mel Schulte
Water Right Agent
