Department of Water Resources
Permit To Appropriate Water

NO. 37-08730

Proposed Priority: June 6, 1991 Maximum Diversion Rate: 0.20 CFS
This is to certify, that LIMELIGHT CONDOMINIUMS INC
PO BOX 1312
KETCHUM ID 83340

has applied for a permit to appropriate water from: GROUNDWATER
and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
IRRIGATION	04/01 to 11/01	0.03 CFS
DOMESTIC	01/01 to 12/31	0.20 CFS
RECREATION	06/01 to 09/01	0.04 CFS
	Totals	0.20 CFS

LOCATION OF POINT(S) OF DIVERSION: SWNESE, Sec. 11, Township 04N, Range 17E
BLAINE County

<u>PLACE OF USE:</u>	<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
IRRIGATION	04N	17E	11	NESE	1		1
Total number of acres irrigated:							1

PLACE OF USE: DOMESTIC, same as IRRIGATION use

PLACE OF USE: RECREATION, same as IRRIGATION use

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before February 1, 1993.
2. Subject to all prior water rights.
3. Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
4. The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.03 cubic feet per second for each acre of land.
5. Domestic use is for 38 condominium units.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.

1. Name of applicant Limelight Condominiums, Inc. Phone 208-726-4754
Post office address P.O. Box 1312, Ketchum, Idaho, 83340
2. Source of water supply ground water which is a tributary of N/A
3. Location of point of diversion is SW $\frac{1}{4}$ of NE $\frac{1}{4}$ of SE $\frac{1}{4}$, Govt. Lot _____
Sec. 11 Township T4N Range R17E B.M. BLAINE County; additional
points of diversion if any: 2 wells

4. Water will be used for the following purposes:

Amount 0.20 for Domestic purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)Amount 0.03 for Irrigation purposes from 4/1 to 11/1 (both dates inclusive)
(cfs or acre-feet per annum)Amount 0.50 for Recreation purposes from 6/1 to 9/1 (both dates inclusive)
(cfs or acre-feet per annum)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a)
- 0.20
- and/or (b)
- 0.50
- *
-
- cubic feet per second acre feet per annum

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. 2 wells, pumps (submersible), 2 - 250gal pressure tanks, line to buildings, lawn sprinkled by automatic systemb. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:

_____ to _____ inclusive.

c. Existing are 6" inches; proposed are 4200 feet.
Proposed well diameter is 6" inches; proposed depth of well is 4200 feet.

d. Is ground water with a temperature of greater than 90°F being sought? _____

7. Time required for the completion of the works and application of the water to the proposed beneficial use is
-
- 1
- years (minimum 1 year).

* Edited per appropriation standards

8. Description of proposed uses (if irrigation only, go to item 9):

- Hydropower; show total feet of head and proposed capacity in KW. _____
- Stockwatering; list number and kind of livestock. _____
- Municipal; show name of municipality. _____
- Domestic; show number of households. 38 condominium units
- Other; describe fully. Recreation: 22,000 gallon swimming pool

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

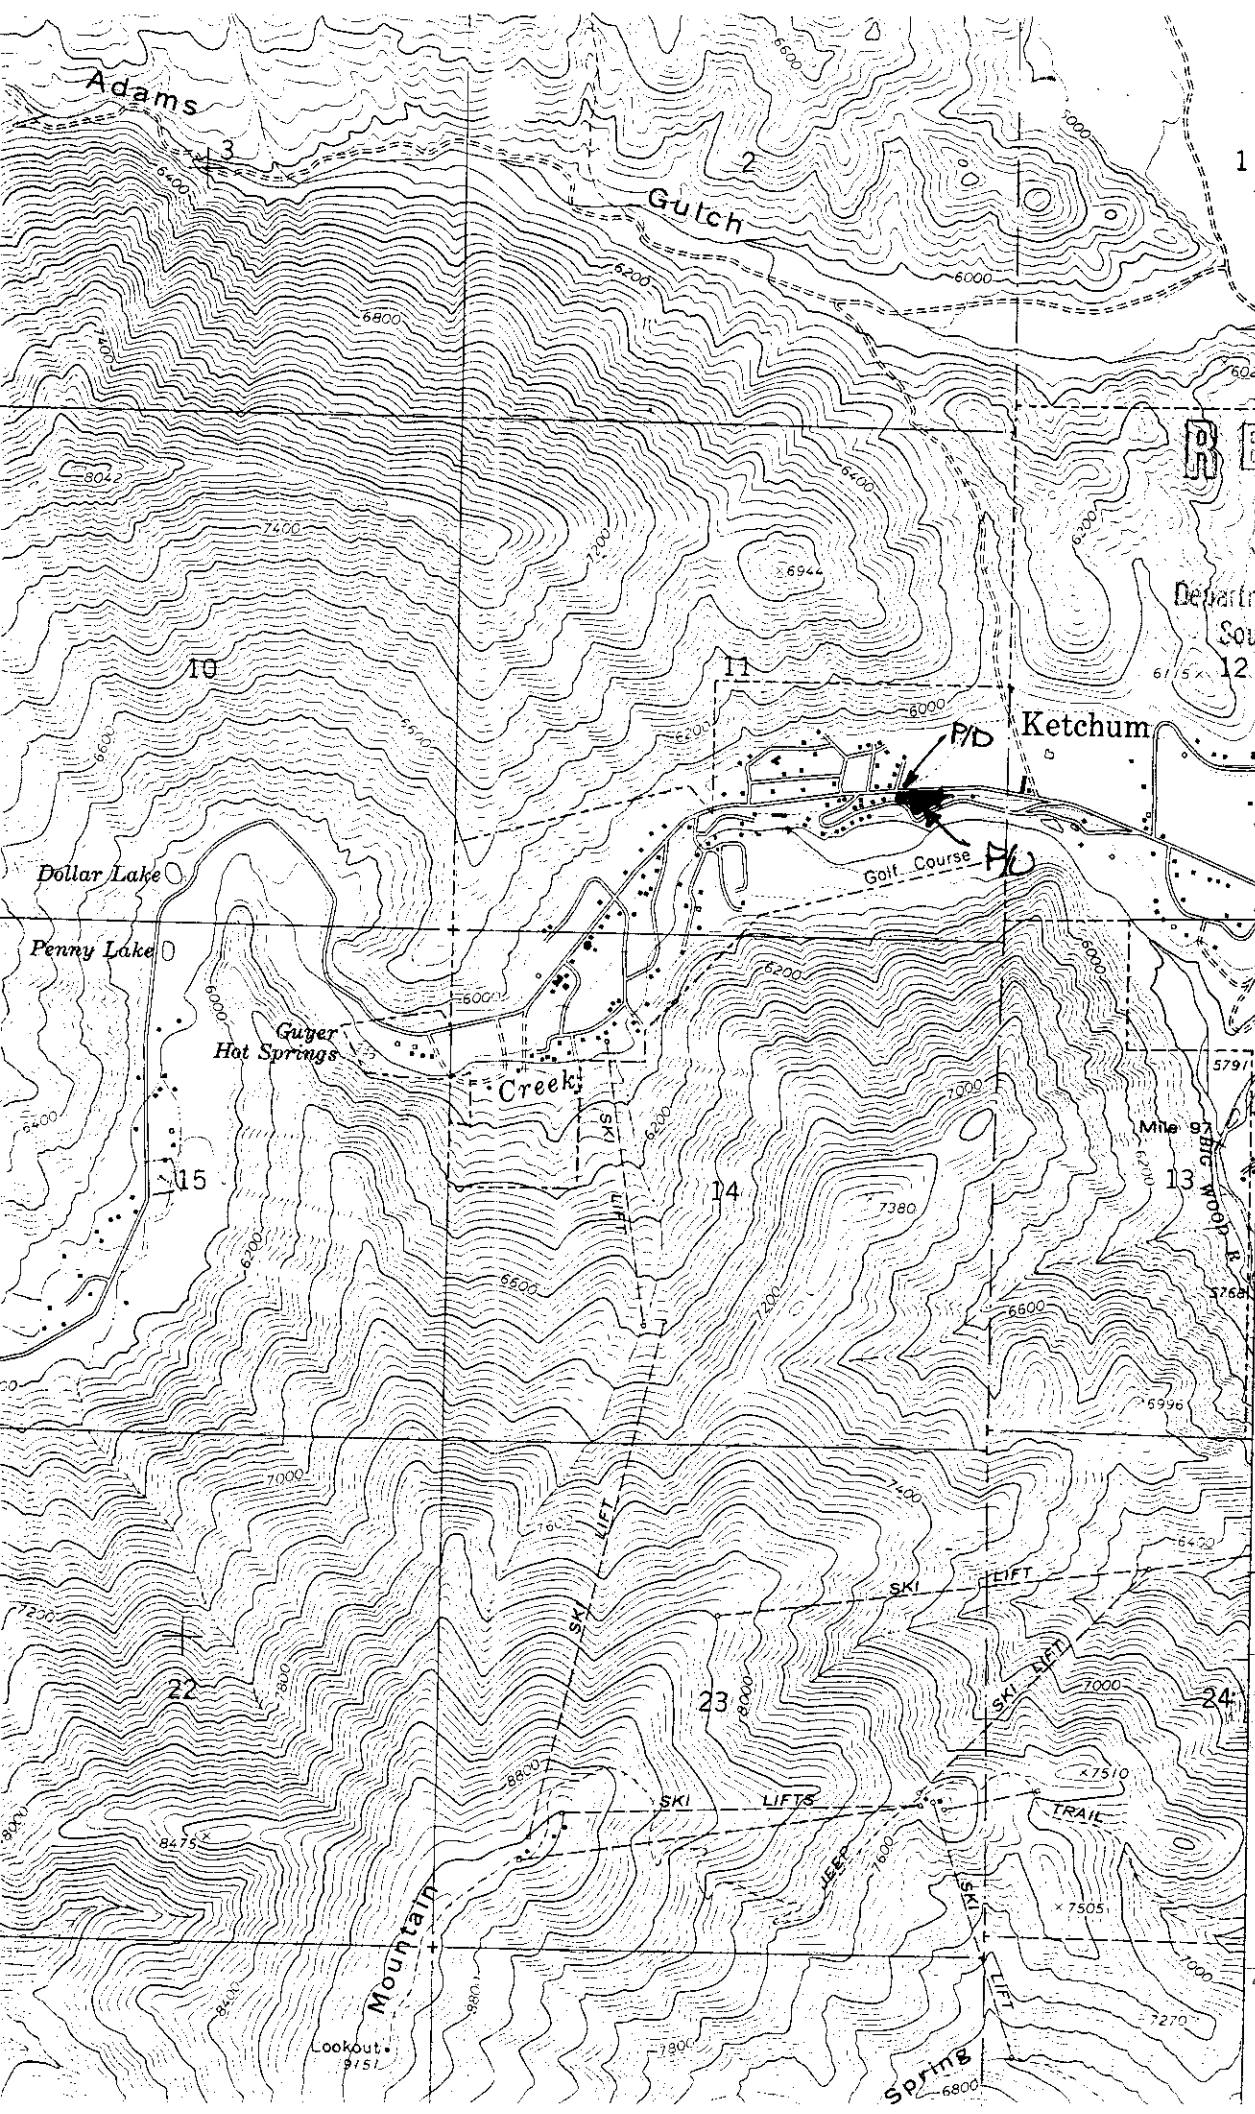

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 37-08730

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)736-3033.

Sincerely,

Karen L. Gustafson

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 37-08730

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

Re: Application 37-8730

Dear Applicant:

You were recently sent a letter from this office notifying you that a showing your application would result in no reduction of surface water flows was required or that you had a plan for mitigation of reduce flows.

Further review of your application reveals that you do not propose a diversion in excess of what will be permitted under the management plan for the Big Wood River Groundwater Management Area.

You may therefore, disregard the previous letter. We will continue to process your application normally.

Sincerely,

Loren O. Holmes, P. E.

Mr. Loren R. Holmes
South Region Manager
State of Idaho Dept. of Water Resources
222 Shoshone Street East
Twin Falls, Idaho 83301

Dear Mr. Holmes:

In response to your correspondence dated August 28, 1991, I would like to advise you that the Limelight Homeowners Association wishes to proceed with our application #37-08730 for the formalization of water rights on our existing wells drilled in 1972.

Enclosed is a copy of our application which delineates our water usage for our complex comprised of thirty-eight residential units. Also, the application states that our wells were developed when the complex was built by Mr. Jack Corrock who still resides in the Ketchum area. I had the opportunity to speak with Mr. Corrock on August 18th concerning this issue. He did verify that the wells for the Limelight complex were developed in 1972. He also stated that Mr. Ken Smith drilled the wells. Mr. Smith, owner of Wood River Drilling and Pump can be reached at 788-7163 to verify this information.

You will find, in reviewing our application, that our residential complex is situated on a relatively small parcel of land located between Warm Springs Road and Bald Mountain Road in the Warm Springs residential area of Ketchum. The two existing wells on our property provide water (domestic usage) for our thirty-eight residents. This usage also includes watering a minimal lawn/garden area (1/3 acre) adjacent to our two residential buildings and maintaining a small swimming pool on the premises. The lawn/garden area is watered via an efficient automatic sprinkler system from May/June through September on an annual basis. The pool is open and functional only from the last week in June or first week in July through August each year. I would reiterate that the limited lawn/garden area and swimming pool are provided for thirty-eight individual residences. We feel that our existing water usage represents a much smaller residential domestic/consumptive water usage in comparison to thirty-eight separate residences, situated on thirty-eight separate building sites with thirty-eight individual lawn/garden areas, and possibly thirty-eight individual swimming pools!

You can see that our application for water rights is not based on new construction with subsequent additional usage. It is rather a claim for the formalization and legalization of old rights on water usage for wells which have been in existence since the construction of the Limelight residential complex.

MICROFILMED

FEB 07 1992

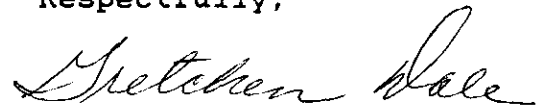

Initially our application for water rights was protested by the Friends of the Big Wood River and Big Wood Canal Company. Both of the protests were withdrawn when these organizations learned that our application for water rights did not represent a new and additional water usage. Mr. Richard Oneida stated in his August 23rd correspondence to Mr. James Stanton, state water resource agent, "It has been brought to my attention that is an old established right and it is not our intent to protest established rights.....".

Based on the information included in our application for water rights and the additional information contained in this letter, we would ask the State of Idaho Department of Water Resources to review and approve our application for the water rights on the two existing wells which serve our compact residential complex.

Please contact me at 726-5408 or Mr. and Mrs. Dick Corrigan, our resident managers at 726-4754, if you have any questions or require any additional information regarding our application.

We appreciate your cooperation in the processing of our application in an expedient fashion.

Respectfully,

Gretchen Dale
President
Limelight Homeowners Assoc.

Re: Application number 37-8730

Dear Applicant:

The Department of Water Resources recently designated a ground water management area (GWMA) which encompasses the upper Big Wood River Valley, the Bellevue Triangle, a portion of the Silver Creek drainage, and the Camas Prairie. You have filed the above referenced application(s) which proposes a point of diversion within the ground water management area.

The Department intends to process pending applications within the GWMA. Any applicant who proposes a consumptive water use, other than domestic use not exceeding one-half acre of irrigation, must show that his proposed use will not reduce flows in the Big Wood River or Silver Creek, or he must propose a reasonable plan to mitigate the reduction in flow.

Your application proposes a consumptive use of water. Prior to further processing of your application, or conducting a hearing if the application is protested, you must submit the following information:

1. Hydrologic evaluation of the ground water aquifer at the proposed point of diversion and its relationship to surface water, including timing of potential impacts.
2. If the hydrologic evaluation results in a conclusion that a well can be constructed without impact, a prospectus discussing well construction methods and standards must be submitted which will be implemented to prevent depletion of surface flow.
3. If the hydrologic evaluation results in a conclusion that a well cannot be constructed without depleting surface flow, a plan of mitigation and/or compensation must be submitted that will replace depletions of surface water caused by proposed ground water withdrawal.

7 1992

37-8730

Page 2

28-Aug-1991

If you do not wish to submit the above information, you may withdraw your application by completing the enclosed withdrawal form. if your application includes a domestic component, and you wish to limit the application to domestic use, please inform this office.

Failure to respond to this inquiry within thirty (30) days, with either the withdrawal or a schedule for submittal of the above information, is cause for the Department to void the application for failure to submit the requested information.

Sincerely,

Loren O. Holmes, P. E.
Southern Region Manager

112 Apple P.O. Box C
Shoshone, ID 83353

Dear Mr. Oneida:

Per our phone conversation of August 16, 1991, I am sending you additional information regarding our application #37-08730 submitted by the Limelight Condominium Association for the formalization of water rights on our existing wells drilled in 1972.

Enclosed is a copy of our application which delineates water usage, as well as stating that our wells were indeed developed when the complex was built by Mr. Jack Corrock who still resides in the Ketchum area.

I had the opportunity to speak with Mr. Corrock yesterday concerning this issue. He did verify that the wells for the Limelight complex were developed in 1972. He also stated that Mr. Ken Smith drilled the wells. Mr. Smith, owner of Wood River Drilling and Pump can be reached at 788-3163 to verify this information.

As you can see, our application for water rights is not based on new construction with subsequent additional usage. It is, rather, a claim for the formalization and legalization of old rights on water usage for wells which have been in existence since the construction of the Limelight complex.

Based on this information, The Limelight Homeowners Association requests the withdrawal of the protest issued by the Big Wood Canal Company in or reference to our application for water rights on existing wells.

Please contact me at 726-5408 or Mr. and Mrs. Dick Corrigan, our resident managers at 726-4754 if you have any questions or require any additional information regarding our application.

We appreciate your cooperation in resolving this issue in a timely fashion.

Respectfully,

Gretchen Dale

Condominiums Inc)

Dear Ms Mc Gowan:

Enclosed is a copy of a protest filed against the issuance of
a permit pursuant to the above referenced application filed
on behalf of Limelight Condominiums Inc.

The Department suggests you contact the protestant directly
to determine the exact nature of the protest and, if
possible, to resolve the matter without action by the
Department.

The attachment to this letter describes the issues which the
Department must consider in taking action on an application
for permit. It also gives a brief description of the
conference and hearing procedure followed by the Department
in resolving protested applications.

Enclosed also for your information are copies of the protests
initially filed by The Friends of the Big Wood River and
subsequent withdrawal letter as well as a copy of our
correspondence to them.

If you have any questions or if this office can be of further
assistance, please feel free to contact us.

Very truly yours,

Enclosure

RECEIVED

FEB 07 1992

Attachment to letter dated 09-Aug-1991

To all parties in the matter of
Application for permit No. 37-08730
In the name of Limelight Condominiums Inc.

PROTESTED APPLICATION FOR PERMIT:
ISSUES CONSIDERED, CONFERENCE PROCEDURE

In processing all applications for permit, the department must consider the following issues, which are specified in Section 42-203A of the IDAHO CODE:

- 1) Will the proposed use reduce the quantity of water under existing rights?
- 2) Is the proposed water supply insufficient for the purposes intended?
- 3) Is the application made in good faith or for delay or speculative purposes?
- 4) Has the applicant sufficient financial resources with which to complete the proposed project?
- 5) Will the proposed use conflict with the local public interest?
- 6) Is the proposed use contrary to conservation of water resources within the state of Idaho?

When an application is protested, the statute requires the department to conduct a hearing to create a record of the evidence considered in approving or denying the application.

Normally, an informal pre-hearing conference is held prior to the actual hearing. The objectives of the informal conference are as follows:

- 1) To familiarize all parties with the application and the issues being raised.
- 2) To provide a forum for discussion and possible resolution of the matter among the parties.
- 3) To provide information to the parties about the department's hearing procedure in deciding protested applications.
- 4) To discuss scheduling of the matter for hearing.

Notices setting the time and place for the conference will be sent by certified mail to all parties at least 10 days prior to the conference. This is the same procedure specified by law for serving notice of hearings.

Conferences are conducted under Rules for Practice and Procedure adopted under the Idaho Administrative Procedures Act.

Department of Water Resources

Dear Gary:

The Friends have been told by the Limelight Condo people that the well in question in application # 37-08730 is an old well. It is not our intention to protest old wells. However, it does pose an interesting question, many of these wells seem to have been put in without any type of permit or application. What is going to be the I.D.W.R. position on these types of situations?

We withdraw our protest against above mentioned application.

On a personal note, I think you and the rest of the people at the Dept. should be highly commended for the action you took in establishing the BIG WOOD RIVER GROUND WATER MANAGEMENT AREA. It was a bold and very important move. I believe in time it will prove to be the major factor in preserving this valley's way of life. Again thank you for the effort and help you have given us and willingness to listen and be fair.

Sincerely,

Doug

Ketchum, IDAHO 83340

In conjunction with the I.D.WR. establishing the Big Wood River Drainage as a Ground Water Management Area, which the Friends of The Big Wood River fully support, please accept this as our formal protest of above mentioned application.

It is not the position of the Friends of The Big Wood River to protest domestic water applications (.04 CFS for up to 1/2 acre) or reasonable Municipal water applications. However appropriations larger than this amount we feel will have the following effects.

1. They will reduce the quantity of water under existing rights.
2. The question of a sufficient water supply for the purposes intended is in question.
3. The proposed use will conflict with the local public interest.
4. The proposed use will be contrary to conservation of water resources within the State of Idaho.

Thank You

Board of Directors
Friends of The Big Wood River

Re: Application for Permit No. 37-08730

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Wood River Journal on 6/19 & 6/26/91. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent
