OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 37-08718)
IN THE NAME OF STEVE PALKEN.) ORDER OF
REINSTATEMENT)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before November 1, 1993; and,

WHEREAS, the Department notified the permit holder by certified mail on August 31, 1993, that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

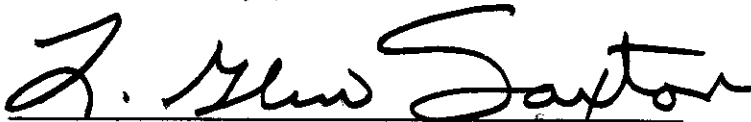

WHEREAS, the Department notified the permit holder on November 4, 1993, that the permit had lapsed for failure to submit the proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on November 18, 1993;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 63-11798 be REINSTATED with an advance in priority to March 30, 1991.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 37-08718

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. However, the department can not determine from the proof which you submitted, whether you have constructed the required three domestic homes associated with the 1.5 acres of land. The relationship of the 1/2 acre per domestic residences is required by condition of approval no. 6 of the permit which reads as follows:

"This permit authorizes irrigation of 1/2 acre within each platted subdivision lot upon which a domestic dwelling has been constructed."

The next step in the process of developing a water right is for the department to conduct a field examination. The department's field examiner will make a determination on whether you have met the criteria of your permit and will recommend a license accordingly.

Additionally, enclosed is an order reinstating your water right permit. Please note that your priority date has been advanced to November 18, 1993.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls, at (208)736-3033.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

Dear Pamela Skaggs,

I apologize for sending this notice in late. I'm in the process of moving and this request got misplaced.

The sprinkler system was completed this summer. However, I have leased the property and will not be in the area for sure until next spring to accompany the field examiner.

If you would like to take a look at the system it is easily viewed by going there. It is the exact system as diagramed in the original request. Otherwise I will need an extension till July to accompany the field examiner.

PLEASE let me know if I can be of further assistance.

Thank you.

LAPSE NOTICE

RE: PERMIT NO. 37-08718

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated August 31, 1993. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 37-08718

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 37-08718

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under Condition No. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

Re: Application number 37-8718

Dear Applicant:

The Department of Water Resources recently designated a ground water management area (GWMA) which encompasses the upper Big Wood River Valley, the Bellevue Triangle, a portion of the Silver Creek drainage, and the Camas Prairie. You have filed the above referenced application(s) which proposes a point of diversion within the ground water management area.

The Department intends to process pending applications within the GWMA. Any applicant who proposes a consumptive water use, other than domestic use not exceeding one-half acre of irrigation, must show that his proposed use will not reduce flows in the Big Wood River or Silver Creek, or he must propose a reasonable plan to mitigate the reduction in flow.

Your application proposes a consumptive use of water. Prior to further processing of your application, or conducting a hearing if the application is protested, you must submit the following information:

1. Hydrologic evaluation of the ground water aquifer at the proposed point of diversion and its relationship to surface water, including timing of potential impacts.
2. If the hydrologic evaluation results in a conclusion that a well can be constructed without impact, a prospectus discussing well construction methods and standards must be submitted which will be implemented to prevent depletion of surface flow.
3. If the hydrologic evaluation results in a conclusion that a well cannot be constructed without depleting surface flow, a plan of mitigation and/or compensation must be submitted that will replace depletions of surface water caused by proposed ground water withdrawal.

If you do not wish to submit the above information, you may withdraw your application by completing the enclosed withdrawal form. if your application includes a domestic component, and you wish to limit the application to domestic use, please inform this office.

Failure to respond to this inquiry within thirty (30) days, with either the withdrawal or a schedule for submittal of the above information, is cause for the Department to void the application for failure to submit the requested information.

Sincerely,

Loren O. Holmes, P. E.
Southern Region Manager

Dear Department of Water Resources:

I am writing you in regards to my application for a water permit. My permit # is 37-08718. I originally requested 3 acres for irrigation purposes, but would like to decrease that request to 1 and 1/2 acres for irrigation purposes. I also would like to decrease my cubic feet per second request to .04 cubic feet per second.

I have inclosed a more accurate discription of the areas to be irrigated to the best of my ability. Please call me if you have any questions. My # is 788-3580. Thank you for your time and effort in this matter. I look forward to hearing from you soon.

Sincerely,

Steve Palken

Re: Application for Permit No. 37-08718

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Wood River Journal on 6/5 & 6/12/91. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Douglas Jones, E. I. T.
