PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 37-08705 Telephone No. 208-544-7534
2. Name(s) of Permit Holder(s): William Hubert Shaw
3. Mailing Address: 411 S 750 E Dietrich Idaho 83224
4. Source of Water: Ground

If **GROUNDWATER**, Well Driller's Name: Arnold Elwing Date Drilled: 4-1-91

OPTIONAL:

Pump horsepower: 200 Pressure (psi): 0 Dynamic pumping level (ft.): 265

5. Extent of Use (as authorized by the permit):

Domestic _____ (No. of households) Stockwater _____ (No. and type of stock)
Irrigation 220 (No. of acres) Other _____

6. Total rate and/or volume for which proof is submitted 7 cfs OR _____ acre/feet

7. Refer to the approval conditions on your permit and respond accordingly:

Measuring device: Required? ____ Yes X No Installed? X Yes ____ No

OR

Flow Measurement Port: Required? X Yes ____ No Installed? ____ Yes ____ No

8. Fee Enclosed: \$ _____ (See License Fee Schedule on back of Instruction Sheet)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name

Telephone No.

Address

10. The above information is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the state of Idaho.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is APPROVED

Date 3/15/91

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
- * 7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

RE: PERMIT NO. 37-08705 PROOF DUE NOTICE

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 37-08705

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of Idaho for the use and benefit of the people within the state. Conditions pertaining to a term review, annual use fee and jurisdiction of the permit are trust water conditions.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

Re: Application for Permit No. 37-8705

Notice of Information Required by Water Appropriation Rule 4,5,3.

Dear Mr. Shaw:

Our regional office in Twin Falls has forwarded the above application for expedited processing and review. The required advertising for this application will soon be completed.

The purpose of this letter is to provide you notice that all applications which propose diversion of more than 5.0 cfs or irrigation of more than 200 acres are subject to the additional information requirements outlined under Water Appropriation Rule 4,5,3. Since your application proposes diversion of more than 5.0 cfs of groundwater, it is subject to Rule 4,5,3. In particular, you must submit the information outlined in Rules 4,5,3,1. through 4,5,3,5 (copy attached). A guideline for assisting you with submittal of the additional information is also enclosed.

The information must be submitted within 30 days of the date of this notice. Failure to submit the required information within the time period allowed may be cause for the Department to void the application. The Department may grant an extension of time in which to submit the information upon request and a showing of good cause. Requests for extension of time must be in writing.

Please contact me at this office or call me directly at 327-7864 if you have any questions concerning the contents of this notice and/or the information requested under Rule 4,5.

Sincerely,

A handwritten signature in cursive script that reads 'Tim Luke'.

MEMORANDUM

TO: FILE

FROM: TIM LUKE

RE: APP. NO. 37-8705/Trust Water Processing & Expedited
Approval

DATE: 4-1-91

The above application is a trust water filing which has been forwarded to the state office for expedited processing. The applicants have requested expedited approval due to the current drought conditions. The applicants propose development of a groundwater source to provide adequate supply of water on lands which have previously been irrigated with adequate surface water supplies. There is sufficient evidence in the file showing that the lands have previously been irrigated. Evidence includes a pre-1984 orthophoto and IDWR remote sensing report of irrigated acreage for 1986.

I recommend immediate processing of this trust water filing. None of the acreage under this application will count as trust acreage since the land has been irrigated with surface water.

4. Proposed use of well:

- ☐ Domestic: The use of water for homes, organization camps, public campgrounds, livestock and for any other purpose in connection therewith, including irrigation of up to 1/2 acre of land, if the total use is not in excess of 13,000 gpd; or any other uses, if the total use does not exceed a diversion rate of 0.04 cfs and a diversion volume of 2500 gpd.

Domestic does not include water for multiple ownership subdivisions, mobile home parks, commercial or business establishments, unless the use does not exceed a diversion rate of 0.04 cfs and a diversion volume of 2500 gpd.

☒ Non-Domestic: Any beneficial use not included within the definition of domestic.

☐ Injection

☐ Monitoring - A well bore schematic and map is required for each well.
No. of proposed wells: _____

5. Well construction information:

A. ☒ New well ☐ Deepen ☐ Replace - See Condition 9

B. Proposed Surface Diameter 16" Proposed Maximum Depth 300'

C. Anticipated bottom hole temperature:

- ☒ 85°F or less (Cold water well)
☐ 85°F to 212°F (Low temp. geothermal well)
☐ 212° or more (Geothermal well)

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is Approved

Date 3/15/91

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. **READ CAREFULLY!**

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
- * 7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

EXTENSION OF DRILLING PERMIT

Extension approved by _____ Approval Date _____

This extension is good for 60 days beyond the above extension approval date.

Drilling permit No. 37-91-5-025

Water right No. 37-08705

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT

William Hubert Shaw, Applicant, requests issuance of a drilling permit prior to approval of a water right to withdraw water from the well.

The request is made for the following reason(s):

I want to be able to use the well as soon as the pending ^{application} transfer is approved.

Applicant understands that the drilling permit does not constitute a water right and does not authorize diversion or use of water from the well.

Applicant acknowledges that by accepting a drilling permit and commencing construction he accepts all risk that the well may not ultimately be approved for use.

SUBJECT

Appurtenant surface water

Telecon. with Big Wood Canal Co. this day revealed that their records included shares on ~~attached~~ lands marked w/ "Y" on attached land list. 3 tracts in S $\frac{1}{2}$ S $\frac{1}{2}$ Sec 21 have no recorded SRBA or Canal Co Record surface water. Appear on attached OPA that land is cultivated and irrigated - with ~~only~~ surface water ~~available~~ only. Recommend continued processing.
