SENE

NESE

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Two points of diversion are located within NESE, S25, T02N, R17E.
6. Place of use located within Lot 17, Block 2, Sunset Meadows Subdivision.
7. Domestic use is for 1 home.

R. Keith Higginson
for R. Keith Higginson, Director

MICROFILMED

MAY 18 1992

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO**

IN THE MATTER OF APPLICATIONS FOR	)	
	)	
PERMIT NOS. 37-8694 AND 37-8695 IN THE	)	ORDER PARTIALLY APPROVING
	)	APPLICATION FOR PERMIT
NAME OF WANDA AND/OR JOHN VLADMIROFF	)	
	)	

This matter having come before the Idaho Department of Water Resources (Department) as a requirement of Section 42-204, Idaho Code, the Department finds, concludes and orders as follows:

FINDINGS OF FACT

1. Applications for Permit Nos. 37-8694 and 37-8695 (applications) propose the diversion of 0.13 cfs for domestic and irrigation purposes from ground water within the Big Wood Ground Water Management Area.

2. The Department mailed notice to the applicants on August 14, 1991, informing them that they must submit to the Department information showing that their proposed irrigation use would not reduce flows in the Big Wood River or Silver Creek, or propose a reasonable plan to mitigate the reduction in flow. The applicants were asked to respond within thirty (30) days or withdraw the applications.

3. On December 13, 1991, the Department mailed a second notice asking the applicants to provide the additional information within fifteen (15) days. The notice further informed the applicants that failure to submit the information

MICROFILMED
MAY 18 1992

within the specified time was cause for the Department to void the applications. A response to this notice was not received.

CONCLUSIONS OF LAW

1. Section 42-204, Idaho Code specifies that failure on the part of the applicants to supply requested information within thirty (30) days is cause for the Director to void an application.

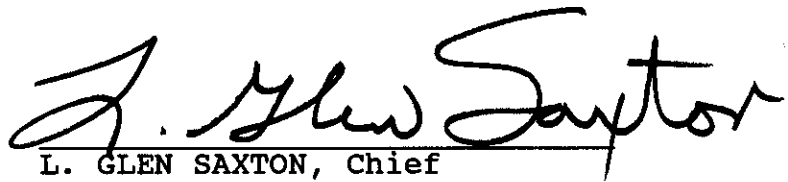

2. The irrigation portion of the application should be voided as provided in Section 42-204, Idaho Code.

ORDER

IT IS HEREBY ORDERED that the irrigation portions of Applications for Permit Nos. 37-8694 and 37-8695 are VOIDED as provided in Section 42-204, Idaho Code.

IT IS FURTHER ORDERED that the domestic portions of application nos. 37-8694 and 37-8695 are APPROVED subject to the terms and conditions of the permits.

Dated this 4th day of March, 1992.

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

- 11/21/90
1. Name of applicant Wanda & John Vladimiroff Phone 788-4773
Post office address Box 1771 Hailey ID 83333
2. Source of water supply groundwater which is a tributary of _____
3. Location of point of diversion is #2 1/4 of NE 1/4 of SE 1/4, Govt. Lot _____
Sec. 25 Township 2N Range 17E B.M. Blaine County; additional
points of diversion if any: _____
4. Water will be used for the following purposes:
Amount 0.04 for Domestic purposes from 1-1 to 12-31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount 0.09 for Irrigation purposes from 4-1 to 11-1 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 13 cubic feet per second and/or (b) _____ acre feet per annum
6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc. Existing well & pump

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:
_____ to _____ inclusive.
c. Proposed well diameter is 76 inches; proposed depth of well is 55 feet.
d. Is ground water with a temperature of greater than 90°F being sought? No
7. Time required for the completion of the works and application of the water to the proposed beneficial use is
1 years (minimum 1 year).

MICROFILMED

MAY 18 1992

8. Description of proposed uses (if irrigation only, go to item 9):

- Hydropower; show total feet of head and proposed capacity in KW. _____
- Stockwatering; list number and kind of livestock. _____
- Municipal; show name of municipality. _____
- Domestic; show number of households. one
- Other; describe fully. _____

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
2N	17E	25													3				3
															D				

Total number of acres to be irrigated 3

10. Describe any other water rights used for the same purposes as described above. _____

- Who owns the property at the point of diversion? Applicants
- Who owns the land to be irrigated or place of use? Vladimiroff's
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing. _____

12. Remarks: Well was drilled under permit 87-88-S-112 for domestic use.
Land is lot 17 in Blk. 2 of Sunset Meadows Subdiv.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

The permit(s) will be subject to all prior water rights. Protests may be submitted based on the criteria of Sec. 42-203A, Idaho Code, and/or the new public interest criteria of Sec. 42-203C, Idaho Code. Protests must be filed with the Director, Dept. of Water Resources, 222 Shoshone St. East, Twin Falls, Idaho 83301, on or before January 21, 1991.

RE: WATER RIGHT NO. 37-08694

Dear Water Right Holder(s):

Enclosed is a copy of the Water Right License issued on the above referenced permit along with a copy of your approved Application for Amendment. Should you have any questions regarding these documents, please contact me.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

RE: WATER RIGHT NO. 37-08694

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to depict your water right as it has actually been developed.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the point(s) of diversion and the place(s) of use description. Please review carefully and if you concur, sign the amendment and return it with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of Conditions of Approval and Remarks proposed for the license when it is issued. These conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

MEMORANDUM

DATE: December 12, 1996
TO: File No. 36-08694
FROM: Cindy Zimmerman
SUBJECT: Review of Beneficial Use Field Report

The examiner measured the flow rate at each of four spigots then combined the measurements and averaged them. The water distribution system includes a cistern/storage tank.

The following adjustments¹ were made on the field report:

F. Flow Calculations.

1. Well #1: Dynamic level = static level + 10'; per well log, static level = 17'.
Capacity, Theoretical HP Equation:
$$\frac{8.8 \times 0.7 \times 3.0}{27 + (2.31 \times 40)} = \frac{18.48}{254.88} = \underline{\underline{0.17 \text{ cfs}}}$$
2. Well #2: Dynamic level $\approx$ same as well #1
Capacity, Theoretical HP Equation:
$$\frac{8.8 \times 0.7 \times 0.75}{27 + (2.31 \times 35)} = \frac{4.62}{107.85} = \underline{\underline{0.04 \text{ cfs}}}$$
3. Combined Capacity; cfs = 1. + 2.
$$= 0.17 + 0.04$$

$$= \underline{\underline{0.21 \text{ cfs.}}}$$

H. Recommendations.

1. Recommended amounts:

Beneficial Use	Period of Use	Rate of diversion	Annual Volume
Domestic	1/1-12/31	<u>0.04</u> cfs	1.2 AF

Examiner: Georgia Satterlee
Examined: 7/26/96

29 August 1996

To: File #37-08694 Vladimiroff, John and/or Wanda
From: Georgia Satterlee

On 26 July 1996, I was accompanied by Wanda and John Vladimiroff. The permit is for one domestic well.

The first P/D (#1) is located in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec 25, T02N, R17E. In addition to this well, there is another well (#2) located approximately 60 feet northerly. The property descriptions are identical for both wells. The second well (#2) was drilled under the name of the GMMK Group, who were the developers of the Sunset Meadow Subdivision.

According to John and Wanda Vladimiroff, well (#1) has a 3 hp pump and was drilled when they were building their home. The second well (#2) has a 3/4 hp pump and was drilled prior to the Vladimiroff's developing their well. The #2 well keeps a cistern filled for fire protection for the south portion of the subdivision. However, the #2 well is tied into the Vladimiroff's system (see Diagram "1") and kicks in, with the first well (#1), when a certain PSI is reached. Also, in case of a fire, both wells would be used to refill the cistern.

The original permit designated irrigation, in addition to domestic, however the irrigation was disallowed due to the applicant's inability to submit a mitigation plan.

Regarding the 1/2 acre of irrigation under the domestic portion of permit, a small area does splash over in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec 25, T02N, R17E. All others are in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of the Sec 25, T02N, R17E. As the photo depicts (photo pg. 2/2), the yard is not manicured meticulously but maintained in order to protect from danger of fire. The trees surrounding the home are on a drip watering and timer system.

The method of measurement was accomplished with a 5 gallon bucket and a stopwatch. See Attachment "B". There were four different faucets measured. All four measurements were calculated and the mean of the total was used, which was 0.03 cfs.

ANALYSIS/RECOMMENDATION:

Wells #1 & #2 combined:
DOMESTIC 01/01-12/31 0.03 cfs - 1.2 afa

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 37-08694

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)736-3033.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

ACTION OF IDWR

☒ Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

8. This well approved for monitoring purposes only

Dated this 13 day of December, 1988.

Signed John C. Beal

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 37-08694

Dear Permit Holder:

Enclosed is a copy of your approved application on the above referenced permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

BRENDA MILLER
Technical Records Specialist

RE: Applications for Permit Nos. 37-8694 and 37-8695

Dear Applicant:

Enclosed is a copy of the Order Partially Approving Application for Permit on the above referenced permit.

Please be advised that if you do not agree with the decision of the Department you may, within fifteen (15) days of receipt of the Order Voiding your application, request a hearing before the Director. Failure to timely petition the Director within fifteen days of receipt of the Order may prevent you from further contesting the voiding of your application.

Sincerely,

RE: Application for Permit No. 37-8694 and 37-8695

NOTICE OF PENDING ORDER VOIDING APPLICATION

Dear Mrs. and Mr. Vladmiroff:

The Department of Water Resources sent you a letter several weeks ago informing you about the designation of the Big Wood Ground Water Management Area. We informed you of the creation of the ground water management area because you have an application for permit to appropriate water pending before the Department of Water Resources which proposes diversion of water within the Ground Water Management Area.

The letter also informed you that you were required to submit information to the Department regarding your application. A copy of the letter is enclosed for your reference.

The letter gave you thirty (30) days to submit a schedule for completion of required studies or acquisition of mitigation water. You have not responded to the inquiry.

This letter is a notice that if you do not submit the requested information within fifteen (15) days of the date of this letter, your application for permit will be voided.

Respectfully,

GARY SPACKMAN, Manager
Water Right Permits Section

CECIL D. ANDRUS

GOVERNOR

R. KEITH HIGGINSON

DIRECTOR

August 14, 1991

Wanda and John Vladimiroff
Box 1771
Hailey, ID 83333

Dear Mr. and Mrs. Vladimiroff:

The Department of Water Resources recently designated a ground water management area which encompasses the upper Big Wood River Valley, the Bellevue Triangle, a portion of the Silver Creek drainage, and the Camas Prairie. Our records show that you have filed an application for permit to appropriate water with the Department which proposes a point of diversion within the ground water management area.

The Department intends to process pending applications within the ground water management area. Any applicant who proposes consumptive use, other than domestic use not exceeding one-half acre of irrigation, must show that his proposed use will not reduce flows in the Big Wood River or Silver Creek, or he must propose a reasonable plan to mitigate the reduction in flow.

Our records show that you have applied for a consumptive use of water. Prior to processing your application, or conducting a hearing if the application is protested, you must submit the following information:

1. Hydrologic evaluation of the ground water aquifer at the proposed point of diversion and its relationship to surface water, including timing of potential impacts.
2. If the hydrologic evaluation results in a conclusion that a well can be constructed without impact, a prospectus discussing well construction methods and standards must be submitted which will be implemented to prevent depletion of surface flow.
3. If the hydrologic evaluation results in a conclusion that a well cannot be constructed without depleting surface flow, a plan of mitigation and/or compensation must be submitted that will replace depletions of surface water caused by proposed ground water withdrawal.

MICROFILMED

MAY 18 1992

If you do not wish to submit the above information, you may withdraw your application by completing the enclosed withdrawal form. If your application includes a domestic component, and you wish to limit the application to domestic use, please inform the Department.

Failure to respond to this inquiry within thirty (30) days, with either the withdrawal or a schedule for submittal of the above information, is cause for the Department to void the application for failure to submit requested information.

Respectfully,

A handwritten signature in cursive script that reads "Gary Spackman".

Re: Applications for Permit Nos. 37-08694 & 37-08695

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right applications for permit. The applications have been assigned the above referenced identification numbers. Please refer to these numbers in all further correspondence.

This office will be advertising the applications in the Wood River Journal on 1/2 & 1/9/91. A period of ten days following the second publication will be allowed for the submittal of protests.

If the applications are protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the applications are not protested, they will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Douglas Jones, E. I. T.
Water Resources Engineering Specialist

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before JANUARY 7, 1991.

Yours truly,

Mary Baldwin
Secretary/Office Coordinator
