Re: Permit No. 37-08687

Dear Permit Holder:

Returned is the proof of beneficial use you submitted in connection with the above referenced permit. Unfortunately, it is unacceptable as filed.

While we understand that the use of water is non consumptive, the water is still being diverted and/or stored for any given period of time. Therefore, in reference to #6, there is a diversion (cfs) and/or storage (acre/feet) rate. It will be necessary for you to determine this rate and write it on the form.

Secondly, there are several kinds of non consumptive uses. Examples are fish propagation and heating. Therefore, you will need to be more specific in your response to item #5. Please properly complete item #5.

Lastly, the Department has determined from pertinent sections of the Idaho Code, that in order to be exempt from the license exam fee, you must meet two requirements. Those requirements are as follows:

1. The water right must use a groundwater (well) source.
2. The rate of diversion must be .04 cfs or 4.0 AF or less.

As you can see, you do not meet requirement #1 since you use the Big Wood River (surface) for your source. Therefore, a license examination fee applies to your permit. Once you have properly completed item #6, you can determine the amount of your license exam fee from the instruction sheet. I have enclosed a copy of the Instructions for the Proof of Beneficial Use for your convenience.

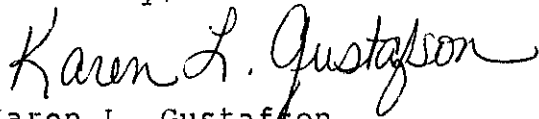

MICROFILMED

APR 12 1993

In order to be in compliance with all of the required dates, you must return the original proof and fee on or before May 1, 1993.

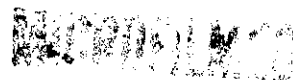

If you have any questions or if I can be of any further assistance, please feel to contact me.

Sincerely,

Dear Permit Holder:

Enclosed is a copy of the denied request for extension of time which you submitted to the department in connection with the above referenced permit. Section 42-204, Idaho Code, provides that the department can only grant one extension of time based on due diligence. Please note that the department has previously granted an extension of time in connection with this permit.

I suggest that you file the enclosed proof of beneficial use form for that portion of the development completed. The Department can then proceed with the licensing process on that portion of the permit that has been completed.

If you have any questions or if we can be of any further assistance, please feel free to contact us or any of our regional offices.

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1993.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

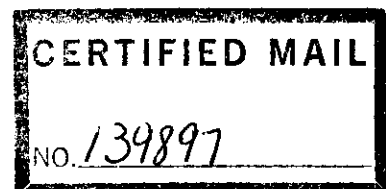

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Karen L. Gustafson

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to May 1, 1993. Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

Dear Lee,

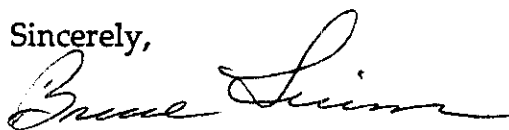

In line with our field visit to the new pond on Mr. Bashaw's property and our conversation, I am writing this follow-up letter regarding measurement devices for the pond.

Because of the drought and unstable flows it has been decided to install temporary flumes as measuring devices for this year.

In the spring of 1993 original plans will be implemented to install permanent measurement devices.

Thank you for your assistance on this project.

Dear Ms. Davis:

The Department of Water Resources acknowledges receipt of the water right application for permit on behalf of your client, Gerald &/or Audrey Bashaw. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Wood River Journal on 12/5 & 12/12/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.
