IN THE MATTER OF APPLICATION	)	
	)	
FOR PERMIT NO. 37-8666 IN THE	)	ORDER PARTIALLY APPROVING
	)	APPLICATION FOR PERMIT
NAME OF TIMOTHY O. KOHL	)	
	)	

This matter having come before the Idaho Department of Water Resources (Department) as a requirement of Section 42-204, Idaho Code, the Department finds, concludes and orders as follows:

FINDINGS OF FACT

1. Application for Permit No. 37-8666 (application) proposes the diversion of 0.08 cfs for domestic and irrigation purposes from ground water within the Big Wood Ground Water Management Area.
2. The Department mailed notice to the applicant on August 14, 1991, informing him that he must submit to the Department information showing that his proposed irrigation use would not reduce flows in the Big Wood River or Silver Creek, or propose a reasonable plan to mitigate the reduction in flow. The applicant was asked to respond within thirty (30) days or withdraw the application.
3. On December 13, 1991, the Department mailed a second notice asking the applicant to provide the additional information within fifteen (15) days. The notice further informed the applicant that failure to submit the information within the

MICROFILMED

MAY 18 1992

specified time was cause for the Department to void the application. A response to this notice was not received.

CONCLUSIONS OF LAW

1. Section 42-204, Idaho Code specifies that failure on the part of the applicants to supply requested information within thirty (30) days is cause for the Director to void an application.

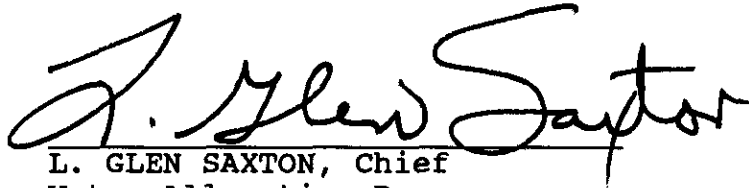

2. The irrigation portion of the application should be voided as provided in Section 42-204, Idaho Code.

ORDER

IT IS HEREBY ORDERED that the irrigation portion of Application for Permit No. 37-8666 is VOIDED as provided in Section 42-204, Idaho Code.

IT IS FURTHER ORDERED that the domestic portion of application no. 37-8666 is APPROVED subject to the terms and conditions of the permit.

Dated this 4th day of March, 1992.

PROOF DUE NOTICE

RE: PERMIT NO. 37-08666

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

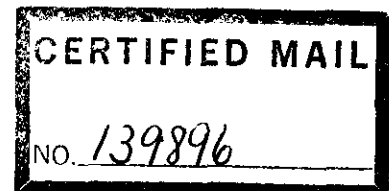

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

RE: Application for Permit No. 37-8666

NOTICE OF PENDING ORDER VOIDING APPLICATION

Dear Mr. Kohl:

The Department of Water Resources sent you a letter several weeks ago informing you about the designation of the Big Wood Ground Water Management Area. We informed you of the creation of the ground water management area because you have an application for permit to appropriate water pending before the Department of Water Resources which proposes diversion of water within the Ground Water Management Area.

The letter also informed you that you were required to submit information to the Department regarding your application. A copy of the letter is enclosed for your reference.

The letter gave you thirty (30) days to submit a schedule for completion of required studies or acquisition of mitigation water. You have not responded to the inquiry.

This letter is a notice that if you do not submit the requested information within fifteen (15) days of the date of this letter, your application for permit will be voided.

Respectfully,

A handwritten signature in cursive script that reads "Gary Spackman".

Dear Mr. Kohl:

The Department of Water Resources recently designated a ground water management area which encompasses the upper Big Wood River Valley, the Bellevue Triangle, a portion of the Silver Creek drainage, and the Camas Prairie. Our records show that you have filed an application for permit to appropriate water with the Department which proposes a point of diversion within the ground water management area.

The Department intends to process pending applications within the ground water management area. Any applicant who proposes consumptive use, other than domestic use not exceeding one-half acre of irrigation, must show that his proposed use will not reduce flows in the Big Wood River or Silver Creek, or he must propose a reasonable plan to mitigate the reduction in flow.

Our records show that you have applied for a consumptive use of water. Prior to processing your application, or conducting a hearing if the application is protested, you must submit the following information:

1. Hydrologic evaluation of the ground water aquifer at the proposed point of diversion and its relationship to surface water, including timing of potential impacts.
2. If the hydrologic evaluation results in a conclusion that a well can be constructed without impact, a prospectus discussing well construction methods and standards must be submitted which will be implemented to prevent depletion of surface flow.
3. If the hydrologic evaluation results in a conclusion that a well cannot be constructed without depleting surface flow, a plan of mitigation and/or compensation must be submitted that will replace depletions of surface water caused by proposed ground water withdrawal.

RECORDED

MAY 18 1992

If you do not wish to submit the above information, you may withdraw your application by completing the enclosed withdrawal form. If your application includes a domestic component, and you wish to limit the application to domestic use, please inform the Department.

Failure to respond to this inquiry within thirty (30) days, with either the withdrawal or a schedule for submittal of the above information, is cause for the Department to void the application for failure to submit requested information.

Respectfully,

GARY SPACKMAN, Manager
Water Right Permits Section

Re: Application for Permit No. 37-08666

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Wood River Journal on 10/17 & 10/24/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is

Amended

Date

8/17/90

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

LAPSE NOTICE

RE: PERMIT NO.

37-08426

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated March 31, 1990. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.
