Proposed change of water right

NOTICE OF PROPOSED CHANGE OF WATER RIGHT No. T# 5159

Notice is hereby given that Thomas A. Pyle, PO BOX 94, KETCHUM ID 83340 has applied to the Department of Water Resources for changes to a water right. The purpose of Transfer No. 5159 is to change point of diversion and place of use due to the sale of property. PRESENTLY, Licensed Water Right No. 37-08664 with a priority date of 08/13/1990 is diverted from groundwater within SE1/4NW1/4, S10, T02N, R18E; Blaine County for domestic use (0.02 cfs) and irrigation (0.04 cfs) of 1.3 acres within SE1/4NW1/4, S10, T02N, R18E (also known as Lot 4, Block 1, Marvin Gardens); Blaine County.

PROPOSED CHANGE

The applicant wishes to divert a total of 0.06 cfs of water from two wells within SE1/4NW1/4, S30, T02N, R18E (one existing well & one new well to be drilled); Blaine County for domestic use (0.02 cfs) and irrigation (0.04 cfs) of 1.8 acres within SE1/4NW1/4, S30, T02N, R18E; Blaine County (also known as Lot 2, Croesus Creek Subdivision). Any protest against the proposed changes must be filed with the Department of Water Resources, Southern Region, 1341 Fillmore St., Suite 200; Twin Falls, ID 83301 together with a protest fee of \$25.00 on or before November 17, 1997 to be considered by the Department in its decision to grant or deny any part of the proposed change. The protestant must also send a copy of the protest to the applicant. Karl J. Dreher, Director

Publish: Wood River Journal -

RE: Water Right 37-08664 (Transfer 5159)

Dear Water Rights Holder(s):

Enclosed is a copy of your approved Transfer of Water Right for the above referenced water right (Transfer 5159). Please be sure to thoroughly read the Conditions and Remarks listed on the transfer. Also, please be advised that the accompanying transfer approval should be considered and treated as a **preliminary order** of the department issued pursuant to section 67-5243, Idaho Code. Enclosed are instructions for responding to **Preliminary Orders** if you are in disagreement with the approved transfer.

As of July 1, 1996, all water right owners are required to report any change in water right ownership and any change of mailing address to the department.

If you have acquired any other water right or have changed your mailing address **PRIOR TO** July 1, 1996, you have until July 30, 1998, to record the ownership and/or address change with the department.

If you acquired other water rights or changed your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes in a timely manner could result in a \$100 late filing fee. You can contact any office of the department for more information. If you have any questions concerning your water right listed above you can contact me at (208) 327-7947.

Sincerely,

JIM JOHNSON, Manager

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

JUN 04 1997

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: File 37-08664

FROM: Pam Skaggs²⁸/State Office

SUBJECT: Transfer 5159

DATE: May 14, 1998

js

Transfer 5159 changes the point of diversion and place of use under Right 37-08664. The applicant sold the original property and retained the water right as stated on the warranty deed. The transfer relocates the water right on his new property in a subdivision about 3 miles away. ✓

A small domestic well exists on the new site, but a second well may be drilled to provide for irrigation use. Recommended conditions include drilling permit requirements, multiple points of diversion/measuring devices, irrigation use limited to use with domestic, domestic limited to non-irrigation uses, irrigation overlap and standard transfer conditions. ✓

RE: Water use from well on Lot 4, Blk 1 of Marvin Gardens
Subdivision

Gentlemen:

As you may know, our office has processed a transfer of water right 37-08664 in the name of Thomas Pyle. The transfer moves license 37-08664 from Lot 4, Block 1 of Marvin Gardens Subdivision to other lands owned by Mr. Pyle (Lot 2 Croesus Creek Subdivision). Our office understands that the license was reserved in the sale when you bought the property from Mr. Pyle.

Please be informed that absent license 37-08664, the use from the well on Lot 4, Block 1 of Marvin Gardens Subdivision must be reduced to no more than a "domestic use" as defined in §42-111, Idaho Code. The use from the well is limited to no more than 13,000 gallons per day for domestic purposes associated with the household including irrigation of no more than 1/2 acre of lawn. To use the well in excess of this amount would require another water right be obtained and transferred to the site to replace right 37-08664 which has been removed.

Please also note that the divert water in Idaho without a valid water right is illegal pursuant to §42-351, Idaho Code and subject to civil penalties of up to \$100 per day.

If you have questions please feel free to contact our office.

Sincerely,

Allen Merritt, PE
Southern Region Manager

RE: Water use from well on Lot 4, Blk 1 of Marvin Gardens
Subdivision

Gentlemen:

As you may know, our office has processed a transfer of water right 37-08664 in the name of Thomas Pyle. The transfer moves license 37-08664 from Lot 4, Block 1 of Marvin Gardens Subdivision to other lands owned by Mr. Pyle (Lot 2 Croesus Creek Subdivision). Our office understands that the license was reserved in the sale when you bought the property from Mr. Pyle.

Please be informed that absent license 37-08664, the use from the well on Lot 4, Block 1 of Marvin Gardens Subdivision must be reduced to no more than a "domestic use" as defined in §42-111, Idaho Code. The use from the well is limited to no more than 13,000 gallons per day for domestic purposes associated with the household including irrigation of no more than 1/2 acre of lawn. To use the well in excess of this amount would require another water right be obtained and transferred to the site to replace right 37-08664 which has been removed.

Please also note that the divert water in Idaho without a valid water right is illegal pursuant to §42-351, Idaho Code and subject to civil penalties of up to \$100 per day.

If you have questions please feel free to contact our office.

Sincerely,

Allen Merritt, PE

Water Right(s): 37-08664

In the Name of: Thomas Pyle

SUBJECT: Review and Recommendation

This transfer proposes to change the point of diversion and place of use of a groundwater right. The right is being moved from Pyle's old house to his new house. The old house was sold to someone else but the right was reserved in the sale.

RECOMMENDATION

I recommend that the transfer be approved subject to the following conditions:

- Two wells as points of diversion.
- Any new well drilled must obtain a drilling permit (\$200) for irrigation.
- Domestic use is for 1 home and the domestic component does not include outside irrigation.
- Irrigation from wells is limited to no more that 1.8 acres within Lot 2 of Croesus Creek Subdivision and is only authorized in connection with a domestic use.
- Place of use is located within Lot 2 of Croesus Creek Subdivision.

RE: BLAINE COUNTY COMMENTS ON PROPOSED TRANSFER #5159

Dear Allen,

We would like to offer the following comments on the above referenced application:

The request to divert 0.06 cfs from an existing and a new well for irrigation of 1.8 acres appears to be an expansion of use to irrigate an additional 1.3 acres of landscaping beyond the IDWR allowable 1/2 acre. If this is the case, then IDWR should not allow this diversion.

However, if this application is approved by IDWR, the County continues to advocate that all such diversions, small or large, should be metered and monitored to ensure compliance with IDWR regulations against expansion of use.

In addition, we would appreciate IDWR review of such applications as part of the larger water issues in the area so that the cumulative effect of a number of small diversions don't result in a large impact on the areas involved.

Len Harlig

RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for Right 37-08664 are based on the information below:

Per telephone conversation today with Mr. Pyle, this permit will not be recommended as a supplemental groundwater right. He stated that there has never been any surface water used on his property, nor is there any access to any.

F. FLOW CALCULATIONS

The domestic rate has been reduced. With the current guidelines of including domestic lawns, gardens, etc. in the irrigated acre total, the domestic recommendation is reduced to an internal use rate of .02 cfs.

The irrigation rate has been reduced. Each "6 sprinkler station" produces a total of .04 cfs, which is equal to an inch per acre.

Narrative Attachment

There were no point of diversion or place of use overlaps found for this water-right. The place of use and point of diversion is also known as lot #4 of the Replat of lots 4 and 5, Marvin Gardens No. 1 Subdivision. The total area of the lot is 2 acres and the area that is not irrigated is .2 acre. The point of diversion for this system is a submersible 1.5 Hp Sta-Rite pump and motor which is located in a flower bed among shrubs on the north side of the house. 1.5" and 1" plastic tubing was used for the lawn sprinkler irrigation system. The sprinkler system is composed of 15 stations with each station containing 6 Rainbird, Model #2045, pop-up style sprinkler heads. The nozzles used are primarily blue plastic nozzles (#08). Misters are located around the house in the flower beds. In areas where sprinkled area is small, smaller nozzles are used. The system operating pressure is estimated at 35 psi.

THEORETICAL RATE OF FLOW: $Q = \frac{(8.8) \times (\text{H.P.}) \times (\text{EFF.})}{\text{TDH}}$

H.P. = Total Brake Horsepower of pumping plant (including booster)
EFF. = Pumping plant efficiency (ASSUME 70% OR 0.70)
TDH = total dynamic head = [(LIFT) + (PSI X 2.31)]
LIFT = depth to water in FEET from land surface to pumping water level
PSI = pumping pressure measured in psi near pump (if open discharge assume zero [0])

NOTES:

1. There shall be a 10' wide utility easement, contained on all side and rear lot lines of all lots.
 2. Developer shall pay \$2,000 per lot for a special fund for the purchase of fire equipment. Payment shall be upon the issuance of a subdivision map.
 3. All lots shall be surveyed by a licensed surveyor, and the survey shall be recorded by a lien on the property, payable to Dallas County.
 4. The 60' wide and subsequent 40' wide private driveway may be utilized for future public access when the parcel to the west is developed.
 5. A copy of the Martin Outback Conditions, Covenants and Restrictions shall be furnished to all prospective buyers.
 6. Sublot requirements from property liens shall be a minimum of 65 feet, per subsection (4) of the Dallas Fire Code regulations. This requirement is meant to govern a proper separation between homes for the purpose of fire protection.
 7. All roads will be privately owned and maintained, but shall meet minimum county standards.
 8. All utilities shall be underground.
 9. Owners are responsible for cost of nation's week or per state regulations.
- There shall be no construction within the designated easements.

RE: PERMIT NO. 37-08664

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)736-3033.

Sincerely,

Karen L. Gustafson

ACTION OF IDWR

(☒) Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

PROOF DUE NOTICE

RE: PERMIT NO. 37-08664

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Nina Shields
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 37-08664

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as far as possible from surface water channels and casing your well

RECEIVED

so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

Re: Application for Permit No. 37-08664

Dear Mr. Pyle:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Wood River Journal on 9/19 & 9/26/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent
