PLACE OF USE:

DOMESTIC, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Irrigation use under this right is authorized only in connection with a domestic use.
6. The right holder shall use the full allotment of his surface water right, to the extent it is available, in conjunction with groundwater diverted pursuant to this right.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Due to a lack of domestic use on the property until recently, conditions of permit were not met. So original exam recommended that permit be cancelled. During the re-exam, the house was under construction & well on its way to completion. It was not ready for occupancy, but most likely will be before winter sets in. This appears to satisfy the permit, which is now recommended for licensing.

Mr. Johnson said that he only plans a small lawn, & that it would probably be part of the 2 1/2 acres already found. So no extra water is shown just for lawn watering.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Irrigation pump mainly supplements ditch water early & late in the season. There is no line from the home^{sit} to the well, & home construction (other than land leveling) has not yet begun. Home is supposed to be finished in 15 months.

* Recommend permit be cancelled, & cease-and-desist order be issued to prevent irrigation with groundwater. Condition of Approval #3 has not been met. Mr. Johnson claims decreed surface water, but no SRRA claim has been filed. This guy has big problems! He could file a transfer to add the well as a P/D under his surface right in order to get away from the domestic-use requirement. I think he meant to comply with this requirement, but has just gotten behind (he mentioned working in Europe & problems with changes in house design).

MEMORANDUM

Date: February 14, 1993
From: Jim Johnson
To: File
Subject: Return of Field Exam to Region

=====

A field examination had been conducted under this permit and it was received here in the State Office. The examiner found that irrigation had been developed but at the time of the examination no domestic used had occurred thereby recommending that the permit be voided because of non-compliance with the conditions listed on the permit. A letter proposing to void was sent to the permit holder and he responded. He explained that the house is now complete and being occupied. Jim Stanton wanted to confirm this so the field examination was returned on this date.

RECEIVED
JAN 22 1993

MEMORANDUM

Date: January 30, 1993
From: Jim Johnson
To: Norm Young
Subject: Question of interpreting Condition of approval on permits issued in the Big Wood Drainage Basin

=====

When permit no. 37-08657 was approved condition "Irrigation under this permit is authorized only in connection with a domestic use." Now, the examination has been completed and irrigation of 2.5 acres using groundwater has been confirmed.

Because the condition has been imposed the field examiner has recommended that the permit be voided. A house was under construction at the time of the inspection but not when proof to beneficial use was submitted.

Per examiner's recommendation a notice to void the permit was sent to the permit holder, who has now responded. He reported that the house has been completed and occupied.

My recommendation is to issued a license for the irrigation use and domestic use and not take any further action to void the permit. The field exam form will be changed to include the rate, annual volume, and uses.

RE: Permit to Appropriate Water No. 37-08657

NOTICE OF PENDING ORDER TO VOID PERMIT

Dear Mr. Johnson:

On January 11, 1991, the Director of the Department of Water Resources approved Application for Permit No. 37-08657 for diverting groundwater for irrigation in connection with a domestic use in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 10, Twp. 02N, Rng. 18E, B.M., Blaine County.

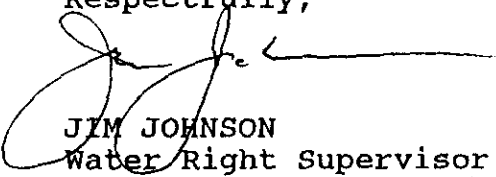

On June 3, 1992, a Beneficial Use Field Report prepared by an employee of this department reported that water was not being diverted for a domestic use as conditioned under this permit.

The purpose of this letter is to inform you that I will take action to void your application after thirty (30) days from the date of this letter unless you have explanation for not diverting water for domestic use.

If you are no longer interested in this right, you can sign and return the enclosed withdrawal form.

If you have any questions in regard to this matter, please feel free to contact me at 327-7947.

Respectfully,

JIM JOHNSON
Water Right Supervisor

RE: NONCOMPLIANCE WITH PERMIT CONDITION #3

DATE: 28-OCT-1992

Review of the field exam done on this right reveals that the Domestic component has not been developed. The domestic drilling permit was never acted on; no domestic well was found. The picture of the homesite and the examiner's remarks show that other than land leveling, no construction has been done on the home. No pipeline has been laid to connect the homesite to the irrigation well.

I agree with the examiner's recommendation that this right be voided for noncompliance with permit conditions.

Water Rights-
SUBJECT: Charles Johnson Property

FROM: Jim Stanton

DATE: 6-8-92

Last week I did a licensing exam on Permit 37-08657 for Mr. Johnson. He told me that he
has 27" of 1883 water. Surface water is his primary source; the well would supplement
the ditch water only as needed, especially early & late in the season.

The computer shows that 37-00024 covers this land, but all of this right is claimed for
use on land to the north of the Johnson property. Today I informed Mrs. Johnson of this
problem. Also, watermaster records show no Charles Johnson on the Hiawatha Canal. 37-00024
is shown as being entirely owned by someone else. So if Johnson has valid surface rights,
I can't find any record of them. Johnson may have part of 37-0577.

SUBJECT Permit 37-08657, Charles Johnson

Today I discussed this permit with Pam Skaggs of S. O. She talked to Jim or Gary. Permittee filed proof last Fall. He recently called to schedule a license exam, stating that a home is under construction but is not yet occupied. Permit requires domestic use in order for irrigation to be allowed. Pam said that the home must be occupied by proof-due date in order for permit to remain valid. I plan to do the exam ASAP to verify the facts. If/~~when~~ home is not occupied, I will recommend cancellation of permit for failure to meet conditions of approval.

If approved, this permit authorizes the construction of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

Drilling permit No. 37-90-S-096 irrigation well

Water right No. 37-08657

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT

CHARLES M. JOHNSON, Applicant, requests issuance of a drilling permit prior to approval of a water right to withdraw water from the well.

The request is made for the following reason(s):

AN EXISTING CROP OF IMMATURE & NEWLY PLANTED TREES IS PRESENTLY BEING IRRIGATED BY WATER FROM EXISTING SURFACE RIGHTS. IF CURRENT PROJECTIONS HOLD, SURFACE WATER WILL NOT BE AVAILABLE AFTER JULY 1ST TO THE 15TH AND NOT BECOME AVAILABLE UNTIL AFTER MAY 1ST OF NEXT YEAR. IT IS VERY PROBABLE THAT MANY IF NOT ALL THE NEW PLANTINGS WOULD FAIL WITH OUT A CONTINUOUS SOURCE OF WATER THROUGHOUT THE GROWING SEASON.

Applicant understands that the drilling permit does not constitute a water right and does not authorize diversion or use of water from the well.

Applicant acknowledges that by accepting a drilling permit and commencing construction he accepts all risk that the well may not ultimately be approved for use.

I will be out of the country from October 15th through approximately May 15th.

As yet I do not have an insulated pump house so the well will be disconnected from the system and the lines blown out for the winter. Would it be possible to defer any examination until I resume operations at the end of next May? Thanks for considering this.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 37-08657

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as far as possible from surface water channels and casing your well so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

Re: Application for Permit No. 37-08657

Dear Mr. Johnson:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Wood River Journal on 9/5 & 9/12/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Gary Funderburg
Sr. Water Resource Agent

ACTON OF DEPARTMENT OF WATER RESOURC

This Permit is Approved Date 6/12/90

If approved, this permit authorizes the construction of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.
