PLACE OF USE: DOMESTIC, same as IRRIGATION useCONDITIONS OF APPROVAL AND REMARKS

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
2. These rights when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
- * 3. Rights 37-02734 and 37-07011 are limited to a total combined rate of diversion of 1.35 cfs and a total combined annual diversion volume of 199.5 af for the irrigation of 57 acres within the place of use described above in a single irrigation season.
- ** 4. Rights 37-02734, 37-07011 and 37-07290 are limited to a total combined annual diversion volume of 68.4 af for domestic use.
- */*** 5. Rights 37-02734, 37-07011, 37-07290 and 37-08601 are limited to a total combined rate of diversion of 2.12 cfs and a total combined annual diversion volume of 428.4 af for irrigation of a total of 122.4 acres in a single irrigation season. These rights are also limited to a total combined annual diversion volume of 103.8 af for domestic use for a total of 173 homes within Hulen Meadows Subdivision.
- ** 6. Right 37-08601 is limited to the irrigation of 65.4 acres within the place of use described above in a single Irrigation season.
7. Domestic use does not include lawn, garden, landscape, or other types of irrigation.
8. The period of use for the irrigation described in this approval may be extended to an ending date of 10/31 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water after 10/15 is subordinate to all water rights having no subordinated late irrigation use and a priority date earlier than the date of this approval.
9. Two points of diversion are located in NWSW, S36, T05N, R17E.
10. Points of diversion are located within Lot 2A, Flowers Mill Subdivision and Lot 3A, Hulen Meadows #3 Subdivision.

Mark Longley Manager
Hulen Meadows Water Company
Ketchum, ID 83340

RE: Application for Permit 37-08852

Dear Mr. Longley:

A recent examination of pending applications in our office revealed that Application for Permit 37-08852, filed in the name of Hulen Meadows Water System, is still pending. This particular application was filed in October of 1995.

During the review of application for permit 37-08852, it was discovered that several older existing water rights were already appurtenant to the Hulen Meadows Subdivision. In addition, a water right permit, 37-08601, was pending licensing for the subdivision. It was decided to delay action on application for permit 37-08852 until permit 37-08601 was licensed.

During the licensing of water right 37-08601, it was determined that the existing water rights that were appurtenant to Hulen Meadows when combined with water right 37-08601 covered all the water uses for the subdivision. Therefore, the application that you filed in October of 1995 was not necessary.

Our Department, and the subdivision, need to address the pending application for permit 37-08852, filed in October of 1995. Since the application for permit is no longer necessary due to the existing water rights covering the subdivision's water use(s). Our Department can process, and eventually deny, the application, or you can withdraw the application. Since this particular application has not been advertised yet, you may be able to obtain a refund of your \$100.00 application filing fee (if requested). I have enclosed a partially completed form that would enable the subdivision to withdraw the application.

MICROFILMED

APR 25 2000

October 1, 1997

PAGE 2

As you recall, all the existing water rights, except recently licensed water right 37-08601, for the subdivision do not reflect the actual point of diversion (well) locations. In addition, the Snake River Basin Adjudication claims filed for the subdivision do not reflect the current point of diversion locations. This is partially due to the abandonment of the well located along Sorrel Lane and the addition of the new well along Hulen Way. Representatives of the Department have discussed with you the need for the filing of a water right transfer application to correctly record the existing well locations.

I encourage you, and the subdivision, to file an application for transfer to properly record all the current well locations on all of the subdivision's existing water rights. If you, or the subdivision, need assistance in this process feel free to contact me. The filing fee for an application for transfer is \$100.00, so if you obtain a refund from withdrawing application for Permit 37-08852, you could use this money to file the transfer application.

If you have any questions, or if I can be of any assistance, feel free to contact me at your convenience.

Sincerely,

Corey Skinner, EIT
Dam Safety Section

MEMORANDUM

DATE: December 2, 1996
TO: File No. 37-02734, 37-07011, 37-07290, & 37-08601
FROM: Cindy Zimmerman 
RE: Transfer Required

During the review of the beneficial use examination on 37-08601, I noted that the legal description of the points of diversion for licenses 37-02734, 37-07011, and 37-07290 required correction to add the backup well drilled in 1992.

I spoke with Marc Longley, manager of Hulen Meadows Subdivision on 9/26/96 about filing a transfer to make the p/d corrections. Mr. Longley understood and agreed to the corrections and will file a transfer.

Application for permit 37-08852 filed by Mr. Longley to cover any additional water use not covered by existing rights. The licensing of 37-08601 covered all remaining uses of water for the subdivision. Therefore, the new application is unnecessary. Mr. Longley plans to withdraw the application when he files the transfer and apply the permit application fee against the transfer filing fee. As of this date, we have not received either the transfer application or the request to withdraw the permit application at this office.

Today Corey Skinner called in follow-up to this situation. I explained the above to him. Corey volunteered to pursue the disposition of the permit application and transfer.

RE: WATER RIGHT NO. 37-08601

Dear Water Right Holder(s):

Enclosed is a copy of the Water Right License issued on the above referenced permit along with a copy of your approved Application for Amendment. Should you have any questions regarding these documents, please contact me.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

RE: Water Right No. 37-08601

Dear Marc:

Based on your discussions with her, Cindy Zimmerman has revised the licensing recommendations for Permit 37-08601. The permit still needs to be amended before a license can be issued. I am forwarding a copy of the revised Application for Amendment to you with this letter. Please review it carefully. If you agree with the information presented, please sign the form and send it to IDWR with the \$50 filing fee. I will hope to hear from you within fourteen days.

If you have any questions, please contact me at 208-327-7946.

Respectfully,

Shelley Walter Keen

SUBJECT: Telephone Conversation

=====

I called Mark Longley today in response to his letter dated 9/23/96. Mark Longley explained that a duplex unit is located on 9 of the 164 building lots, therefore, 173 total households will be or are served under this right when combined with all other rights. The lots containing a duplex unit are:

Blk. 8, Lots 5 & 7
Blk. 9, Lot 1
Blk. 12, Lots 1, 3, & 4
Blk. 13, Lot 8
Blk. 14, Lots 4 & 5.

I have adjusted my licensing recommendations to reflect the domestic use for 173 homes. Irrigation use does not require any adjustment.

Re: WATER RIGHT NO. 37-08601

Dear Shelley,

Thanks for the Application for Amendment. As we discussed over the phone early this week, there are some changes that should be noted.

Concerning to #8 of Conditions of Approval.

Hulen Meadows has a total number of lots with service valves installed, 170.

Of these 170 lots, there are 9 duplexes served by one water line each.

Also, of the 170 lots, there are 144 which use water.

This leaves 26 undeveloped lots in the whole subdivision.

The subdivision map that IDWR was referring to may not have listed all the subdivisions properly. That's probably how the number of 162 came up.

If have any further questions, please call me at 726-5942, or fax it to 726-1012.

Thank you for your help.

RE: WATER RIGHT NO. 37-08601

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to depict your water right as it has actually been developed.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the point(s) of diversion. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of Conditions of Approval and Remarks proposed for the license when it is issued. These conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

MEMORANDUM

DATE: August 27, 1996

TO: File Nos. 37-08601, 37-02734, 37-07011, & 37-07290

FROM: Cindy Zimmerman

SUBJECT: Beneficial Use Exam and Overlap Review on Hulen Meadows Subdivision

=====

Hulen Meadows Subdivision located in Lot 1 (NWNW), S01, T04N and SWNW, W $\frac{1}{2}$ SW, S36, T05N, R17E consists of:

- o 164 building lots totalling 117.6 acres (in bare lot size):
 - 127 building lots developed as of 12/31/95,
 - 37 building lots not developed;
- o 3 interconnected wells in lots totalling 0.5 acres:
 - Well #1 in Lot 3, Blk. 3 was abandoned, and moved to Lot 3A, Blk. 5,
 - Well #2 in Lot 3A, Blk. 5 (NWSW, S36),
 - Well #3 in Lot 1, Blk. 8 (Lot 1 (NWNW), S01);
- o 1 park in Lot 2, Blk. 1 totalling 4.3 acres.

The subdivision is covered by 3 licenses and one permit:

- o 37-02734 (licensed 1976):
 - irrigation use, 57 acres, 1.11 cfs, 171.0 AFA (3.0 AF/acre),
 - domestic use, 57 homes, 1.11 cfs, 68.4 AFA (1.2 AF/home),
 - maximum of 1.11 cfs, 239.4 AFA;
- o 37-07011 (licensed 1976):
 - irrigation use, 57 acres, 1.11 cfs, 171.0 AFA (3.0 AF/acre),
 - domestic use, 57 homes, 1.11 cfs, 68.4 AFA (1.2 AF/home),
 - maximum of 1.11 cfs, 239.4 AFA,
 - when combined with 37-02734 shall not exceed 1.35 cfs or 68.4 AFA for domestic use and 171.0 AFA for irrigation use;
- o 37-07290 (licensed 1980):
 - domestic use, 57 homes, 1.11 cfs, 68.4 AFA (1.2 AF/home);
- o 37-08601 (permitted 1990, examined 1991, pending licensing):
 - irrigation use, 72 acres, 0.90 cfs,
 - domestic use, 180 homes, 0.90 cfs.

None of the existing licenses identify if domestic use is limited to in-house use or which lots were developed at time of licensing. All three licenses identify same well pumps, however, all three existing licenses do not reflect the current location of wells. A transfer needs to be filed to correct the recorded p/ds to the actual p/ds.

MICROFILMED
NOV 05 1996

Hulen Meadows Subdivision
B/U and Overlap Review
August 29, 1996

Cory Skinner, southern region, obtained the following information:

- from on-site visit:
 - all lots are stubbed in;
- from Mark Longley, manager of Hulen Meadows Water Association:
 - Master Subdivision Plat identifying lot size, numbering, and water distribution system and location of abandoned and existing wells,
 - pump capacities by well and combined pumped volumes from 5/1992 to 5/1996 as recorded by McCrometer well pump meters;
- from the Blaine County Assessor:
 - number and location of developed lots per development period,
 - number and location of undeveloped lots.

I recommend permit no. 37-08601 be licensed as follows:

◦irrigation use:

- rate of diversion = 0.90 cfs as permitted,
- (home lots + well lots + park) - (acres already licensed):
= $(117.6 + 0.5 + 4.3) - 57$
= $122.4 - 57$
= 65.4 acres,
- annual volume = (total acres x AF/acre) - (already licensed):
= $(122.4 \times 3.5) - 181.0$
= $428.4 - 181.0$
= 247.4 AF;

◦domestic use:

- rate of diversion = 0.90 as permitted,
- 164 homes, in-house use only, within Hulen Meadows Subdivision,
- annual volume = (total homes x AF/home) - (already licensed):
= $(164 \times 0.6) - 136.8$
= $98.4 - 136.8$
= 0 no volume for domestic use recommended.

The 122.4 irrigated acres are located:

T04N R17E S01 NWNW 28.4 acres
T05N R17E S36 SWNW 24.0 acres
NWSW 35.0 acres
SWSW 35.0 acres
122.4 acres

A licensing amendment will be required to correct the legal description of the points of diversion to that identified in this memo.

RE: Permit No. 37-8601

Gerald L. Martens, P.E.
1139 Falls Ave. E., Suite B
Twin Falls, ID 83301

Dear Mr. Martens:

Enclosed is the Beneficial Use Field Report you recently submitted on the above referenced permit. In order for me to process the examination report and issue a license, a couple of items of information are required from you.

First, some indication is needed as to the means used to determine the number of acres irrigated. It appears that the numbers were simply taken from the original application without verification.

Also, please indicate the number of homes supplied water by this system. Lots having stubbed lines, without homes having yet been constructed, can be included in this figure. The volume for domestic use is then calculated on that number (number of homes multiplied by 0.6 af for in-house use only or by 1.2 for in-house + lawn &/or garden irrigation). If the irrigation component under this right is a reflection of the lawns &/or gardens, the volume for domestic use would be calculated at 0.06 af/home.

Please modify the report to include these requested items and return it to my attention within 30 days. If you have any questions, feel free to give me a call.

Sincerely,

SHARLA CURTIS
Water Resource Agent

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is Amended Date 3/11/91

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

LAPSE NOTICE

RE: PERMIT NO. 37-08601

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated July 31, 1991. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 37-08601

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 37-08601

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also

MICROFILMED

OCT 18 1990

enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Re: Amended Application for Permit No. 37-08601

Dear Mr. Burkett:

The Department of Water Resources acknowledges the changes to the above referenced application for permit in the name of Hulen Meadows Water Company as requested in your correspondence dated 7/2/90. The changes to the application enable the Department to remove the application from the Swan Falls hold category and process as a routine application.

This office will be advertising the application in the Wood River Journal on 7/18 & 7/25/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Gary Funderburg
Sr. Water Resource Agent

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before AUGUST 6, 1990.

Yours truly,

Mary Baldwin
Secretary/Office Coordinator

SUBJECT

App. No. 37-8601 / TRUST WATER PROCESSING.

I spoke w/ Gary Burkett today about this App. Previous correspondence was sent by GARY FUNKERBERG. Burkett incorrectly addressed letter to me. Burkett also informed me that use is for subdivision. This App apparently was filed for AN ADDITIONAL well & some additional flow rate capacity. We should process this filing out of sequence. Please attach letter to file.

RE: Amended Water Right Application No. 37-08-601

Tim:

We have received your letter regarding Hulen Meadows water right application number 37-80-8360. After review of your letter and consultation with Department personnel, we wish to revise the application to obtain a reduced water right of 0.9 cubic feet per second.

Please process the application with the new quantity of 0.9 cfs and respond as appropriate.

If you have any questions, please call.

Respectfully yours,

EHM ENGINEERS, INC.

Re: Application for permit No. 37-08601

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

Because your application proposes to appropriate water which has been identified as "trust water" in the Swan Falls agreement, it will be processed under rules and regulations for water appropriation that have been adopted as required by law.

Under the rules, applications will be processed at a rate which allows development of 20,000 acres per year. The oldest applications will be processed first, provided that applicants are willing and able to proceed.

For this reason, it is not possible to estimate at this time when action will be taken on your application.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Gary Funderburg
Sr. Water Resource Agent
