RE: Change of Ownership for Water Right Permit 37-8596

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water right permit to you. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

for Jeff Peppersack, Manager

RE: Change in Ownership for Water Right Permit No. 37-08596

Dear Mr. & Mrs. Blake:

The Department of Water Resources acknowledges receipt of your Notice of Change in Water Right Ownership. Our review of your notice indicates that additional information is required before we can process the change. The information required is indicated below:

✓ **Notarized Signature** for Assignment of Permit

Because this water right is still in the permit stage, an Assignment of Permit will be required to complete the ownership change. Enclosed is an assignment form for your use. We are returning the paperwork that you sent as we only require the completed assignment form to process the change. The filing fee that you sent for the Change of Ownership can be used for the Assignment of Permit.

Because the Department cannot process the ownership change without proper documentation, we will hold any action on your notice pending receipt of the necessary information. If we do not receive the necessary information within 30 days the file will be returned to storage and no further action will be taken.

Please note that water right owners are required to report any change in water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage (<http://www.idwr.state.id.us>) on the Internet to obtain the proper forms and instructions.

PROOF DUE NOTICE

RE: PERMIT NO. 37-08596

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: Permit 37-08596

Dear Mrs. Lauder;

We are returning the Proof of Beneficial Use and Request for Extension of Time that you recently submitted for the above-referenced water permit. Your check for \$15. is also enclosed. Proof of beneficial use for this permit is not due until August 1, of this year. Our Boise office will notify you around the first of June that proof is due. We cannot accept a Request for Extension of Time more than sixty days before the proof-due date.

If you have any questions, please feel free to contact this office.

Sincerely,

James E. Stanton

Dear Ms. Lauder:

Re: Permit No. 37-8596

Returned is the proof of beneficial use form submitted to this office on September 10, 1990.

Note the enclosed instruction sheet/fee schedule. Before the department can accept the form with a diversion rate of 0.13 cfs a license exam fee of \$50 is required.

If you have any questions, please feel free to contact me.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

RE: PERMIT NO. P37-08596

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form titled "Proof of

MicroFILMED
JUL 30 1990

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

Re: Application for Permit No. 37-08596

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Wood River Journal on 5/2 & 5/9/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
Sr. Water Resource Admin

ACTION OF DEPARTMENT OF WATER RESOURCES

This Permit is Approved Date 4/12/90

If approved, this permit authorizes the construction of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT

Joanne Lauder, Applicant, requests issuance of a drilling permit prior to approval of a water right to withdraw water from the well.

The request is made for the following reason(s):

x Expedited issuance of a permit is requested to permit connection of the residence (domestic well) a horse barn (stock water) to water service as soon as possible. The horse barn is to be serviced by the domestic well.

Applicant understands that the drilling permit does not constitute a water right and does not authorize diversion or use of water from the well.

Applicant acknowledges that by accepting a drilling permit and commencing construction he accepts all risk that the well may not ultimately be approved for use.

Dear Ms. Lauder:

Enclosed please find your receipt for the filing fee for you new application for permit and pertinent drilling permit.

Also enclosed is a request for expedited action on the drilling permit which you must complete, sign and return to this office to obtain expedited approval of the drilling permit. If a written request is not received, approval of the drilling permit will be made at the same time as your application for permit.

Please note on the enclosed copy of the application for permit that revisions/additions have been made to meet requirements of Rules & Regulations for water appropriation.

If you have any questions or if this office can be of further assistance, please feel free to contact us.

Very truly yours,
